

reconstituting a uranium mining and conversion capability in the United States?

Importance

7. Please indicate which of the challenges addressed are the most important to reconstituting a uranium mining and conversion capability in the United States?

Recommendations and Timing

8. Please provide any recommendations that might address and mitigate any industry challenges. Indicate the implementation timing needed to be effective.

III. Submission of Comments

DOE invites all interested parties to submit, in writing by March 16, 2020, comments and information on matters addressed in this RFI. Any information that may be business proprietary and exempt by law from public disclosure should be submitted as described in Section IV. Business Proprietary Information.

IV. Business Proprietary Information

Pursuant to 10 CFR 1004.11, any person submitting information he or she believes to be business proprietary and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked copies: One copy of the document marked "Business Proprietary" including all the information believed to be proprietary, and one copy of the document marked "non-Proprietary" with the information believed to be business proprietary deleted. DOE will make its own determination about the business proprietary status of the information and treat it according to its determination. Factors of interest to DOE when evaluating requests to treat submitted information as business proprietary include: (1) A description of the items; (2) whether and why such items are customarily treated as business proprietary within the industry; (3) whether the information is generally known by or available from other sources; (4) whether the information has previously been made available to others without obligation concerning its business proprietary nature; (5) an explanation of the competitive injury to the submitting person which would result from public disclosure; (6) when such information might lose its business proprietary character due to the passage of time; and (7) why disclosure of the information would be contrary to the public interest.

Signed in Washington, DC, on February 18, 2020.
