SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, DHS/CBP proposes to update, rename, and reissue a current DHS system of records newly titled, “DHS/CBP-002 Trusted and Registered Traveler Programs (TRTP).” Formerly titled the “Global Enrollment System,”

this system of records allows CBP to collect and maintain records on individuals who voluntarily provide personally identifiable information to CBP in return for enrollment in a program that will make them eligible for dedicated CBP processing at designated U.S. border ports of entry. This system of records includes information on individuals who participate in trusted traveler and registered traveler programs. This system of records notice is being re-published under the new name, with a more comprehensive description of these programs, and the removal of references to the CBP Trusted Worker Programs, which are covered under the DHS/CBP-010 Persons Engaged in International Trade in Customs and Border Protection Licensed/Regulated Activities System of Records Notice (December 19, 2008, 73 FR 77753).

Trusted traveler programs facilitate processing for pre-approved members, permitting more efficient inspections, and helping move participants through the lines at the port of entry or other designated locations more expeditiously. CBP’s trusted traveler programs include:

- Global Entry,¹ which enables CBP to provide U.S. citizens, lawful permanent residents (LPRs), and citizens of certain foreign countries dedicated processing when arriving at airports with designated Global Entry kiosks.
- NEXUS, which allows pre-screened travelers dedicated processing when entering the United States and Canada. Program members use specific processing lanes at designated U.S.-Canada border ports of entry, NEXUS kiosks when entering Canada by air, and Global Entry kiosks when entering the United States via Canadian Preclearance airports. NEXUS members also receive dedicated processing at marine reporting locations.
- Secure Electronic Network for Travelers Rapid Inspection (SENTRI), which provides dedicated processing clearance for pre-approved travelers using designated primary lanes entering the United States at land border ports of entry along the U.S.-Mexico border.
- The Free and Secure Trade (FAST) program, which provides dedicated processing for pre-approved commercial truck drivers from the United States, Canada, and Mexico. Members may use dedicated FAST lanes at both northern and southern border ports.
- The U.S.-Asia Economic Cooperation (APEC) Business Travel

¹ Final Rule, Establishment of Global Entry Program (77 FR 5681, Feb. 6, 2012).
