Safety Zones; Annual Events Requiring Safety Zones in the Captain of the Port Lake Michigan Zone

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is proposing to amend the rules that regulate vessel traffic and control navigation on portions of waterways in the Lake Michigan Captain of the Port Zone during events that will introduce safety concerns to life and property on the navigable waters of the United States. This proposed rulemaking will reorganize the table listing these safety zones into four separate tables organized by the State in which the safety zone occurs, make minor formatting changes for consistency, update the dates listed for some events, consolidate one safety zone, and remove six safety zones that are no longer necessary. We invite your comments on this proposed rulemaking.

DATES: Comments and related material must be received by the Coast Guard on or before April 20, 2020.

ADDRESSES: You may submit comments identified by docket number USCG-2020-0125 using the Federal eRulemaking Portal at <https://www.regulations.gov>. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: If you have questions about this proposed rulemaking, call or email Chief Petty Officer Kyle Weitzell, Waterways Management Division, Sector Lake Michigan, U.S. Coast Guard; telephone 414-747-7148, email Kyle.W.Weitzell@uscg.mil.

II. Background, Purpose, and Legal Basis

Recurring events are held on a regular basis on the navigable waters of the Captain of the Port Lake Michigan Zone (COTP). In the past, the Coast Guard would establish safety zones for these events due to safety concerns specific to each event, primarily fireworks or localized community events which do not require a Coast Guard issued permit and are not subject to the special local regulations of 33 CFR 100. The COTP has determined that potential hazards associated with the events exist, and these safety zones have been established to protect safety of life and property for the maritime public and event participants from the hazards associated with these events. In the past, the Coast Guard has not received public comments or concerns regarding impacts to waterway traffic as a result of these regularly recurring safety zones.

This proposed rulemaking would provide consistency to notify the public in a timely manner through permanent publication in Title 33 of the Code of Federal Regulations. The table in this proposed rule would list each regularly recurring safety zone, as administered by the Coast Guard and enforced by COTP Lake Michigan.

By consolidating two regulations into a single regulation and making the proposed formatting updates, the Coast Guard will improve the accuracy of this information, make the regulations easier to use, and reduce the administrative burden to manage multiple regulations. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231).

III. Discussion of Proposed Rule

The COTP Lake Michigan is proposing to reorganize the one table listing these safety zones into four separate tables organized by the State in which the safety zone occurs, make minor formatting changes for consistency, update the dates listed for some events, consolidate two regulations into a single regulation, and remove six safety zones. In this rulemaking, the Coast Guard proposes to remove § 165.935 and revise § 165.929 to consolidate the regulation contained § 165.935 into Table 4 of § 165.929.

Additionally, six existing events listed as safety zones in 33 CFR 165.929, specifically those events listed in §§ Table 165.929(e)(30), Table 165.929(e)(51), Table 165.929(f)(17), Table 165.929(f)(18), Table 165.929(g)(2), and Table 165.929(g)(4), would be moved to § 100.903 through a separate rulemaking (Docket Number USCG-2020-0124). Furthermore, the sponsors of several events listed have changed the dates that they hold their events, requiring the Coast Guard issue notices of enforcement for these changes each year. Updating these dates will eliminate the need to issue notices of enforcement as a regular occurrence. Lastly, the table of safety zones in § 165.929 would be reformatted into four separate tables, organized by the State in which the safety zone occurs. Each safety zone would be listed chronologically and then alphabetically by city. This rulemaking will not substantially change the details of any event.

As large numbers of spectator vessels and marine traffic are expected to congregate around the event locations or due to inherent risks involved in certain types of waterway activities, the regulated areas that would be listed in the table are needed to protect all waterway users. During the enforcement period of the regulated areas, persons and vessels would be prohibited from entering, transiting through, and remaining, anchoring, or mooring within the regulated area unless specifically authorized by the COTP or a designated representative. The Coast Guard may be assisted by other Federal, State, or local agencies in the enforcement of these regulated areas.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This NPRM has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB), and

pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

The Coast Guard has previously promulgated safety zones in § 165 for all event areas contained within this proposed regulation and has not received notice of any negative impact caused by the regulations. By consolidating these regulations into a single regulation and making the proposed formatting changes, the Coast Guard will improve the accuracy of this information, make the regulations easier to use, and reduce the administrative burden to manage multiple regulations.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section IV.A above, this proposed rule would not have a significant economic impact on any vessel owner or operator.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under

the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves the consolidation and making formatting changes of existing

safety zones. Normally such actions are categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

V. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking, and will consider all comments and material received during the comment period. Your comment can help shape the outcome of this rulemaking. If you submit a comment, please include the docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, call or email the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

We accept anonymous comments. All comments received will be posted without change to <https://www.regulations.gov> and will include any personal information you have provided. For more about privacy and submissions in response to this document, see DHS’s Correspondence System of Records notice (84 FR 48645, September 26, 2018).

Documents mentioned in this NPRM as being available in the docket, and all public comments, will be in our online docket at <https://www.regulations.gov> and can be viewed by following that website’s instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard is proposing to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

■ 2. Revise § 165.929 to read as follows:

§ 165.929 Safety Zones; Annual Events Requiring Safety Zones in the Captain of the Port Lake Michigan Zone.

(a) *Regulations.* The following regulations apply to the safety zones listed in Table 1 through Table 4 of this section.

(1) The general regulations in § 165.23.

(2) All vessels must obtain permission from the Captain of the Port (COTP) Lake Michigan or his or her designated representative to enter, move within, or exit a safety zone established in this

section when the safety zone is enforced. Vessels and persons granted permission to enter one of the safety zones listed in this section must obey all lawful orders or directions of the COTP Lake Michigan or his or her designated representative. Upon being hailed by the U.S. Coast Guard by siren, radio, flashing light or other means, the operator of a vessel must proceed as directed.

(3) The enforcement dates and times for each of the safety zones listed in Table 1 through Table 4 of this section are subject to change, but the duration of enforcement would remain the same, or nearly the same, as stated in Table 1 through Table 4 of this section. In the event of a change, the COTP Lake Michigan will provide notice to the public by publishing a Notice of Enforcement in the **Federal Register**, as well as, issuing a Broadcast Notice to Mariners.

(b) *Definitions.* The following definitions apply to this section:

(1) *Designated representative* means any Coast Guard commissioned, warrant, or petty officer designated by the COTP Lake Michigan to monitor a safety zone, permit entry into a safety zone, give legally enforceable orders to persons or vessels within a safety zone,

and take other actions authorized by the COTP Lake Michigan.

(2) *Public Vessel* means a vessel that is owned, chartered, or operated by the United States, or by a State or political subdivision thereof.

(3) *Rain date* refers to an alternate date and/or time in which the safety zone would be enforced in the event of inclement weather.

(c) *Suspension of enforcement.* The COTP Lake Michigan may suspend enforcement of any of these zones earlier than listed in this section. Should the COTP Lake Michigan suspend any of these zones earlier than the listed duration in this section, he or she may make the public aware of this suspension by Broadcast Notice to Mariners and/or on-scene notice by his or her designated representative.

(d) *Exemption.* Public Vessels, as defined in paragraph (b) of this section, are exempt from the requirements in this section.

(e) *Waiver.* For any vessel, the COTP Lake Michigan or his or her designated representative may waive any of the requirements of this section upon finding that operational conditions or other circumstances are such that application of this section is unnecessary or impractical for the purposes of safety or security.
