International Fisheries; Pacific Tuna Fisheries; Procedures for the Active and Inactive Vessel Register; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; Correcting amendment.

SUMMARY: On December 20, 2019, NMFS published a final rule under the Tuna Conventions Act of 1950 (TCA), as amended, and the Marine Mammal Protection Act (MMPA), as amended, to implement International Maritime Organization (IMO) requirements in Inter-American Tropical Tuna Commission (IATTC) Resolution C–18–06 (Resolution (Amended) on a Regional Vessel Register) and amendments to existing regulations governing inclusion on the IATTC Regional Vessel Register (Vessel Register) by purse seine vessels fishing in the eastern Pacific Ocean (EPO). The December 20th final rule inadvertently contained provisions allowing for the collection of a “business email address” without Office of Management and Budget (OMB) approval under the Paperwork Reduction Act. This amendment is necessary to correct these two revised collection-of-information requirements, because they became effective before approval by OMB.

SUPPLEMENTARY INFORMATION:

Federal Register Correction

On December 20, 2019, NMFS published a final rule in the Federal Register (84 FR 70040) to implement IMO requirements in IATTC Resolution C–18–06 (Resolution (Amended) on a Regional Vessel Register) and amendments to existing regulations governing inclusion on the Vessel Register by purse seine vessels fishing in the EPO. That final rule is effective January 21, 2020 that included new or revised information collections, which are delayed until publication of a document in the Federal Register announcing the effective date.

The final rule amended paragraphs 50 CFR 300.22(b)(4)(ii)(A) and 50 CFR 300.22(b)(4)(iii)(B) to require a “business email address” in the written notification from purse seine vessels with a carrying capacity of 400 short tons or less requesting active or inactive status on the Vessel Register. The provision requiring a “business email address” in the written notification from purse seine vessels with a carrying capacity of 400 short tons or less requesting active or inactive status on the Vessel Register is not yet approved and the regulatory requirement found in these paragraphs is not yet approved and the regulatory text is corrected here. Once reviewed and approved by OMB, NMFS will issue another correcting amendment that implements the requirement for a “business email address”.
Classification

This final rule has been determined to be not significant for the purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

This final rule correction amends two paragraphs that contain existing collection-of-information requirements approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (PRA) under control number 0648–0387.

The NOAA Assistant Administrator for Fisheries (AA) finds that the need to immediately implement this regulatory correction constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B) of the Administrative Procedure Act (APA), because prior notice and opportunity for public comment on this final rule is unnecessary and contrary to the public interest. Such procedures are unnecessary and contrary to the public interest, because the rules implementing revisions and updates to NMFS' Tuna Convention Act regulations have already been subject to notice and comment and not correcting the regulatory text would result in confusion and uncertainty for the affected entities.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

These measures are thus exempt from the procedures of the Regulatory Flexibility Act because prior notice and comment are not required under the APA.

Atlantic Surfclam and Ocean Quahog Fisheries; 2020 Fishing Quotas for Atlantic Surfclams and Ocean Quahogs; and Suspension of Minimum Atlantic Surf clam Size Limit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS announces that the quotas for the Atlantic surfclam and ocean quahog fisheries for 2020 will remain status quo. NMFS also suspends the minimum size limit for Atlantic surfclams for the 2020 fishing year. Regulations for these fisheries require NMFS to notify the public of the allowable harvest levels for Atlantic surfclams and ocean quahogs from the Exclusive Economic Zone if the previous year’s quota specifications remain unchanged.

FOR FURTHER INFORMATION CONTACT: Laura Hansen, Fishery Management Specialist, 978–281–9225.

SUPPLEMENTARY INFORMATION: The Atlantic Surfclam and Ocean Quahog Fishery Management Plan (FMP) requires that NMFS issue a notice in the Federal Register of the upcoming year’s quota, even if the quota remains unchanged from the previous year. At its April 2019 meeting, the Mid-Atlantic Fishery Management Council approved changes to the overfishing limits (OFL) for the 2019 and 2020 fishing years. The OFL for the 2020 fishing year is 74,110 mt. The annual catch targets and commercial quota remain unchanged by the modification to the OFL. At its June 2019 meeting, the Council recommended no change to the quota specifications for Atlantic surfclams and ocean quahogs for the 2020 fishing year. We are announcing 2020 quota levels of 3.4 million bushels (bu) (181 million L) for Atlantic surfclams, 5.33 million bu (288 million L) for ocean quahogs, and 100,000 Maine bu (3.52 million L) for Maine ocean quahogs. These quotas were published as projected 2020 limits in the Federal Register on February 6, 2018 (83 FR 5212). This rule establishes
