

specific chemical in the course of a calendar year.

Facilities that meet these criteria must file a Form R report or, in some cases, may submit a Form A Certification Statement, for each listed toxic chemical for which the criteria are met. The Form R Schedule 1 is an adjunct to the Form R that mirrors the data elements from Form R Part II Chemical-Specific Information sections 5, 6, and 8 (current year only) and requires the reporting of the individual grams data for each member of the dioxin and dioxin-like compounds category present. As specified in EPCRA section 313(a), facilities must submit report(s) for any calendar year on or before July 1 of the following year. For example, reporting year 2015 data should have been submitted and certified on or before July 1, 2016.

EPA maintains the list of toxic chemicals subject to TRI reporting at 40 CFR 372.65 and the Agency publishes this list each year as Table II in the Toxics Release Inventory Reporting Forms and Instructions. The current TRI chemical list contains 595 chemicals and 31 chemical categories. Environmental agencies, industry, and the public use TRI data for a wide variety of purposes. EPA program offices use TRI data, along with other data, to help establish programmatic priorities, evaluate potential hazards to human health and the natural environment, and undertake appropriate regulatory and/or enforcement activities. Environmental and public interest groups use the data to better understand toxic chemical releases at the community level and to work with industry, government agencies, and others to promote reductions in toxic chemical releases. Industrial facilities use the TRI data to evaluate the efficiency of their production processes and to help track and communicate their progress in achieving pollution prevention goals.

The TRI data are unique in providing a multi-media (air, water, and land) picture of toxic chemical releases, transfers, and other waste management activities by covered facilities on a yearly basis. While other environmental media programs provide some toxic chemical data and related permit data, TRI data are unique with regard to the types of chemicals and industry sectors covered as well as the frequency of reporting. Facilities subject to TRI reporting must submit reports for each calendar year to EPA and the State or Indian Country in which they are located by July 1 of the following year.

Respondents may claim trade secrecy for a chemical's identity as described in

EPCRA Section 322 and its implementing regulations in 40 CFR part 350. EPA will disclose information covered by a claim of trade secrecy only to the extent permitted by and in accordance with the procedures in 40 CFR part 350 and 40 CFR part 2.).

**Burden statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 22.0 hours and 35.7 hours per response, depending upon the nature of the response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

## FEDERAL TRADE COMMISSION

### Granting of Requests for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination—on the dates indicated—of the waiting period provided by law and the premerger notification rules. The listing for each transaction includes the transaction number and the parties to the transaction. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.
