

Commission estimates that a fund complex will incur a one time average burden of 40 hours associated with documenting the liquidity risk management programs adopted by each fund within a fund complex, in addition to a one time burden of 10 hours per fund complex associated with fund boards' review and approval of the funds' liquidity risk management programs and preparation of board materials. We estimate that the total burden for initial documentation and review of funds' written liquidity risk management program will be 42,300 hours.

Rule 22e-4 requires any fund that does not primarily hold assets that are highly liquid investments to determine a highly liquid investment minimum for the fund, which must be reviewed at least annually, and may not be changed during any period of time that a fund's assets that are highly liquid investments are below the determined minimum without approval from the fund's board of directors. We estimate that fund complexes will have at least one fund that will be subject to the highly liquid investment minimum requirement. Thus, we estimate that 846 fund complexes will be subject to this requirement under rule 22e-4 and that the total burden for preparation of the board report associated will be 11,844 hours.

Rule 22e-4 requires a fund or In-Kind ETF to maintain a written copy of the policies and procedures adopted pursuant to its liquidity risk management program for five years in an easily accessible place. The rule also requires a fund to maintain copies of materials provided to the board in connection with its initial approval of the liquidity risk management program and any written reports provided to the board, for at least five years, the first two years in an easily accessible place. If applicable, a fund must also maintain a written record of how its highly liquid investment minimum and any adjustments to the minimum were determined, as well as any reports to the board regarding a shortfall in the fund's highly liquid investment minimum, for five years, the first two years in an easily accessible place. We estimate that the total burden for recordkeeping related to the liquidity risk management program requirement of rule 22e-4 will be 3,384 hours.

We estimate that the hour burdens and time costs associated with rule 22e-4 for open-end funds, including the burden associated with (1) funds' initial documentation and review of the required written liquidity risk management program, (2) reporting to a

fund's board regarding the fund's highly liquid investment minimum, and (3) recordkeeping requirements will result in an average aggregate annual burden of 25,380 hours,

UITs may in some circumstances be subject to liquidity risk (particularly where the UIT is not a pass-through vehicle and the sponsor does not maintain an active secondary market for UIT shares). On or before the date of initial deposit of portfolio securities into a registered UIT, the UIT's principal underwriter or depositor is required to determine that the portion of the illiquid investments that the UIT holds or will hold at the date of deposit that are assets is consistent with the redeemable nature of the securities it issues, and maintain a record of that determination for the life of the UIT and for five years thereafter. We estimate that 1,385 newly registered UITs will be subject to the UIT liquidity determination requirement under rule 22e-4 each year. We estimate that the total burden for the initial documentation and review of UIT funds' written liquidity risk management program would be 13,850 hours. We estimate that the total burden for recordkeeping related to UIT liquidity risk management programs will be 2,770 hours.

Compliance with the collection of information requirements of the rule is necessary to obtain the benefit of relying on the rule. "An agency" may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

The public may view the background documentation for this information collection at the following website, www.reginfo.gov. Comments should be directed to: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503, or by sending an email to: Lindsay.M.Abate@omb.eop.gov; and (ii) David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o Cynthia Roscoe, 100 F Street NE, Washington, DC 20549 or send an email to: PRA_Mailbox@sec.gov. Comments must be submitted to OMB within 30 days of this notice.

Dated: February 6, 2020.

J. Matthew DeLesDernier,
Assistant Secretary.

BILLING CODE 8026-03-P

DEPARTMENT OF STATE

[Public Notice: 11019]

Winnipeg, MB, Canada Hearing International Red River Board Report on Nutrient Targets

ACTION: Notice of public hearing; request for comments.

SUMMARY: The International Joint Commission is having a meeting and request public comment on recommendations by the International Red River Board (IRRB) on proposed

nutrient concentration objectives and nutrient load targets for the Red River at the boundary between the United States and Canada. The IRRB's full report can be found on the IJC website at the following link: www.ijc.org/what/engagement/public-comment-IRRB-nutrient-2020.

DATES: *Public Hearing:* February 12, 2020, 7-9 p.m.; *Comments due:* February 28, 2020.

ADDRESSES: The public hearing will be held at Four Points by Sheraton Hotel Winnipeg South, 2935 Pembina Highway Winnipeg, Manitoba, Canada R3T 2H5. Comments will be accepted by the following methods:

- *Public hearing:* 2935 Pembina Highway Winnipeg, Manitoba, Canada R3T 2H5.
- *Mail:* 1717 H Street NW, Suite 845, Washington, DC 20006.
- *Email:* bevacquauf@washington.ijc.org.

FOR FURTHER INFORMATION CONTACT: Sarah Lobrichon (Ottawa), 613-992-5368, lobrichons@ottawa.ijc.org or Frank Bevacqua (Washington), 202-736-9024, bevacquauf@washington.ijc.org.

SUPPLEMENTARY INFORMATION: The Commission reports on water quality of the Red River as it crosses the boundary pursuant to a reference under Article IX of the Boundary Waters Treaty between the United States and Canada. Commission recommendations to the two federal governments under Article IX References of the Boundary Waters Treaty are not binding and not to be considered decisions of the two federal governments.

The International Red River Board was established by the Commission in part to assist in reporting on the water quality of the Red River as it crosses the boundary and to recommend amendments or additions to the water quality objectives approved by the U.S. and Canadian governments in 1968 when considered warranted by the Commission.

In the 2000s the IRRB identified nutrients as an issue of concern. The Board established a Water Quality Committee to develop recommendations for potential nutrient load allocations and/or targets. At the IRRB's September 2019 meeting the Board agreed to recommend the following nutrient concentration objectives and nutrient load targets for the Red River at the boundary between the U.S. and Canada:

- *Nutrient concentration objective:* Total Phosphorus 0.15 mg/L.
- *Total Nitrogen:* 1.15 mg/L.
- *Application:* Seasonal Average (April 1-October 30).

- *Nutrient load target:* Total Phosphorus 1,400 tonnes/year.
- *Total Nitrogen:* 9,525 tonnes/year.
- *Application:* Five year running average.

Commissioners will be present to hear comments at the above referenced public hearing in Winnipeg, Manitoba, Canada on February 12, 2020 from 7-9 p.m. A public comment period on the IRRB's report will also be open through February 28, 2020. Public input is essential to the Commission's consideration of a recommendation to the Governments of the United States and Canada.

The International Joint Commission was established under the Boundary Waters Treaty of 1909 to help the United States and Canada prevent and resolve disputes over the use of the waters the two countries share. Its responsibilities include investigating and reporting on issues of concern when asked by the governments of the two countries. www.ijc.org.

Frank L. Bevacqua,

Public Information Officer, U.S. Section, International Joint Commission, Department of State.

BILLING CODE 4710-14-P

DEPARTMENT OF STATE

[Public Notice:11035]

Notice of Intent To Request Emergency Processing of Information Collection: Public Charge Questionnaire

ACTION: Public notice.

SUMMARY: The Department of State intends to seek emergency processing of proposed form DS-5540, Public Charge Questionnaire from the Office of Management and Budget (OMB). The Department will seek OMB approval of the form by February 24, 2020, so that the Department can implement its interim final rule on the public charge ground of visa ineligibility on this date. The Department also intends to respond, in the supporting statement drafted in support of the request for OMB approval, to public comments that it received in response to its request for public comments on the same form DS-5540 that was published in the **Federal Register** on October 24. The Department will publish another notice in the **Federal Register** once it has requested emergency processing from OMB.

FOR FURTHER INFORMATION CONTACT: Direct requests for additional information regarding the collection listed in this notice, including requests
