The 510(k) Third Party Review Program; Guidance for Industry, Food and Drug Administration Staff, and Third Party Review Organizations; Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability.

SUMMARY: The Food and Drug Administration (FDA or Agency) is announcing the availability of a final

guidance entitled “510(k) Third Party Review Program.” This guidance provides a comprehensive look into FDA’s current thinking regarding the 510(k) Third Party (3P510k) Review Program authorized under the Federal Food, Drug, and Cosmetic Act (FD&C Act). The 3P510k Review Program is intended to allow review of devices by 3P510k Review Organizations in order to provide manufacturers of these devices an alternative review process that allows FDA to best utilize our resources on higher risk devices.

DATES: The announcement of the guidance is published in the **Federal Register** on March 12, 2020.

SUPPLEMENTARY INFORMATION:

I. Background

FDA’s implementation of section 523 of the FD&C Act (21 U.S.C. 360m) establishes a process for recognition of qualified third parties to conduct the initial review of premarket notification (510(k)) submissions for certain low-to-moderate risk devices eligible under the 3P510k Review Program. Under FDARA (Pub. L. 115-52), the criteria used to establish device eligibility in the 3P510k Review Program changed and FDA was directed to issue guidance on the factors that will be used in determining whether a class I or class II device type, or subset of such device types, is eligible for review by an accredited person. The objectives of this guidance are to describe the factors FDA will use in determining device type eligibility for review by 3P510k Review Organizations; to outline FDA’s process for the recognition, rerecognition, suspension and withdrawal of recognition for 3P510k Review Organizations; and to ensure consistent quality of work among 3P510k Review Organizations through Medical Device User Fee Amendments IV commitments authorized under FDARA in order to eliminate the need for routine, substantive re-review by FDA. This guidance also outlines FDA’s current thinking on leveraging the International Medical Device Regulators Forum’s requirements for Regulatory Reviewers under the Good Regulatory Review Practices and the Medical Device Single Audit Program.

FDA considered comments received on the draft guidance that appeared in the **Federal Register** of September 14, 2018 (83 FR 46742). FDA revised the

guidance as appropriate in response to the comments. This guidance supersedes "Implementation of Third Party Programs Under the FDA Modernization Act of 1997; Final Guidance for Staff, Industry, and Third Parties" issued on February 2, 2001, and "Guidance for Third Parties and FDA Staff; Third Party Review of Premarket Notifications" issued on September 28, 2004.

II. Significance of Guidance

This guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The guidance represents the current thinking of FDA on the 510(k) Third Party Review Program. It does not establish any rights for any person and

is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.

III. Electronic Access

Persons interested in obtaining a copy of the guidance may do so by downloading an electronic copy from the internet. A search capability for all Center for Devices and Radiological Health guidance documents is available at <https://www.fda.gov/MedicalDevices/DeviceRegulationandGuidance/GuidanceDocuments/default.htm>. OMB No. 0990-0419.

Abstract: The Department of Health and Human Services; Office of the Assistant Secretary for Financial Resources and Office of Grants and Acquisition Policy and Accountability, Division of Acquisition is requesting an approval by OMB for an extension of a previously approved information collection request, Acquisition Regulation Clause Patent rights and Rights in Data.
