BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Centers for Disease Control and Prevention****Announcement of Requirements and Registration for the 2020 Million Hearts Hypertension Control Challenge**

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Disease Control and Prevention (CDC) located within the Department of Health and Human Services (HHS) announces the launch of the 2020 Million Hearts Hypertension Control Challenge.

DATES: The Challenge will accept applications from February 21, 2020 through April 6, 2020.

FOR FURTHER INFORMATION CONTACT: Division for Heart Disease and Stroke Prevention, National Center for Chronic Disease Prevention and Health Promotion, Centers for Disease Control and Prevention, 4770 Buford Hwy NE, Mailstop MS-S107-1, Chamblee, GA 30341, Telephone: 770-488-2424, Email: millionhearts@cdc.gov; subject line of email: Million Hearts Hypertension Control Challenge; Attention: Mary George.

SUPPLEMENTARY INFORMATION:**Background**

Million Hearts is a national initiative to prevent one million heart attacks and strokes by 2022. In order to prevent one million cardiovascular events (e.g., heart attacks and strokes), we need to decrease smoking, sodium consumption and physical inactivity by 20%; improve performance on quality of care measures for appropriate aspirin use, blood pressure control, cholesterol management, and smoking cessation to 80%; and improve outcomes for priority populations disproportionately burdened by cardiovascular disease. Over the last six years, we have seen tremendous progress by providers and health care systems that focus on improving their performance in controlling patients' blood pressure. Getting to 80% blood pressure control would mean that 10 million more Americans with hypertension would have their blood pressure under control, and be at substantially lower risk for strokes, heart attacks, kidney failure, and other related cardiovascular events. For more information about the initiative, visit <https://millionhearts.hhs.gov/>. Million Hearts is a registered trademark of the Department of Health and Human Services.

The challenge is an important way to call attention to the need for improved hypertension control, provides a powerful motivation and target for clinicians, and will improve understanding of successful implementation strategies at the health system level. It will identify clinicians, clinical practices, and health systems that have exceptional rates of
