

Principles; (b) publicly declare its commitment to comply with the Principles; (c) publicly disclose its privacy policies in line with the Principles; and (d) fully implement them.

Self-certification is voluntary; however, an organization's failure to comply with the Principles after its self-certification is enforceable under Section 5 of the Federal Trade Commission Act prohibiting unfair and deceptive acts in or affecting commerce (15 U.S.C. 45(a)) or other laws or regulations prohibiting such acts.

To rely on the Privacy Shield for transfers of personal data from the EU and/or Switzerland, an organization must self-certify its adherence to the Principles to the DOC, be placed on the Privacy Shield List, and remain on the Privacy Shield List. To self-certify for the Privacy Shield, an organization must provide to the DOC the information specified in the Privacy Shield Principles via the self-certification form.

ITA has committed to follow up with organizations that have been removed from the Privacy Shield List. ITA sends questionnaires to organizations that fail to complete the annual certification or that have withdrawn from the Privacy Shield to verify whether they will return, delete, or continue to apply the Principles to the personal information that they received while they participated in the Privacy Shield. If personal information will be retained, ITA asks organizations to verify who within the organization will serve as an ongoing point of contact for Privacy Shield-related questions.

In addition, ITA has committed to ongoing compliance reviews on an ongoing basis, including through sending detailed questionnaires to participating organizations. Such compliance reviews take place when: (a) The DOC receives specific non-frivolous complaints about an organization's compliance with the Principles, (b) an organization does not respond satisfactorily to DOC inquiries for information relating to the Privacy Shield, or (c) there is credible evidence that an organization does not comply with its commitments under the Privacy Shield.

Affected Public: Primarily businesses or other for-profit organizations.

Frequency: Annual and periodic.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed

information collection should be sent within 30 days of publication of this notice to OIRA *Submission@omb.eop.gov* or fax to (202) 975-5806.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

Steel Wire Garment Hangers From the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2017-2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) continues to find that Shanghai Wells Hanger Co., Ltd., and Hong Kong Wells Ltd. (collectively, Shanghai Wells) failed to demonstrate eligibility for separate rate status during the period of review (POR), and these companies, therefore, are a part of the China-wide entity. The POR is October 1, 2017 through September 30, 2018.

DATES: Applicable March 11, 2020.

FOR FURTHER INFORMATION CONTACT: Jasun Moy, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-8194.

SUPPLEMENTARY INFORMATION:

Background

On December 13, 2019, Commerce published the *Preliminary Results* of the administrative review of the antidumping duty (AD) order on steel wire garment hangers from the People's Republic of China (China).¹ We invited interested parties to comment on these *Preliminary Results*. We received no comments from interested parties. As such, these final results are unchanged from the *Preliminary Results*.

¹ See *Steel Wire Garment Hangers from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2017-2018*, 84 FR 68117 (December 13, 2019) (*Preliminary Results*) and accompanying Preliminary Decision Memorandum (PDM).

Scope of the Order

The merchandise subject to the order is steel wire garment hangers.² The products are currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 7326.20.0020, 7323.99.9060, and 7323.99.9080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written product description of the scope of the order remains dispositive. For a full description of the scope of the order, see the Preliminary Decision Memorandum.³

Methodology

Commerce conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). As noted in the *Preliminary Results*, Shanghai Wells did not permit Commerce to verify its questionnaire responses.⁴ Therefore, Commerce preliminarily determined that Shanghai Wells is not eligible for a separate rate and is therefore part of the China-wide entity. We received no comments on the *Preliminary Results*, and, thus, we have no basis for reconsidering this determination. Because there are no changes for these final results from the *Preliminary Results*, there is no accompanying Issues and Decision Memorandum.

Final Results of the Review

We continue to find that Shanghai Wells is not eligible for a separate rate, and therefore it is part of the China-wide entity. The rate previously established for the China-wide entity is 187.25 percent⁵ and is not subject to change as a result of this review because no party requested a review of the China-wide entity.⁶

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce has determined, and U.S. Customs and

⁴ See *Preliminary Results*, 84 FR at 68118.

⁵ See *Steel Wire Garment Hangers from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2013-2014*, 80 FR 41480 (July 15, 2015), and accompanying Preliminary Decision Memorandum, unchanged in *Steel Wire Garment Hangers from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2013-2014*, 80 FR 69942 (November 12, 2015).

⁶ See *Antidumping Proceedings: Announcement of Change in Department Practice for Respondent Selection in Antidumping Duty Proceedings and Conditional Review of the Nonmarket Economy Entity in NME Antidumping Duty Proceedings*, 78 FR 65963 (November 4, 2013).

Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review.

Commerce intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of this review in the **Federal Register**.

We will instruct CBP to assess antidumping duties at a rate of 187.25 percent for all entries of subject merchandise during the POR which was exported by Shanghai Wells.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice, as provided by section 751(a)(2)(C) of the Act: (1) For previously investigated or reviewed Chinese and non-Chinese exporters of subject merchandise that have received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific cash deposit rate published for the most recently completed period; (2) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, including Shanghai Wells, the cash deposit rate will be the existing cash deposit rate for the China-wide entity, *i.e.*, 187.25 percent; and (3) for all non-Chinese exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter.

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results of administrative review in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5) and 19 CFR 351.213(h)(1).

Dated: March 4, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; NOAA Fisheries Greater Atlantic Region Gear Identification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. This action proposes to extend the information collection for the Greater Atlantic Gear Identification.

DATES: Written comments must be submitted on or before May 11, 2020.

ADDRESSES: Direct all written comments to Adrienne Thomas, PRA Officer, NOAA, 151 Patton Avenue, Room 159, Asheville, NC 28801 (or via the internet at PRACOMMENTS@DOC.GOV). All comments received are part of the

public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Laura Hansen, Fishery Management Specialist, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930; 978-281-9225, Laura.Hansen@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for renewal of a current information collection.

This notice is for the extension of Paperwork Reduction Act requirements regarding Greater Atlantic Region fishing gear marking requirements. Regulations at 50 CFR 648.84(a),(b), and (d), 648.123(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b) require that Federal permit holders using certain types of fishing gear mark the gear with specified information for the purposes of vessel and gear identification (*e.g.*, hull identification number, Federal fishing permit number, etc.). The regulations also specify how the gear is to be marked for the purposes of visibility (*e.g.*, buoys, radar reflectors, etc.).

The success of fisheries management programs depends on regulatory compliance. The ability to link fishing gear to the vessel owner or operator is crucial to the enforcement of regulations under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. The ability to identify gear allows state and federal enforcement personnel to identify permit holders that are using unapproved gear configuration, using the gear during a time restriction, or using gear in a restricted area. In the Greater Atlantic Region, gear marking is required of permit holders in the Northeast multispecies longline and gillnet fisheries, American lobster trap fishery, scup trap/pot fishery, the deep-sea red crab fishery, the tilefish longline fishery, and the black sea bass trap/pot fishery.

The marking of gear is also a valuable tool in ascertaining ownership of lost or damaged gear, as well as gear involved in civil proceedings. Gear can be lost or damaged as the result of interactions
