

BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. In March 2016, the Commission adopted the *Rate-of-Return Reform Order* to continue modernizing the universal service support mechanisms for rate-of-return carriers. The *Rate-of-Return Reform Order* replaced the Interstate Common Line Support (ICLS) mechanism with the Connect America Fund—Broadband Loop Support (CAF-BLS) mechanism. While ICLS supported only lines used to provide traditional voice service (including voice service bundled with broadband service), CAF-BLS also supports consumer broadband-only loops. For the purposes of calculating and monitoring CAF-BLS, rate-of-return carriers that receive CAF-BLS must file common line and consumer broadband-only loop counts on FCC Form 507, forecasted common line and consumer broadband-only loop costs and revenues on FCC Form 508, and actual common line and consumer broadband-only loop costs and revenues on FCC Form 509. See 47 CFR 54.903(a).

In December 2018, the Commission adopted the *December 2018 Rate-of-Return Reform Order* to require rate-of-return carriers that receive Alternative Connect America Model (A-CAM) or Alaska Plan support to file line count data on FCC Form 507 as a condition of high-cost support. Historically, all rate-of-return carriers received CAF BLS or, prior to that, ICLS, and were required to file line count data on FCC Form 507 as a condition of that support. In recent years, some rate-of-return carriers have elected to receive A-CAM I, A-CAM II, or Alaska Plan instead, and those carriers were not required to file line count data because the requirement to file applied only to rate-of-return carriers receiving CAF BLS. In order to restore a data set that the Commission relied on to evaluate the effectiveness of its high-cost universal service programs, the Commission revised its rules in that Order to require all rate-of-return carriers to file that data. While carriers receiving CAF-BLS must file the line count data on March 31 for line counts as of the prior December 31, the A-CAM I, A-CAM II, and Alaska Plan carriers will be required to file on July 1 of each year to coincide with other existing requirements in OMB Control No. 3060-0986. *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order, Further Notice of Proposed Rulemaking and Order on Reconsideration, 33 FCC Rcd 11893

(2018) (*2018 Rate-of-Return Reform Order*). See also 47 CFR 54.313(f)(5).

The Commission therefore proposes to revise this information collection. We also propose to increase the burdens associated with existing reporting requirements to account for additional carriers that will be subject to those requirements.

Federal Communications Commission.
