BILLING CODE 4337-15-P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Parts 201 and 202

[Docket No. 2020-2]

Group Registration of Newsletters

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Notice of proposed rulemaking.

SUMMARY: The U.S. Copyright Office is proposing to amend its regulation governing the group registration option for newsletter issues. The proposed rule eliminates the requirement that newsletters must be published at least two days each week to qualify for a group registration. This will let a broader range of newsletter publishers register a month of issues, without imposing an administrative burden on the Office. In addition, the proposed rule updates the address where complimentary subscriptions should be sent for purposes of satisfying the mandatory deposit requirement for newsletters and other serials.

DATES: Written comments must be received no later than 11:59 Eastern Time on March 25, 2020.

ADDRESSES: For reasons of government efficiency, the Copyright Office is using the *regulations.gov* system for the submission and posting of public comments in this proceeding. All comments are therefore to be submitted electronically through *regulations.gov*. Specific instructions for submitting comments are available on the Copyright Office website at <http://copyright.gov/rulemaking/group-newsletters-frequency/>. If electronic submission of comments is not feasible due to lack of access to a computer and/or the internet, please contact the Office using the contact information below for special instructions.

FOR FURTHER INFORMATION CONTACT: Robert J. Kasunic, Associate Register of Copyrights and Director of Registration Policy and Practice, rkas@copyright.gov;

Erik Bertin, Deputy Director of Registration Policy and Practice, ebertin@copyright.gov; or Kevin Amer, Deputy General Counsel, kamer@copyright.gov. They can be reached by telephone at (202) 707-3000.

SUPPLEMENTARY INFORMATION: The Office has established a group registration option that lets a newsletter publisher register an entire month of issues with one application and one filing fee. A publisher may use this option if each issue is “an all-new issue or an all-new collective work that has not been previously published.”¹ In addition, the newsletter “must usually” be published “at least two days each week.”² The word “usually” was added to the regulation “to account for occasional situations where the newsletter suspends publication (e.g. for a holiday).”³

It has come to the Office’s attention that many newsletters are published just once a week. The requirement that publication must usually occur at least twice a week renders these newsletters ineligible for this group registration option. Some newsletter publishers may be able to use the group registration option for serials (which is specifically intended for publications that are distributed at intervals of a week or longer), but to do so each issue “must be an all-new collective work.”⁴ Thus, if a newsletter is published once a week and if those issues do not qualify as all-new collective works, the publisher may not qualify for the group registration option for newsletters or the group registration option for serials. For these types of newsletters, the publisher must submit a separate application and filing fee for each issue.

To address this issue, the Office has decided to eliminate the requirement that newsletters must be published at least two days a week to qualify for the group registration option for newsletters.⁵ This will let publishers register newsletters that otherwise would be ineligible for this option, without imposing an administrative burden on the Office.

Newsletter publishers will still be required to complete and submit an online application and upload a digital deposit to seek a group registration.⁶ The online application is labeled “Daily

Newsletters,” but to be clear, this form may be used to register any newsletter, even if it is not published on a daily basis, as long as all of the issues are published within the same month.

Likewise, newsletter publishers will still be required to comply with the mandatory deposit requirement if the newsletter is published in the United States in a physical form.⁷ To satisfy this requirement, the publisher must provide the Library of Congress with up to two complimentary subscriptions to the newsletter.⁸ To facilitate this process, the Office is updating the mailing address where complimentary subscription copies should be sent.

The Office welcomes public input on the following proposed changes.

⁷ 37 CFR 202.19(d)(2)(xi).

⁸ Newsletters that are published solely in electronic format remain subject to the Library’s on-demand mandatory deposit regime for electronic serials. See 37 CFR 202.19(c)(5), 202.24.

PART 202—PREREGISTRATION AND REGISTRATION OF CLAIMS TO COPYRIGHT

■ 3. The authority citation for part 202 continues to read as follows:

Authority: 17 U.S.C. 408(f), 702.

■ 4. Amend § 202.4(f)(1)(i) by removing “Publication must usually occur at least two days each week and the” and adding “The” in its place.

Dated: February 5, 2020.

[EPA-R05-OAR-2015-0700; FRL-10005-64-Region 5]

Air Plan Approval; Indiana; Attainment Plan for Sulfur Dioxide in Southwest Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is reproposing to approve under the Clean Air Act an element of the State Implementation Plan (SIP) revision for attaining the 1-hour sulfur dioxide (SO₂) primary national ambient air quality standard (NAAQS) for the Southwest Indiana nonattainment area (including parts of Daviess and Pike Counties), based on revised limits for the Indianapolis Power and Light’s Petersburg facility (IP&L-Petersburg) that Indiana submitted on September 18, 2019. Indiana’s revised limits are based on the same dispersion modeling and the same 1-hour average emission rates that EPA proposed to conclude would result in attainment. However, the revised limits reflect revised calculations of the degree of adjustment needed for the 30-day average limits to be comparably stringent to 1-hour limits at the modeled emission rates. EPA is soliciting additional comments that may arise from these revisions.

DATES: Comments must be received on or before March 25, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2015-0700 at <http://www.regulations.gov>, or via email to arra.sarah@epa.gov. For comments submitted at [Regulations.gov](http://www.Regulations.gov), follow the
