

business and activities of the agency at all levels, including in procurement, insurance, and all types of contracts. As a result, NCUA developed the Contractor Profile form to be completed by a contractor to ensure the fair inclusion and utilization of minorities and women in the workforce of the contractor and, as applicable, subcontractor. The Contractor Profile form includes a series of questions covering a contractor's, and, as applicable, a subcontractor's diversity strategies, policies, recruitment, succession planning, and outreach. The information provided is used by NCUA to determine if good faith efforts are met and to fulfill statutory requirements of the Act. Determinations are valid for a two-year period.

*Affected Public:* Private Sector: Not-for-profit institutions.

*Estimated No. of Respondents:* 40.

*Estimated No. of Responses per Respondent:* 1.

*Estimated Total Annual Responses:* 40.

*Estimated Burden Hours per Response:* 0.75.

*Estimated Total Annual Burden Hours:* 30.

*Reason for Change:* Adjustments are attributed to current updated data since the last previous submission.

*Request for Comments:* Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) Whether the collection of information is necessary for the proper execution of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

By Gerard Poliquin, Secretary of the Board, the National Credit Union Administration, on February 14, 2020.

Dated: February 14, 2020.

## NATIONAL SCIENCE FOUNDATION

### Notice of Open to the Public Meetings of the Networking and Information Technology Research and Development (NITRD) Program

**AGENCY:** Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO), National Science Foundation.

**ACTION:** Notice of public meetings.

**SUMMARY:** The NITRD Program holds meetings that are open to the public to attend. The Joint Engineering Team (JET) and Middleware And Grid Interagency Coordination (MAGIC) Team provide an opportunity for the public to engage and participate in information sharing with Federal agencies. The JET and MAGIC Team report to the NITRD Large Scale Networking (LSN) Interagency Working Group (IWG).

**DATES:** March 2020–March 2021.

**FOR FURTHER INFORMATION, CONTACT:** Ms. Joyce Lee at [joyce.lee@nitrd.gov](mailto:joyce.lee@nitrd.gov) or (202) 459-9674. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:** The Joint Engineering Team (JET) established in 1997, provides a forum for participants with interests in high performance research networking and networking to support science applications.

The Middleware And Grid Interagency Coordination (MAGIC) Team, established in 2002, provides a forum for participants with interests and responsibility for middleware, cloud and grid computing services, standards, and implementation; best practices for resource architecture, access, and management; and security and privacy.

The JET and MAGIC Team meetings are hosted by the NITRD NCO with WebEx and/or teleconference participation available for each meeting.

*Public Meetings website:* The JET and MAGIC Team meetings are scheduled 30 days in advance of the meeting date. Please reference the NITRD Public Meetings web page (<https://www.nitrd.gov/meetings/public/>) for each Team's upcoming meeting dates and times, in addition to the agendas, minutes, and other information.

*Public Meetings Mailing Lists:* Members of the public may be added to the mailing lists by sending their full name and email address to [jet-signup@nitrd.gov](mailto:jet-signup@nitrd.gov) for the JET and [magic-signup@nitrd.gov](mailto:magic-signup@nitrd.gov) for the MAGIC Team, with the subject line: "Add to JET" or "Add to

MAGIC," respectively. Meeting notifications and information are shared via the mailing lists.

*Public Comments:* The government seeks individual input; participants may provide individual advice only. Members of the public are welcome to submit their comments for the JET to [jet-comments@nitrd.gov](mailto:jet-comments@nitrd.gov) and for the MAGIC Team to [magic-comments@nitrd.gov](mailto:magic-comments@nitrd.gov). Please note that under the provisions of the Federal Advisory Committee Act (FACA), all public comments and/or presentations will be treated as public documents and may be made available to the public via the JET and MAGIC web pages.

*Reference website:* NITRD website at: <http://www.nitrd.gov/>.

Submitted by the National Science Foundation in support of the Networking and Information Technology Research and Development (NITRD) National Coordination Office (NCO) on February 14, 2020.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request; Grantee Reporting Requirements for the Emerging Frontiers in Research and Innovation Program

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

**DATES:** Written comments on this notice must be received by April 20, 2020 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who

use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* Grantee Reporting Requirements for the Emerging Frontiers in Research and Innovation Program.

*OMB Number:* 3145-0233.

*Expiration Date of Approval:* June 30, 2020.

*Type of Request:* Revision to and extension of approval of an information collection.

*Proposed Project:* The Emerging Frontiers in Research and Innovation (EFRI) program recommends, prioritizes, and funds interdisciplinary initiatives at the emerging frontier of engineering research and education. These investments represent transformative opportunities, potentially leading to: new research areas for NSF, ENG, and other agencies; new industries or capabilities that result in a leadership position for the country; and/or significant progress on a recognized national need or grand challenge.

Established in 2007, EFRI supports cutting-edge research that is difficult to fund through other NSF programs, such as single-investigator grants or large research centers. EFRI seeks high-risk opportunities with the potential for a large payoff where researchers are encouraged to stretch beyond their ongoing activities. Based on input from workshops, advisory committees, technical meetings, professional societies, research proposals, and suggestions from the research community, the EFRI program identifies those emerging opportunities and manages a formal process for funding their research. The emerging ideas tackled by EFRI are "frontier" because they not only push the understood limits of engineering but actually overlap multiple fields. The EFRI funding process inspires investigators with different expertise to work together on one emerging concept.

EFRI awards require multi-disciplinary teams of at least one Principal Investigator and two Co-Principal Investigators. The anticipated duration of all awards is 4-years. With respect to the anticipated funding level, each project team may receive support of up to a total of \$2,000,000 spread over four years, pending the availability of funds. In this respect, EFRI awards are above the average single-investigator award amounts.

EFRI-funded projects could include research opportunities and mentoring

for educators, scholars, and university students, as well as outreach programs that help stir the imagination of K-12 students, often with a focus on groups underrepresented in science and engineering.

We are seeking to collect additional information from the grantees about the outcomes of their research that goes above and beyond the standard reporting requirements used by the NSF and spans over a period of 5 years after the award. This data collection effort will enable program officers to longitudinally monitor outputs and outcomes given the unique goals and purpose of the program. This is very important to enable appropriate and accurate evidence-based management of the program and to determine whether or not the specific goals of the program are being met.

Grantees will be requested to submit this information on an annual basis to support performance review and the management of EFRI grants by EFRI officers. EFRI grantees will be requested to submit these indicators to NSF via a data collection website that will be embedded in NSF's IT infrastructure. These indicators are both quantitative and descriptive and may include, for example, the characteristics of project personnel and students; sources of complementary funding and in-kind support to the EFRI project; characteristics of industrial and/or other sector participation; research activities; education activities; knowledge transfer activities; patents, licenses; publications; descriptions of significant advances and other outcomes of the EFRI effort.

Each submission will address the following major categories of activities: (1) Knowledge transfer across disciplines, (2) innovation of ideas in areas of great opportunity, (3) potential for translational research, (4) project results that advance the frontier/creation of new fields of study, (5) introduction to the classroom of innovative research methods or discoveries, (6) fostering participation of underrepresented groups in science, and (7) impacting student career trajectory. For each of the categories, the report will enumerate specific outputs and outcomes.

*Use of the Information:* The data collected will be used for NSF internal reports, historical data, and performance review by peer site visit teams, program level studies and evaluations, and for securing future funding for continued EFRI program maintenance and growth.

*Estimate of Burden:* Approximately 7 hours per grant for approximately 100

grants per year for a total of 700 hours per year.

*Respondents:* Principal Investigators who lead the EFRI grants, and co-Principal Investigators and students involved in EFRI-funded research.

*Estimated Number of Responses per Report:* One report collected for each of the approximately 100 grantees every year, including sub-reports from co-PIs and student researchers.

Dated: February 14, 2020.

## NATIONAL SCIENCE FOUNDATION

### Sunshine Act Meetings; National Science Board

The National Science Board (NSB), pursuant to NSF regulations (45 CFR part 614), the National Science Foundation Act, as amended, (42 U.S.C. 1862n-5), and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives a correction to the scheduling of a previously noticed meeting for the transaction of NSB business as described below.

**FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT:** The meeting was originally noticed in the **Federal Register** on January 30, 2020 at 85 FR 5486.

#### PREVIOUSLY ANNOUNCED TIME AND DATE OF THE MEETING:

#### Original Committee on Oversight (CO) Agenda

*Wednesday, February 5, 2020*

Open session: 2:30-3:00 p.m.

- Committee Chair's Remarks
- Approval of Prior Open Minutes
- Merit Review Digest and Update on Modernization
  - Discussion and vote on NSB Preface to Merit Review Digest
- OIG Semiannual Report and Management Response
- Inspector General's Update
- Chief Financial Officer's Update

#### CHANGES IN THE MEETING:

#### Corrected Committee on Oversight (CO) Agenda

*Wednesday, February 5, 2020*

Open session: 2:30-3:00 p.m.

- Committee Chair's Remarks
- Approval of Prior Open Minutes
- Merit Review Digest and Update on Modernization
