below the minimum hydraulic capacity of the powerhouse (80 cfs), the minimum flow requirement for the downstream reach is met by releasing flows over the dam. The average annual generation was 5,837,900 kilowatt-hours for the period of record from 2005 to 2018.

The Town proposes to: (1) Continue to operate the project in a run-of-river mode using an automatic pond level control system, and maintain the impoundment at the flashboard crest elevation of 71.25 feet NGVD 29; (2) provide a minimum flow release of 35 cfs, or inflow, whichever is less into the bypassed reach; (3) conduct an eel ramp siting study and install and operate an upstream eel ramp; (4) install and operate a downstream fish passage facility for adult eels and resident and migratory fish species; (5) implement night-time turbine shutdowns from 8 p.m. to 4 a.m. during the months of September and October for 3 consecutive nights following rain accumulations of 0.5 inch or more over a 24-hour period; (6) conduct a study to quantify movements of river herring and American shad migrating downstream from the project tailwater through the bypassed reach to the project dam; and (7) consult with the New Hampshire and Maine State Historic Preservation Officers before beginning any land-disturbing activities or alterations to determine the need to conduct surveys and implement avoidance or mitigation measures before undertaking the action.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s website at http://www.ferc.gov using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call 1–866–208–3676 or for TTY, (202) 502–8659.

Kimberly D. Bose, Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL20–23–000]

Whitetail Solar 1, LLC; Notice of Institution of Section 206 Proceeding and Refund Effective Date

On February 27, 2020, the Commission issued an order in Docket No. EL20–23–000, pursuant to section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e (2018), instituting an investigation into whether Whitetail Solar 1, LLC’s rate schedule is unjust, unreasonable, unduly discriminatory or preferential. Whitetail Solar 1, LLC, 170 FERC ¶ 61,165 (2020).

The refund effective date in Docket No. EL20–23–000, established pursuant to section 206(b) of the FPA, will be the date of publication of this notice in the Federal Register.

Any interested person desiring to be heard in Docket No. EL20–23–000 must file a notice of intervention or motion to intervene, as appropriate, with the Federal Energy Regulatory Commission, 888 First Street NW, Washington, DC 20426, in accordance with Rule 214 of the Commission’s Rules of Practice and Procedure, 18 CFR 385.214 (2019), within 21 days of the date of issuance of the order.

Kimberly D. Bose, Secretary.

ENVIRONMENTAL PROTECTION AGENCY

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Emission Control System Performance Warranty Regulations and Voluntary Aftermarket Part Certification Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Emission Control System Performance Warranty Regulations and Voluntary Aftermarket Part Certification Program (EPA ICR Number 0116.12, OMB Control Number 2060–0060) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 30, 2020. Public comments were previously requested via the Federal Register on October 10, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 6, 2020.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2013–0437, to (1) EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Lynn Sohacki, Compliance Division,
Office of Transportation and Air Quality, U.S. Environmental Protection Agency, 2000 Traverwood, Ann Arbor, Michigan 48105; telephone number: 734–214–4851; fax number 734–214–4869; email address: sohacki.lynn@epa.gov.

SUPPLEMENTARY INFORMATION:
Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit http://www.epa.gov/dockets.

Abstract: Under Section 206(a) of the Clean Air Act (42 U.S.C. 7521), on-highway engine and vehicle manufacturers may not legally introduce their products into U.S. commerce unless EPA has certified that their production complies with applicable emission standards. Per section 207(a), original vehicle manufacturers must warrant that vehicles are free from defects in materials and workmanship that would cause the vehicle not to comply with emission regulations during its useful life. Section 207(a) directs EPA to provide certification to those manufacturers or builders of automotive aftermarket parts that demonstrate that the installation and use of their products will not cause failure of the engine or vehicle to comply with emission standards. An aftermarket part is any part offered for sale for installation in or on a motor vehicle after such vehicle has left the vehicle manufacturer’s production line (40 CFR 85.2113(b)). Participation in the aftermarket certification program is voluntary. Aftermarket part manufacturers or builders (manufacturers) electing to participate conduct emission and durability testing as described in 40 CFR part 85, subpart V, and submit data about their products and testing procedures. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in CFR title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2).

Form Numbers: None.

Respondents/affected entities: Manufacturers or builders of automotive aftermarket parts.

Respondent’s obligation to respond: Required to obtain or retain a benefit.

Estimated number of respondents: 1 (total).
Frequency of response: On occasion. Total estimated burden: 547 hours (per year). Burden is defined at 5 CFR 1320.3(b).
Total estimated cost: $19,063 (per year), which includes $1,955 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB.

Courtney Kerwin,
Director, Regulatory Support Division.

National Emission Standards for Hazardous Air Pollutants (Radionuclides), Availability of Updated Compliance Model, CAP88–PC

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability.

SUMMARY: Pursuant to section 112 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA or Agency) is announcing the availability of Version 4.1 of the CAP88–PC model. This version may be used to demonstrate compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPs) applicable to radionuclides. CAP88–PC is approved for this use by the EPA.

Version 4.1 includes a number of improvements from previous versions, including Version 4.0. The most significant of these changes from a user perspective are the implementation of a new Wix installer technology that enhances compatibility with Windows 10 and future Windows updates, an update in the number of included radionuclides and the data for these radionuclides, and a change in the manner in which reports are printed.

FOR FURTHER INFORMATION CONTACT: Brian Littleton, Office of Radiation and Indoor Air, Radiation Protection Division (6608T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460; telephone number: (202) 343–9200; fax number: (202) 343–2304; email address: Littleton.brian@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are subject to the requirements for radionuclide NESHAPs found in 40 CFR part 61, subpart H.

This subpart applies to Department of Energy (DOE or Department) facilities.

B. How can I get copies of the model and other related information?

Docket. The EPA has established a docket for this action under Docket ID No. EPA–HQ–OAR–2019–0050. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air and Radiation Docket in the EPA Docket Center (EPA/DC), EPA West, Room B 102, 1301 Constitution Avenue NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the Air and Radiation Docket is (202) 566–1742.

2. Electronic Access. You may access this Federal Register document electronically through the EPA website under the “Federal Register” listings at https://www.epa.gov/fedrgstr/.

3. EPA website. You may download the CAP88–PC model and documentation from the EPA’s website at https://www.epa.gov/radiation/cap-88-pc.

II. Background

On December 15, 1989, the EPA promulgated the National Emission Standards for Hazardous Air Pollutants (NESHAPs) under section 112 of the Clean Air Act to control radionuclide emissions to the ambient air from a number of different source categories [54 FR 51654, December 15, 1989 (Docket EPA–HQ–OAR–2002–0050–0028)]. Subpart H of 40 CFR part 61 is one of the source categories covered in the 1989 final rule. Facilities owned and operated by the DOE are regulated under subpart H. The Department administers many facilities across the country, including government-owned, contractor-operated facilities. Some of these facilities handle significant amounts of radioactive material that could potentially be emitted into the air in various chemical and physical states. The purpose of subpart H is to limit radionuclide emissions (not including radon) from the stacks and vents at DOE facilities so that no member of the public receives an effective dose equivalent of more than 10 millirems
