

instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email [claire.a.little@nasa.gov](mailto:claire.a.little@nasa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

This collection of information supports NASA's term and condition regarding sexual harassment, other forms of harassment, and sexual assault. This term and condition requires recipient organizations to report to NASA any findings/determinations of sexual harassment, other forms of harassment, or sexual assault regarding a NASA funded Principle Investigator (PI) or Co-Investigator (Co-I). The new term and condition will also require the recipient to report to NASA if the PI or Co-I is placed on administrative leave or if the recipient has imposed any administrative action on the PI or Co-I, or any determination or an investigation of an alleged violation of the recipient's policies or codes of conduct, statutes, regulations, or executive orders relating to sexual harassment, other forms of harassment, or sexual assault.

In reviewing harassment notifications pursuant to the term and condition, it will be necessary for the Agency to have complete information provided in a consistent manner. The information provided will be used by the Agency to assess the matters reported and to consult with the Authorized Organizational Representative (AOR), or designee of the reporting institution. Based on the results of this review and consultation, NASA may, if necessary, assert its programmatic stewardship responsibilities and oversight authority to initiate the substitution or removal of the PI or any co-PI, reduce the award funding amount, or where neither of those previous options is available or adequate, to suspend or terminate the award.

##### II. Methods of Collection

Electronic.

##### III. Data

*Title:* NASA Term and Condition Notification of Harassment Form.

*OMB Number:*

*Type of review:* New.

*Affected Public:* NASA grant recipient institution reporting officials.

*Estimated Annual Number of*

*Activities:* 20.

*Estimated Number of Respondents per Activity:* 1.

*Annual Responses:* 20.

*Estimated Time per Response:* 1 hour.

*Estimated Total Annual Burden*

*Hours:* 20.

*Estimated Total Annual Cost:* \$2,000.

#### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

#### NUCLEAR REGULATORY COMMISSION

[Docket No. 72-11; NRC-2019-0148]

##### Rancho Seco Independent Spent Fuel Storage Installation

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is considering the renewal of Special Nuclear Materials (SNM) License SNM-2510 for the Rancho Seco Nuclear Plant Independent Spent Fuel Storage Installation (ISFSI) (Rancho Seco ISFSI) located in Sacramento County, California. The NRC has prepared an environmental assessment (EA) for this proposed license renewal in accordance with its regulations. Based on the EA, the NRC has concluded that a finding of no significant impact (FONSI) is appropriate. The NRC also is conducting a safety evaluation of the proposed license renewal.

**DATES:** The EA and FONSI referenced in this document are available on March 6, 2020.

**ADDRESSES:** Please refer to Docket ID NRC-2019-0148 when contacting the

NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC-2019-0148. Address questions about NRC docket IDs to Jennifer Borges; telephone: 301-287-9127 email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

**FOR FURTHER INFORMATION CONTACT:** Jean Trefethen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-0867, email: [Jean.Trefethen@nrc.gov](mailto:Jean.Trefethen@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The NRC is considering a license renewal request for SNM-2510 for the Rancho Seco specifically-licensed ISFSI located in Sacramento County, California (ADAMS Accession No. ML18221A281). The licensee, Sacramento Municipal Utility District (SMUD), is requesting to renew license SNM-2510 for the Rancho Seco ISFSI for an additional 40-year period. The current license will expire on June 30, 2020. If approved, SMUD would be able to continue to possess and store spent nuclear fuel at the Rancho Seco ISFSI in accordance with the requirements in part 72 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licensing Requirements for the Independent Storage of Spent Nuclear Fuel, High-Level Radioactive Waste, and Reactor-Related Greater than Class C Waste."

The NRC staff has prepared a final EA as part of its review of this license

renewal request in accordance with the requirements of 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions." Based on the final EA, the NRC has determined that an environmental impact statement (EIS) is not required for this proposed action and a FONSI is appropriate. The NRC is also conducting a safety evaluation of the proposed license amendment pursuant to 10 CFR part 72, and the results will be documented in a separate Safety Evaluation Report (SER). If SMUD's request is approved, the NRC will issue the license renewal following notification in the **Federal Register** of the availability of this final EA and FONSI and the SER.

## II. Final Environmental Assessment Summary

SMUD is requesting to renew license SNM-2510 for the Rancho Seco specifically-licensed ISFSI for a 40-year period. The NRC has assessed the potential environmental impacts of the proposed action and alternatives to the proposed action, including license renewal for an additional 20-year term, shipment of spent fuel to an offsite facility, and the no-action alternative. The results of the NRC's environmental review can be found in the final EA (ADAMS Accession No. ML19241A378). The NRC staff performed its environmental review in accordance with the requirements in 10 CFR part 51. In conducting the environmental review, the NRC considered information in the license renewal application (ADAMS Accession No. ML18221A281); communications and consultation with the California State Historic Preservation Office; the State of California Native American Heritage Commission (NAHC) and eight Native American Tribes; the California Department of Fish and Wildlife (CDFW); and the California State Department of Health Services.

Approval of SMUD's proposed license renewal request would allow the 22 Standardized NUHOMS-24P sealed surface storage casks to continue to remain on the Rancho Seco ISFSI for an additional 40 years. The estimated annual dose to the nearest permanent resident from ISFSI activities is 0.0016 mSv/yr (0.16 mrem/yr) (ADAMS Accession No. ML18221A281), which is below the 0.25 mSv/yr (25 mrem/yr) limit specified in 10 CFR 72.104(a) and the 1 mSv/yr (100 mrem/yr) limit in 10 CFR 20.1301(a)(1). Furthermore, SMUD maintains a radiation protection program for the ISFSI in accordance with 10 CFR part 20 to ensure that radiation doses are as low as is

reasonably achievable (ALARA). Accordingly, no significant radiological or non-radiological impacts are expected to result from approval of the license renewal request, and the proposed action would not significantly contribute to cumulative impacts at the Rancho Seco site. Additionally, there would be no disproportionately high and adverse impacts on minority and low-income populations.

In its license renewal request, SMUD is proposing no changes in how it handles or stores spent fuel at the Rancho Seco ISFSI. Approval of the proposed action would not result in any new construction or expansion of the existing ISFSI footprint beyond that previously approved. The ISFSI is a largely passive facility that produces no liquid or gaseous effluents. No significant radiological or nonradiological impacts are expected from continued normal operations. Occupational dose estimates associated with the proposed action and continued normal operation and maintenance of the ISFSI are expected to be at ALARA levels and within the limits of 10 CFR 20.1201. Therefore, the NRC staff has determined that pursuant to 10 CFR 51.31, preparation of an EIS is not required for the proposed action, and pursuant to 10 CFR 51.32, a FONSI is appropriate.

Furthermore, the NRC staff determined that this license renewal request does not have the potential to cause effects on historic properties, assuming those were present; therefore, in accordance with 36 CFR 800.3(a)(1), no consultation is required under Section 106 of the National Historic Preservation Act. The NRC staff, however, reached out to and informed the California State Historic Preservation Officer (SHPO) via letter dated December 14, 2018 (ADAMS Package Accession No. ML18348A551) and eight Native American Tribes of its determination via letters dated January 9, 2019 (ADAMS Package Accession No. ML18341A258). The California SHPO responded via letter dated January 9, 2019, indicating they had no comments or concurrence on the finding of no effect (ADAMS Accession No. ML19010A118). The NRC staff, with the assistance of the U.S. Fish and Wildlife Service Information for Planning and Consultation (IPaC) project planning tool, determined that the listed species and/or critical habitat will not be adversely affected by the proposed action.

## III. Finding of No Significant Impact

Based on its review of the proposed action in the EA, in accordance with the

requirements in 10 CFR part 51, the NRC has concluded that the proposed action, renewal of NRC Special Nuclear Materials License No. SNM-2510 for the Rancho Seco ISFSI located in Sacramento County, California, will not significantly affect the quality of the human environment. Therefore, the NRC has determined, pursuant to 10 CFR 51.31, that preparation of an EIS is not required for the proposed action and a finding of no significant impact is appropriate.

Dated at Rockville, Maryland, this 3rd day of March, 2020.

For the Nuclear Regulatory Commission.

**Cynthia I. Roman-Cuevas,**

*Chief, Environmental Review Materials Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.*

## POSTAL REGULATORY COMMISSION

[Docket No. CP2020-100]

### New Postal Product

**AGENCY:** Postal Regulatory Commission.

**ACTION:** Notice.

**SUMMARY:** The Commission is noticing a recent Postal Service filing for the Commission's consideration concerning a negotiated service agreement. This notice informs the public of the filing, invites public comment, and takes other administrative steps.

**DATES:** *Comments are due:* March 10, 2020.

**ADDRESSES:** Submit comments electronically via the Commission's Filing Online system at <http://www.prc.gov>. Those who cannot submit comments electronically should contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by telephone for advice on filing alternatives.

**FOR FURTHER INFORMATION CONTACT:** David A. Trissell, General Counsel, at 202-789-6820.
