

diseases and pests of livestock and to conduct programs to detect, control, and eradicate pests and diseases of livestock.

The Swine Health Protection Act (7 U.S.C. 3801 *et seq.*, referred to below as the Act) prohibits the feeding of garbage to swine intended for interstate movement or foreign commerce or that substantially affect such commerce unless the garbage has been treated to kill disease organisms. Untreated garbage is one of the primary media through which numerous infectious and communicable diseases can be transmitted to swine. APHIS' regulations promulgated under the Act, which are located at 9 CFR part 166, require that garbage intended to be fed to swine must be treated at a facility that holds a valid permit to treat the garbage and must be treated in accordance with the regulations.

As part of its swine health protection program, APHIS conducts a pseudorabies (PRV) eradication program in cooperation with State governments, swine producers, swine shippers, herd owners, and accredited veterinarians. The program identifies PRV-affected swine, provides herd management techniques, and has eliminated PRV in commercial production herds. However, APHIS periodically finds infected swine when swine are exposed to feral swine or other swine that have had exposure to feral swine.

The regulations in 9 CFR parts 71 and 85 facilitate the PRV eradication program and general swine health by providing requirements for moving swine interstate within a swine production system. (A production system consists of separate farms that each specialize in a different phase of swine production such as sow herds, nursery herds, and finishing herds. These separate farms, all members of the same production system, may be located in more than one State.)

The regulations for the feeding of garbage to swine and for the PRV eradication program require the use of a number of information collection activities, including the creation of food waste reports; the completion of applications to operate garbage treatment facilities; an acknowledgement of the Swine Health Protection Act and implementing regulations; garbage treatment facility inspection; cancellation of license by State animal health officials; request for a hearing; cancellation of license by licensee; notification by licensee of sick or dead animals; notification by licensee of changes to name, address, or management; cooperative agreements for those States that issue garbage feeding licenses under VS supervision

but do not have primary enforcement responsibility (four States); swine health protection program inspection summary; permit to move restricted animals; owner-shipper statement; certificate of veterinary inspection; accredited veterinarian's statement; embryo and semen shipments; identification for swine moving interstate; swine production system health plan; interstate movement report and notification; cancellation or withdrawal of a swine production system health plan; appeal of cancellation of a swine production system health plan; shipment to slaughter seal; appraisal and indemnity claim form; report of net salvage proceeds; herd management plans; and recordkeeping.

The information collection requirements above are currently approved by the Office of Management and Budget (OMB) under OMB control numbers 0579-0323 (Trichinae Certification Program) and 0579-0065 (Swine Health Protection). After OMB approves this combined information collection package (0579-0065), APHIS will retire OMB control number 0579-0323.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 1.78 hours per response.

Respondents: Owners/operators (licensees) of garbage treatment facilities, herd owners, food establishments, accredited veterinarians, and State animal health authorities.

Estimated annual number of respondents: 15,150.

Estimated annual number of responses per respondent: 63.57.

Estimated annual number of responses: 962,899.

Estimated total annual burden on respondents: 1,715,536 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 25th day of February 2020.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Pennsylvania Advisory Committee

AGENCY: Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission), and the Federal Advisory Committee Act (FACA) that a meeting of the Pennsylvania Advisory Committee to the Commission will convene by conference call at 11:30 a.m. (EST) on Tuesday, March 17, 2020. The purpose of the project planning meeting is to discuss the Committee's draft report on its civil rights project titled, School Discipline and the School-to-Prison Pipeline in PA.

Public Call-In Information:
Conference call-in number: 800-353-6461 and conference call ID number: 6813288.

FOR FURTHER INFORMATION CONTACT: Ivy Davis at ero@usccr.gov or by phone at 202-376-7533.

SUPPLEMENTARY INFORMATION: Interested members of the public may listen to the discussion by calling the following toll-free conference call-in number: 800-353-6461 and conference call ID number: 6813288. Please be advised that before placing them into the conference call, the conference call operator will ask callers to provide their names, their organizational affiliations (if any), and email addresses (so that callers may be notified of future meetings). Callers can expect to incur charges for calls they

initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free conference call-in number.

Persons with hearing impairments may also follow the discussion by first calling the Federal Relay Service at 1-800-877-8339 and providing the operator with the toll-free conference call-in number: 800-353-6461 and conference call ID number: 6813288.

Members of the public are invited to make brief statements during the Public Comment section of the meeting or submit written comments. The written comments must be received in the regional office approximately 30 days after the scheduled meeting. Written comments may be mailed to the Eastern Regional Office, U.S. Commission on Civil Rights, 1331 Pennsylvania Avenue, Suite 1150, Washington, DC 20425, or emailed to Corrine Sanders at ero@usccr.gov. Persons who desire additional information may phone the Eastern Regional Office at (202) 376-7533.

Records and documents discussed during the meeting will be available for public viewing as they become available at: <https://www.facadatabase.gov/FACA/FACAPublicViewCommitteeDetails?id=a10t000001gzZAAQ>; click the "Meeting Details" and "Documents" links. Records generated from this meeting may also be inspected and reproduced at the Eastern Regional Office, as they become available, both before and after the meeting. Persons interested in the work of this advisory committee are advised to go to the Commission's website, www.usccr.gov, or to contact the Eastern Regional Office at the above phone number, email or street address.

Agenda: Tuesday, March 17, 2020

- I. Rollcall
- II. Welcome
- III. Project Planning
 - Discuss draft Committee report on its civil rights project
- IV. Other Business
- V. Next Meetings
- VI. Public Comments
- VII. Adjourn

Dated: February 27, 2020.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-10-2020]

Foreign-Trade Zone (FTZ) 176— Rockford, Illinois; Notification of Proposed Production Activity; UniCarriers Americas Corporation (Forklift Engines and Assemblies); Marengo, Illinois

UniCarriers Americas Corporation (UniCarriers) submitted a notification of proposed production activity to the FTZ Board for its facilities in Marengo, Illinois. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 18, 2020.

UniCarriers already has authority (originally approved as Nissan Forklift Corporation North America) to produce forklifts within FTZ 176. The current request would add finished products and foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt UniCarriers from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, UniCarriers would be able to choose the duty rates during customs entry procedures that apply to internal combustion engines, mast assemblies, and transmission assemblies for forklifts (duty rate ranges from duty-free to 2.5%). UniCarriers would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Various paints (polyester-based; acrylic or vinyl polymer-based); varnishes based on acrylic or vinyl polymers; prepared water pigments; adhesives; various plastic components (tubes, pipes and hoses (rigid; flexible; not reinforced without fittings; reinforced); self-adhesive certification and operation labels; lids, caps, plugs and plates; bushings and spacers; buttons, clips and ties; covers; seals, washers and O-rings; insulators and protectors; handles and knobs; mats and pads; shrouds and panels; slippers); various bearings

(plastic; ball; roller lift ball; sprocket; wheel chain ball; needle roller; cylindrical roller; side roller; main); various gaskets (plastic; graphite or carbon; copper; cylinder head; combined metal and paper, metal and rubber, metal and plastic); various guards (plastic; canvas rain; rain; overhead); various housings (plastic; flywheel; thermostat; timing chain; oil pump; drive axle; torque converter; motor sensor; connector; meter); various vulcanized rubber components (tubes, pipes and hoses (not reinforced without fittings; not reinforced with fittings); endless transmission belts; transmission belts; kits; water seals, insulators, O-rings and washers; gaskets and gasket repair kits; oil seals and oil seal repair kits; seals and seal repair kits; bellows, dampers and diaphragms; insulation; shock absorbers; boots, clips and cups; mats or cushions; mounts; valves, bonnets and covers; caps, plugs, grommets, rings and stoppers); various rubber components (tubes, pipes and hoses (with fittings reinforced with metal; without fittings reinforced with textile materials; without fittings reinforced with material other than metal or textiles; with fittings reinforced with materials other than metal or textiles); floor mats); various tires (new pneumatic; solid or cushion); various tubes (rubber inner; engine fluid drain; engine water; engine injection; lift cylinder; drive axle; exhaust; suction); cellular rubber pads and seals; various gaskets and packing (cork; coated paper or paperboard); not printed paper or paperboard labels; various manuals (operational; service; printed); tempered safety glass; various mirrors (rear view; framed glass); various engine components (insulation; cases and plates; heat shields; nozzles and holders); insulators; various assemblies (insulation; lock; hinge; caster; engine with drive plates or flywheels; air horn; chain tensioner; crankshaft damper; distributor support; fuel tube; injection tube; injector holder; jet; liquefied petroleum gas adapter; oil filler cap; oil pan; throttle chamber; engine nozzle; governor; cylinder head for hydraulic or pneumatic engines and motors; cylinder rod; fuel, grease, injection, water, oil, gear, charging, hydraulic fluid, orbital steering or roller pump; oil pump drive spindle; turbo charger; main catalyst converter; winch; radiator baffle; ball screw; battery mounting; bracket; brake; bumper; front lower forklift cab; catch; control lever shift; control valve lever; duct; floorboard; forklift panel; guard; inching lever; inching shaft; pedal link; load wheel; liquefied petroleum gas tube; mast; lower, stopping, side,
