

51931 and proposals for changes to the concept that underlies the existing information industries. The ECPC is requesting comments on whether the internet is still a relevant industry distinction or if internet distribution should be treated as a mode of delivery with a goal of consistent treatment in Sector 44–45, Retail Trade, and Sector 51, Information. As is the case for retail trade, any changes to the industry structure in Sector 51, Information, are expected to create possibly significant time series breaks.

#### V. OMB Statistical Policy Directive No. 8, Standard Industrial Classification of Establishments

The ECPC is soliciting public comments at the request of OMB on the advisability of formally updating Statistical Policy Directive No. 8, Standard Industrial Classification of Establishments, and seeking comments on the proposed text of the update. The current Statistical Policy Directive text mandates the use of the Standard Industrial Classification Manual, 1972, for the classification of establishments by type of industrial activity. Statistical Policy Directive No. 8 incorporates amendments and further revisions of the SIC. OMB adopted NAICS as the replacement for the SIC for statistical purposes in 1997. (62 FR 17288–17337) The SIC has not been amended or revised since 1987. The text of Statistical Policy Directive No. 8 is available for review at: [https://www.census.gov/eos/www/naics/federal\\_register\\_notices/fedregister.html](https://www.census.gov/eos/www/naics/federal_register_notices/fedregister.html). It is also available for review as a supplementary document on [www.regulations.gov](http://www.regulations.gov) within the same docket as this Federal Register Notice.

The ECPC proposes to update the text of Statistical Policy Directive No. 8 and is soliciting public comments on the proposed language included below:

#### Statistical Policy Directive No. 8

##### North American Industry Classification System; Classification of Establishments

The North American Industry Classification System (NAICS) is to be used to classify reporting establishments by types of industrial activity in which they are engaged. Details are presented in the North American Industry Classification System, United States, issued by the Office of Management and Budget as amended and revised in the future. Revisions are considered every five years in calendar years ending with 2 and 7.

#### 1. Use for Federal Nonstatistical Program Purposes

NAICS shall not be used in the administration of any regulatory, administrative, or tax program unless the Secretary (Administrator) has first determined that the use of such industry definition is appropriate to the implementation of the program's objectives.

If the term "North American Industry Classification System" (NAICS) is to be used in the operative text of the law or regulation to define industry (or trade or commerce), language similar to the following should be used to assure sufficient flexibility: "An industry or grouping of industries shall mean a North American Industry Classification System industry or grouping of industries as defined by the Office of Management and Budget subject to such modifications with respect to individual industries or groupings of industries as the Secretary (Administrator) may determine to be appropriate for the purpose of this Act (regulation)." The use, interpretation, and application of NAICS for nonstatistical purposes is controlled by and defined by the agencies or regulations that use the statistical standard for those nonstatistical purposes.

#### 2. Titles and Descriptions

The North American Industry Classification System, United States, manual includes titles and descriptions of the industries and an alphabetic index of illustrative activities classified to industries. It is available online at: [www.census.gov/naics](http://www.census.gov/naics).

#### VI. OMB Statistical Policy Directive No. 9, Standard Industrial Classification of Enterprises

The ECPC proposes elimination of Statistical Policy Directive No. 9, Standard Industrial Classification of Enterprises. OMB presented the Enterprise Standard Industrial Classification of Enterprises in 1974. The classification is static and has not been updated or widely adopted over the past 45 years. NAICS United States does not include a similar variant for classification of enterprises. The current text of this policy directive is available for review at: [https://www.census.gov/eos/www/naics/federal\\_register\\_notices/fedregister.html](https://www.census.gov/eos/www/naics/federal_register_notices/fedregister.html). It is also available for review as a supplementary document on [www.regulations.gov](http://www.regulations.gov) within the same docket as this Federal Register Notice.

The ECPC is soliciting comments on the advisability of eliminating Statistical Policy Directive No. 9.

#### VII. Errors and Omissions In NAICS

No significant errors or omissions have been identified in NAICS 2017. Any errors or omissions that are identified in NAICS in the future will be corrected and posted on the official NAICS website at [www.census.gov/naics](http://www.census.gov/naics).
