[Docket No. FAA-2019-1042; Airspace Docket No. 19-AGL-28]

RIN 2120-AA66

Proposed Amendment of Class E Airspace; Siren, WI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Class E airspace extending upward from 700 feet above the surface at Burnett County Airport, Siren, WI. The FAA is proposing these actions as the result of an airspace review caused by the decommissioning of the Siren VHF omnidirectional range (VOR) navigation aid, which provided navigation information for the instrument procedures at this airport, as part of the VOR Minimum Operational Network (MON) Program. The geographic coordinates of the airport

would also be updated to coincide with the FAA's aeronautical database. Airspace redesign is necessary for the safety and management of instrument flight rules (IFR) operations at this airport.

DATES: Comments must be received on or before April 6, 2020.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366-9826, or (800) 647-5527. You must identify FAA Docket No. FAA-2019-1042/Airspace Docket No. 19-AGL-28 at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.gov>. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of

airspace. This regulation is within the scope of that authority as it would amend the Class E airspace extending upward from 700 feet above the surface at Burnett County Airport, Siren, WI, to support IFR operations at this airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2019-1042/Airspace Docket No. 19-AGL-28." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by amending the Class E airspace extending upward from 700 feet above the surface to within a 6.5-mile radius (increased from a 6.4-mile radius) of the Burnett County Airport, Siren, WI; removing the city associated with the airport to comply with a change to FAA Order 7400.2M, Procedures for Handling Airspace Matters; updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database; removing the exclusionary language from the airspace legal description as it is no longer required; adding an extension 2 miles each side of the 045° bearing from the airport extending from the 6.5-mile radius to 9.5 miles northeast of the airport; adding an extension 2 miles each side of the 137° bearing from the airport extending from the 6.5-mile radius to 9.9 miles southeast of the airport; adding an extension 2 miles each side of the 225° bearing from the airport extending from the 6.5-mile radius to 9.5 miles southwest of the airport; and adding an extension 2 miles each side of the 317° bearing extending from the 6.5-mile radius to 9.5 miles northwest of the airport.

These actions are the result of an airspace review caused by the decommissioning of the Siren VOR, which provided navigation information for the instrument procedures at these airports, as part of the VOR MON Program.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

SUPPLEMENTARY INFORMATION:

I. Background

In December 1972, the Commission published for public comment proposed Guides Concerning the Use of Endorsements and Testimonials in Advertising, 37 FR 25548 (1972). Interested parties submitted extensive comments. On May 21, 1975, the Commission promulgated, under the Federal Trade Commission Act (“FTC Act”), 15 U.S.C. 41–58, three sections of the 1972 proposal as final guidelines (16 CFR 255.0, 255.3 and 255.4) and republished three others, in modified form, for additional public comment. 40 FR 22127 (1975). The Commission received public comment on the three re-proposed guidelines, as well as on one of the final guidelines. On January 18, 1980, the Commission promulgated three new sections as final guidelines (16 CFR 255.1, 255.2 and 255.5) and modified one example to one of the final guidelines adopted in May 1975 (16 CFR 255.0 Example 4). 45 FR 3870 (1980).

As part of its periodic regulatory review, the Commission sought public comment on the Endorsement Guides in January 2007. 72 FR 2214 (2007). In November 2008, the Commission discussed the comments it received in 2007, proposed certain revisions to the Guides, and requested comment on those proposed revisions. 73 FR 72374 (2008). In October 2009, the Commission substantively amended the Guides. 74 FR 53124 (2009).

The Guides are designed to assist businesses and others in conforming their endorsement and testimonial advertising practices to the requirements of Section 5 of the FTC Act. The Guides interpret laws the Commission administers, and thus are advisory in nature. The Commission, however, can take action under the FTC Act if an endorsement or testimonial is inconsistent with the Guides. In any such enforcement action, the Commission must prove that the challenged act or practice is unfair or deceptive in violation of Section 5 of the FTC Act. The Guides define both endorsements and testimonials broadly to mean any advertising message that consumers are likely to believe reflects the opinions, beliefs, findings, or experience of a party other than the
