This notice corrects the deadline for transmittal of applications and the deadline for intergovernmental review. All other requirements and conditions in the notice remain the same.

DATES: The correction is applicable March 6, 2020.

Deadline for Transmittal of Applications: March 23, 2020.

Deadline for Intergovernmental Review: May 22, 2020.

SUPPLEMENTARY INFORMATION: On February 5, 2020, we published in the **Federal Register** a notice inviting applications for the NASNTI Program (85 FR 6537). This notice revises the deadline for transmittal of applications and the deadline for intergovernmental review to extend both those deadlines. All other corrections and conditions in the notice remain the same.

We are extending this competition to allow applicants more time to prepare and submit their applications after requests from multiple applicants. Therefore, we are extending the competition to allow applicants to submit or resubmit applications that meet all of the requirements in the NIA. Applicants that have already submitted applications are encouraged to review their applications and determine whether they have met all eligibility and application requirements.

As stated above, applicants may resubmit applications that may not have

met all of the requirements in the NIA. Applicants that have already submitted timely applications that meet all of the requirements of the NIA do not have to resubmit their applications. If a new application is not submitted, the Department will use the application that has already been submitted.

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: Office of Fossil Energy, Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: DOE's Office of Fossil Energy (FE) invites public comments on the proposed collection of information pursuant to natural gas import and export applications, as required under the Paperwork Reduction Act of 1995. DOE requests a three-year extension, with changes, to the data collection that includes Form FE-746R, Import and Export of Natural Gas under OMB Control Number 1901-0294. Form FE-746R collects information from authorized importers and exporters of natural gas. The information FE proposes to collect from import and export authorization holders, including on FE-746R, enables DOE's Office of Fossil Energy (FE) to monitor such trade under the United States Mexico Canada Agreement (USMCA), as well as other trade activity falling outside the parameters of USMCA and supports

various market and regulatory analyses done by FE.

DATES: DOE must receive all comments on this proposed information collection no later than May 5, 2020. If you anticipate difficulty in submitting your comments by the deadline, contact the person listed in **ADDRESSES** as soon as possible.

ADDRESSES: Send your comments to Marc Talbert, FE-34, U.S. Department of Energy, Office of Natural Gas Regulatory Activities, Office of Fossil Energy, P.O. Box 44375, Washington, DC 20026-4375. Submission by email to marc.talbert@hq.doe.gov is recommended.

FOR FURTHER INFORMATION CONTACT: Marc Talbert, (202) 586-7991; email marc.talbert@hq.doe.gov. Access to the proposed information submissions is available at <https://www.energy.gov/fe/services/natural-gas-regulation>.

SUPPLEMENTARY INFORMATION: This information collection request contains:

- (1) OMB No.: 1901-0294;
- (2) *Information Collection Request Title:* Natural Gas Import and Export Data Submissions;
- (3) *Type of Request:* Renewal with changes;
- (4) *Purpose:* DOE's Office of Fossil Energy (FE) has the delegated authority to regulate natural gas imports and exports under section 3 of the Natural

Gas Act of 1938, 15 U.S.C. 717b. To carry out its delegated responsibility, FE requires individuals seeking to import or export natural gas to file an application providing basic information on the scope and nature of the import/export activity. Once an importer or exporter receives authorization from FE, they are required to submit monthly reports of their import and export transactions on Form FE-746R, as well as other information applicable to a smaller subset of authorization holders that obtain long-term import and export authorizations, or short-term authorizations with countries the United States does not have a free trade agreement. Long-term authorization holders must also supply additional information to assess the state of the U.S. import and export markets as well as the adequacy of energy resources to meet near and long term domestic demands. The information collected ensures compliance with the terms and conditions of the authorization. In addition, the data is used to monitor North American gas trade activity, which enables the Federal government to perform market and regulatory analyses, improve the capability of industry and the government to respond to any future energy-related supply problems, and keep the general public
