Assessment Rates

Pursuant to section 751(a)(2)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.212(b)(1), Commerce will determine, and U.S. Customs and Border Protections (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. We will calculate importer-specific assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for each importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).

For entries of subject merchandise during the POR produced by each respondent for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate such entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction. We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2) of the Act: (1) The cash deposit rate for the respondents noted above will be the rate established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will

continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, then the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 8.31 percent, the all-others cash deposit rate established in the investigation.⁶ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.221(b)(5).

Fish and Fish Product Import Provisions of the Marine Mammal Protection Act 2020 List of Foreign Fisheries

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: NMFS is publishing its draft 2020 List of Foreign Fisheries (LOFF), as required by the regulations

implementing the Fish and Fish Product Import Provisions of the Marine Mammal Protection Act (MMPA). The draft 2020 LOFF reflects new information received from nations submitting their 2019 Progress Reports on interactions between commercial fisheries exporting fish and fish products to the United States and marine mammals, and updates the 2017 LOFF. NMFS classified each commercial fishery in this draft 2020 LOFF into one of two categories, either "export" or "exempt," based upon frequency and likelihood of incidental mortality and serious injury of marine mammals likely to occur incidental to each fishery. The classification of a fishery on the draft 2020 LOFF determines which regulatory requirements will be applicable to that fishery for it to receive a comparability finding necessary to export fish and fish products to the United States from that fishery.

DATES: Written comments must be received by 5 p.m. Eastern Time on May 1, 2020.

ADDRESSES: The draft 2020 LOFF can be found at: <https://www.fisheries.noaa.gov/foreign/international-affairs/list-foreign-fisheries>.

You may submit comments on this document, identified by NOAA-NMFS-2020-0001, by either of the following methods:

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). NMFS will consider all

comments and information received during the comment period in preparing a final LOFF. NMFS will also seek input from nations on the draft LOFF at bilateral and multilateral meetings, as appropriate.

FOR FURTHER INFORMATION CONTACT:

Nina Young, NMFS F/IASI at Nina.Young@noaa.gov, mmpa.loff@noaa.gov, or 301-427-8383.

SUPPLEMENTARY INFORMATION: In August 2016, NMFS published a final rule (81 FR 54390; August 15, 2016) implementing the fish and fish product import provisions (section 101(a)(2)) of the MMPA. This rule established conditions for evaluating a harvesting nation's regulatory programs to address incidental and intentional mortality and serious injury of marine mammals in its fisheries producing fish and fish products exported to the United States. Specifically, fish or fish products cannot be imported into the United States from commercial fishing operations that result in the incidental mortality or serious injury of marine mammals in excess of United States standards. Fish and fish products from export and exempt fisheries identified by the Assistant Administrator for Fisheries in the LOFF can only be imported into the United States if the harvesting nation has applied for and received a comparability finding from NMFS. The 2016 final rule established procedures that a harvesting nation must follow and conditions it must meet to receive a comparability finding for a fishery. The rule also established provisions for intermediary nations to ensure that such nations do not import and re-export to the United States fish or fish products that are subject to an import prohibition.

This draft 2020 LOFF (see <https://www.fisheries.noaa.gov/foreign/international-affairs/list-foreign-fisheries>) makes updates to the final 2017 LOFF, which was published on March 16, 2018 (83 FR 11703).

What is the List of Foreign Fisheries?

Based on information provided by nations, industry, the public, and other readily available sources, NMFS identified nations with commercial fishing operations that export fish and fish products to the United States and classified each of those fisheries based on their frequency of marine mammal interactions as either "exempt" or "export" fisheries (see Definitions below). The entire list of these export and exempt fisheries, organized by nation (or economy), constitutes the LOFF.
