SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy

development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

II. Current Actions

The *Applying Promising Practices for Small and Rural Libraries* (APP) program is a special initiative, funded through the IMLS Office of Library Services. The goal of this initiative is to support projects that strengthen the ability of small and rural libraries and archives to serve their communities in the areas of digital inclusion, community memory, and school library practice.

As IMLS prepares to make new awards under this initiative, the Agency seeks to undertake a systematic assessment to better understand the methods for building the capacity of these small and rural libraries and archives to serve their communities. The proposed evaluation approach is intended to provide a reasonable balance between scientific considerations for valid and reliable evidence and stakeholder utilization of the acquired knowledge. This investigation is intended to inform IMLS decision-making for current and future grant-making in this grant program, as well as for practices in this segment of the library sector.
