Federal Energy Regulatory Commission

[Docket No. CP20–49–000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Intent To Prepare an Environmental Document for a Proposed Amendment of the Northeast Supply Enhancement Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental document that will discuss the environmental impacts of a proposed amendment to Transcontinental Gas Pipe Line Company, LLC's (Transco) Northeast Supply Enhancement Project. Transco seeks authorization to utilize and extend an existing road to access Compressor Station 206 in Somerset County, New Jersey in lieu of constructing the certificated access road. The

Commission will use the environmental document in its decision-making process to determine whether the amendment is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies about issues regarding the proposed amendment/alternative access road. The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from its action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires the Commission to discover concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the environmental document on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the environmental document.

To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on March 20, 2020. You can make a difference by submitting your specific comments or concerns regarding the amendment. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the environmental document. Commission staff will consider all filed comments during the preparation of the environmental document.

If you sent comments on this amendment to the Commission before the opening of this docket on January 31, 2020, you will need to file those comments in Docket No. CP20–49–000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this amendment. State and local government representatives should notify their constituents of the potential change in access to Compressor Station 206 and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the facilities. The company would seek to

negotiate a mutually acceptable easement agreement. You are not required to enter into an agreement. However, if the Commission approves the amendment, that approval conveys with it the right of eminent domain. Therefore, if you and the company do not reach an easement agreement, the pipeline company could initiate condemnation proceedings in court. In such instances, compensation would be determined by a judge in accordance with state law.

Transco provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for viewing on the FERC website (www.ferc.gov/resources/guides/gas/gas.pdf).
