

TriMet contends because WES trains will be sounding the bell, the “long-long-short-long” requirement of § 222.21 would be redundant, and should not be required at these three crossings.

In November 2014, TriMet sought, and in August 2015, FRA granted, five years of regulatory relief from the requirements of § 222.21 as described above. The current petition seeks permanent relief from these same requirements.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
