Request for Information (RFI): Inviting Comments and Suggestions on a Framework for the NIH-Wide Strategic Plan for FYs 2021–2025

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: This Request for Information (RFI) is intended to gather broad public input to assist the National Institutes of Health (NIH) in developing the NIH-Wide Strategic Plan for Fiscal Years (FYs) 2021–2025. NIH invites input from stakeholders throughout the scientific research, advocacy, and clinical practice communities, as well as the general public, regarding the proposed framework for the FY 2021–2025 NIH-Wide Strategic Plan. Organizations are strongly encouraged to submit a single response that reflects the views of their organization and their membership as a whole.

DATES: This RFI is open for public comment for a period of 6 weeks. Comments must be received by 11:59:59 p.m. (ET) on March 25, 2020 to ensure consideration.

ADDRESSES: All comments must be submitted electronically on the submission website, available at <https://grants.nih.gov/grants/rfi/rfi.cfm?ID=101>.

FOR FURTHER INFORMATION CONTACT: Please direct all inquiries to: Marina Volkov, [nihstrategicplan@od.nih.gov](mailto:.nihstrategicplan@od.nih.gov), 301.496.4147.

SUPPLEMENTARY INFORMATION: The purpose of the NIH-Wide Strategic Plan is to communicate how NIH will advance its mission to support research in pursuit of fundamental knowledge about the nature and behavior of living systems, and the application of that knowledge to enhance health, lengthen life, and reduce illness and disability.

The current NIH-Wide Strategic Plan (available at: <https://www.nih.gov/about-nih/nih-wide-strategic-plan>), covering FYs 2016–2020, was submitted to Congress on December 15, 2015. As part of implementing the 21st Century Cures Act (Pub. L. 114–255), NIH will update its Strategic Plan every five years. The agency is currently developing an updated NIH-Wide Strategic Plan, for FYs 2021–2025, and anticipates releasing it in December 2020.

The FY 2021–2025 NIH-Wide Strategic Plan will highlight NIH’s

approach towards the achievement of its mission while ensuring good stewardship of taxpayer funds. It is not intended to outline the myriad of important research opportunities for specific diseases or conditions. Nor will it focus on the specific research missions of each component Institute, Center and Office. Those opportunities are found within strategic plans that are specific to an Institute, Center, or Office, or specific to a particular disease or disorder. (A list of Institute, Center, or Office-specific, topical, and other NIH-wide or interagency strategic plans is available at <https://report.nih.gov/strategicplans/>.)

The Framework for the FY 2021–2025 NIH-Wide Strategic Plan, below, articulates NIH’s priorities in three key areas (Objectives): Biomedical and behavioral science research; scientific research capacity; and scientific integrity, public accountability, and social responsibility in the conduct of science. These Objectives apply across NIH. In addition, several Cross-Cutting Themes, which span the scope of these Objectives, are identified.

NIH-Wide Strategic Plan Framework

Cross Cutting Themes

- Increasing, Enhancing, and Supporting Diversity
- Improving Women’s Health and Minority Health, and Reducing Health Disparities
