The listing for each transaction includes the transaction number and the parties to the transaction. DATES: Comments on this notice must be received by 60 days after date of publication.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at doris.lefkowitz@AHRQ.hhs.gov.

Copies of the proposed collection plans, data collection instruments, and specific details on the estimated burden can be obtained from the AHRQ Reports Clearance Officer.

FOR FURTHER INFORMATION CONTACT:

Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427–1477, or by email at doris.lefkowitz@AHRQ.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project: Evaluation of Learning Health Systems K12 Training Program

AHRQ, in partnership with the Patient-Centered Outcomes Research Institute (PCORI), supports an innovative institutional mentored career development program (K12) to train clinician and research scientists to conduct patient-centered outcomes research within learning health systems (LHSs). LHSs provide an environment where science generated from health services research, patient-centered outcomes research (PCOR), and clinical research; informatics; incentives; and culture are aligned for continuous improvement and innovation. In addition, in an LHS, best practices are seamlessly embedded in the care process, in which stakeholders (*i.e.*, providers, patients, and families) are active participants in all elements, and new knowledge is captured as an integral by-product of the care experience. The following are the LHS K12 training program objectives:

- Develop and implement a training program that includes both didactic and experiential learning and embeds the scholars in training at the interface of research, informatics, and clinical operations within LHSs
- Identify, recruit, and train clinician and research scientists who are committed to conducting PCOR in healthcare settings that generate new evidence to facilitate rapid implementation of practices that will improve quality of care and patient outcomes

- Establish Centers of Excellence (COEs) in LHS Research Training, focusing on the application and mastery of the newly developed *core LHS researcher competencies*
- Promote cross-institutional scholar-mentor interactions, cooperation on multisite projects, dissemination of project findings, methodological advances, and development of a shared curriculum

The purpose of this evaluation is to assess the overall achievement of the LHS K12 training program’s objectives, outcomes, and impact, as well as the program’s value to its stakeholders. The information collected through this data collection will allow AHRQ to improve the LHS K12 program and identify whether results correspond to intentional changes in program strategy and implementation.

This study is being conducted by AHRQ through its contractor, 2M Research, pursuant to AHRQ’s statutory authority to “build capacity for comparative clinical effectiveness research by establishing a grant program that provides for the training of researchers in the methods used to conduct such research.” 42 U.S.C. 299b–37(e).

Method of Collection

The evaluation will include two types of data collection: (1) Semi-structured interviews with scholars who are close to completing the LHS K12 training program, their health system advisors, and program directors of each of the 11 institutions; and (2) surveys with health system advisors. The proposed data collection spans three years (2020–2023).

To achieve the goals of this project the following data collections will be implemented.
