

displayed or non-displayed ranked price. Thus, the QDP instruction may provide additional comfort to Users entering MDOs that would allow them to utilize discretion, and thereby provide potential price improvement opportunities to incoming orders, while at the same time limiting the exercise of discretion in circumstances where an execution within the order's discretionary range may be undesirable. The Exchange therefore believes that the introduction of the QDP instruction would remove impediments to and perfect the mechanism of a free and open market and a national market system. Further, while the QDP instruction would be available to all Users, use of this instruction would be voluntary, meaning that Users could choose to use this instruction, or not, based on their specific needs.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the proposal is a competitive response to similar features available on other markets, such as IEX, and would therefore facilitate increased competition between exchange markets. As with other national securities exchanges, the Exchange must continually assess and improve its offerings to compete with other exchanges and off-exchange venues. The proposed rule change is indicative of this competition. Further, the Exchange does not believe that the proposed rule change would implicate any competitive concerns with respect to its Users. Both instructions proposed to be introduced for MDOs with this filing would be available to all Users on an equal and non-discriminatory basis. Rather than impede competition, the proposed rule change would provide additional tools for members and investors to facilitate their trading goals.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No comments were solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period

to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or

Section 19(b)(2) of the Act¹⁰ provides that, after initiating proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of the filing of the proposed rule change. The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination. The proposed rule changes were published for comment in the **Federal Register** on September 10, 2019.¹¹ The 180th day after publication of the Notice is March 8, 2020. The Commission is extending the time period for approving or disapproving the proposal for an additional 60 days.

The Commission finds that it is appropriate to designate a longer period within which to issue an order approving or disapproving the proposed rule change so that it has sufficient time to consider the proposed rule change, as modified by Amendment No. 1, along with the comment received on Amendment No. 1 and the Exchange's response. Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,¹² designates May 7, 2020, as the date by which the Commission should either approve or disapprove the proposed rule change (File Nos. SR-NYSE-2019-46, SR-NYSE-2019-19, SR-NYSEArca-2019-61, SR-NYSEAMER-2019-34), as modified by Amendment No. 1.
