

4, 6 and 8 records report establishment data, the ratios of type 4-to-type 2; type 6-to-type 2; and type 8-to-type 2 records are considerably larger. Specifically, the ratio of type 4 records to type 2 records is 4.9:1, or for every type 2 record submitted, nearly 5 type 4 records were submitted. The ratio for type 6 records to type 2 records is 14.9:1, or for every type 2 record submitted, nearly 15 type 6 records were submitted. The ratio for

type 8 records to type 2 records is 13.1:1, or for every type 2 record, about 13 type records were submitted. These ratios were then applied to the estimated number of type 2 filers—53,777—to estimate the total number of records by type we expect to receive for data years 2019 through 2021. We estimate it will take filers a total of 9,140,226 hours to submit these records. The total aggregate reporting time for

Component 1 EEO-1 filers is 9,167,393 hours. The aggregate reporting time for Component 1 EEO-1 filers by record type varies between a low of 27,167 hours for type 1 filers submitting type 1 reports, and 6,414,815 hours for type 2 filers submitting type 6 reports. The table below outlines that number of records, the average reporting time by record type, and the total number of hours estimated to submit these records.

TABLE 1—PROJECTED ANNUAL BURDEN FOR COMPONENT 1 DATA YEARS 2019–2021, BY REPORT TYPE AND REPORTING TIME

	Number of records	Average reporting time (minutes)	Aggregate reporting time, hours
Type 1	36,223	45	27,167
Type 2 ^a	53,777	45	40,333
Type 3 ^b	53,777	45	40,333
Type 4 ^c	264,403	120	528,806
Type 6 ^d	801,852	480	6,414,815
Type 8 ^e	705,313	180	2,115,940
Total	1,915,345	9,167,393

^a The Consolidated Report must include all employees of the company categorized by race, gender and job category.

^b Headquarters Report (Required)—The Headquarters Report must include employees working at the main office site of the company and those employees that work from home that report to the corporate office. Employment data must be categorized by race, gender and job category. A separate EEO-1 report for the headquarters establishment is required even if there are fewer than 50 employees working at the headquarters establishment.

^c Establishment Report—A separate EEO-1 Type 4 report must be submitted for each physical establishment with 50 or more employees. Employment data must be categorized by race, gender and job category.

^d Establishment list—includes establishment name, address and total number of employees for each location with less than 50 employees. Employers choosing Type 6 reports must also manually enter data categorized by race, gender and job category into the accompanying Type 2 report and include all company employees.

^e A separate EEO-1 report must be submitted for each establishment employing fewer than 50 employees. Like the Type 4 report, Type 8 report employment data must also be categorized by race, gender and job category. Employers choosing Type 8 reports must enter employment data categorized by race, gender and job category for each Type 8 report. The employment data entered for each such establishment will automatically populate the Type 2 Report.

An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated number of respondents who must annually file EEO-1 Component 1 data for the next three years is 90,000 filers each year. The EEOC estimates that the 90,000 filers will submit 1,915,345 reports. Reports represent the annual number of responses. About 40% of Component 1 filers (36,223 filers) will submit a single report on a single establishment, and it is estimated that it will take these filers an average of 45 minutes per reporting year to complete their Component 1 EEO-1 report. About 60% of Component 1 filers (53,777 filers) will report data on multiple establishments. All multi-establishment filers must complete both type 2 and type 3 reports, in addition to completing either a type 4, 6, or 8 report for each establishment for each reporting year, for a total of 1,879,122 multi-establishment EEO-1 reports submitted by 53,777 multi-establishment filers. While the actual submission time for single and multi-

establishment filers varies,⁴⁹ for purposes of this exercise we estimate that it will take a filer, on average, under 5 hours to complete their Component 1 EEO-1 report. Each filer will be asked to respond to Component 1 of the EEO-1 once annually. The burden estimate is

⁴⁹ Burden for single establishment filers is based on a single report. Burden for multi-establishment reporters is cumulative and is based on the report type combination. EEO-1 project staff estimate that the average completion time for the type 2 report would be 45 minutes, the completion of the type 3 report adds an average of 45 minutes to the burden, and the completion of type 4 reports adds an average of 2 hours to the burden, so a Type 2 filer completing type 4 reports will have an average burden of 3.5 hours (45 minutes for the type 2 report, plus 45 minutes for the type 3 report, plus 2 hours for the type 4 reports). A Type 2 filer completing type 6 reports will add—on average—8 hours to the burden, for a total burden of 9.5 hours. A Type 2 filer completing type 8 reports will add—on average—3 hours to the burden, for a total burden of 4.5 hours. While this analysis recognizes that individual filers' burdens will vary, on average a multi-establishment filer submitting 2/3/4 reports would have the lowest estimated burden of 3.5 hours while a filer submitting 2/3/6 reports would have the highest estimated average burden of 9.5 hours. Once Type 1, or single establishment filers, and filers submitting 2/3/8 are considered, the average estimated burden for EEO-1 filers is approximately 5 hours.

based on data from prior administrations of Component 1 of the EEO-1.

An estimate of the total public burden (in hours) associated with the collection: The collection of EEO-1 Component 1 data for calendar years 2019, 2020, and 2021 is estimated to impose a total of 9,167,393 annual burden hours for 1,915,345 Component 1 reports. Filers are encouraged to report data electronically to decrease burden.

BILLING CODE P

FEDERAL TRADE COMMISSION

Privacy Act of 1974; System of Records

AGENCY: Federal Trade Commission (FTC).

ACTION: Notice of modified systems of records.

SUMMARY: The FTC is making technical revisions to several of the notices that it has published under the Privacy Act of 1974 to describe its systems of records. This action is intended to make these notices clearer, more accurate, and up-to-date.

DATES: These technical revisions shall become final and effective on March 23, 2020.

FOR FURTHER INFORMATION CONTACT: G. Richard Gold and Alex Tang, Attorneys, Office of the General Counsel, FTC, 600 Pennsylvania Avenue NW, Washington, DC 20580, (202) 326-2424.

SUPPLEMENTARY INFORMATION: To inform the public, the FTC publishes in the *Federal Register* and posts on its website a “system of records notice” (SORN) for each system of records that the FTC currently maintains within the meaning of the Privacy Act of 1974, as amended, 5 U.S.C. 552a (“Privacy Act” or “Act”). See <https://www.ftc.gov/about-ftc/foia/foia-reading-rooms/privacy-act-systems>. The Privacy Act protects records about individuals in systems of records collected and maintained by Federal agencies. (A system is not a “system of records” under the Act unless the agency maintains and retrieves records in the system by the relevant individual’s name or other personally assigned identifier.) Each Federal agency, including the FTC, must publish a SORN that describes the records maintained in each of its Privacy Act systems, including the categories of individuals that the records in the system are about, where and how the agency maintains these records, and how individuals can find out whether an agency system contains any records about them or request access to such records, if any. The FTC, for example, maintains 40 systems of records under the Act. Some of these systems contain records about the FTC’s own employees, such as personnel and payroll files, while other FTC systems contain records about members of the public, such as public comments, consumer complaints, or phone numbers submitted to the FTC’s Do Not Call Registry.

The FTC’s SORNs discussed in this notice apply only to the FTC’s own Privacy Act record systems. They do not cover Privacy Act records that other Federal agencies may collect and maintain in their own systems. Likewise, the FTC’s SORNs and the Privacy Act of 1974 do not cover records that private businesses or other non-FTC

entities may collect about individuals, which may be covered by other privacy laws.

On June 12, 2008, the FTC republished and updated all of its SORNs, describing all of the agency’s systems of records covered by the Privacy Act in a single document for ease of use and reference. See 73 FR 33592. To ensure the SORNs remain accurate, FTC staff reviews each SORN on a periodic basis. As a result of this systematic review, the FTC made revisions to several of its SORNs on April 17, 2009 (74 FR 17863), August 27, 2010 (75 FR 52749), February 23, 2015 (80 FR 9460), November 2, 2017 (82 FR 50871), November 6, 2018 (83 FR 55541), and April 19, 2019 (84 FR 16493).

Based on a periodic review of its SORNs, the FTC is publishing these additional technical revisions, to ensure that the FTC’s SORNs remain clear, accurate, and up-to-date:

- First, the FTC is amending several SORNs to clarify or update information about the applicable records disposition schedules published or approved by the National Archives and Records Administration (NARA), which determine how long agency records in each system should be retained and destroyed.

- Second, the FTC is amending multiple SORNs applicable to FTC financial-related records (FTC-III-2 and FTC-III-3) to take account of the FTC’s migration of these systems, previously serviced under an interagency agreement with the Department of Interior’s National Business Center, to the Department of Treasury’s Administrative Resource Center (ARC), part of the Bureau of Fiscal Services, as of October 1, 2019; to also address the new interagency service agreement with ARC for acquisition procurement support (FTC-III-4), and to make other technical changes (e.g., updating the official title of the system manager, explaining how individuals may now access certain records online).

- Third, after consultation with staff at the Office of Management & Budget (OMB), which provides guidance to Federal agencies on complying with the Privacy Act, the FTC is amending the above SORNs to include specific references to the **Federal Register** notices where the FTC previously published three SORN Appendices applicable to all FTC SORNs.

Specifically, these Appendices, which are posted on the FTC’s website: List the authorized disclosures and routine uses applicable to all FTC systems of records (Appendix I); how an individual can make a Privacy Act request to determine

if the FTC has any records about him or her and, if so, how the individual may request access to or amendment of those records in the FTC’s systems (Appendix II); and the location of FTC buildings and offices where the FTC maintains its records subject to the Act (Appendix III).

- Fourth, the FTC is republishing the full text of each of the above SORNs, incorporating the technical amendments, for the convenience of the reader and in accordance with OMB Circular A-108 (2016), which reorganized the format and content for SORNs published by Federal agencies.

The FTC is not substantively adding or amending any routine uses of its Privacy Act system records.

Accordingly, the FTC is not required to provide prior public comment or notice to OMB or Congress for these technical amendments, which are final upon publication. See U.S.C. 552a(e)(11) and 552a(r); OMB Circular A-108, *supra*.

A SORN-by-SORN summary, including a more detailed description of each SORN and how it is being amended, appears below, followed by the full text of the SORNs, as amended.

II. Federal Trade Commission Personnel Systems of Records

FTC-II-12 (Learning Management System—FTC). This SORN covers the system used by the FTC’s Human Capital Management Office to track and log requests of FTC employees to attend training courses. The FTC is revising this SORN to update the “system name and number” heading. The “category of records” section of the SORN is also being amended to recognize that records in this system contain employee names, but no longer include social security numbers or dates of birth. The “policies and practices for retrieval of records” section is revised to reflect that records are not retrieved by social security number.

FTC-II-13 (Staff Time and Activity Reporting (STAR) System—FTC). This SORN covers the system that the FTC uses to compile statistics on time spent by each employee on various FTC matters. The Commission has updated the “retention and disposal” section to cite the applicable General Records Schedule approved by NARA for government-wide use.

III. Federal Trade Commission Financial Systems of Records

FTC-III-2 (Travel Management System—FTC). This SORN covers travel documentation for FTC employees and other authorized individuals on official travel for the FTC. This SORN is revised to take account of the FTC’s migration

of this system, which was previously serviced under an interagency agreement with the Department of Interior's National Business Center, to the Department of Treasury's Administrative Resource Center as of October 1, 2019. Thus, the sections on "system location" and "categories of records in the system" are also being updated. The Commission is also updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

FTC-III-3 (Financial Management System—FTC). This SORN covers FTC records of payments or reimbursements for official travel by its employees and other individuals (compare *FTC-III-2* above) and miscellaneous payments for the acquisition of goods or services (compare *FTC-III-4* below). This SORN is revised to take account of the FTC's migration of this system, previously serviced under an interagency agreement with the Department of Interior's National Business Center, to the Department of Treasury's Administrative Resource Center as of October 1, 2019. Conforming amendments are also being made to "system location", "system manager(s)", and "categories of records in the system", and a non-substantive update is being made to routine uses (*i.e.*, citing the related Treasury SORN). The Commission has also updated the "retention and disposal" section to cite the applicable General Records Schedule that was approved by NARA for government-wide use.

FTC-III-4 (Automated Acquisitions System—FTC). This SORN covers the system used by the FTC to track requisitions (orders) for goods or services from non-FTC sources. This SORN is revised to take account of the FTC's new interagency service agreement for acquisition systems support with the Department of Treasury's Administrative Resource Center as of October 1, 2019. Conforming amendments are being made to "system location" and "categories of records in the system" (also citing to the relevant Government-wide General Services Administration (GSA) SORN that includes the same record categories). The Commission is also updating the contact information for the "system manager(s)". Finally, the Commission is updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

IV. FTC Correspondence Systems of Records

FTC-IV-3 (National Do Not Call Registry—FTC). This SORN covers records of individuals who wish to be placed on the FTC's telemarketing do-not-call list. It also covers information collected from telemarketers, sellers, or agents who are required to comply with the list, but only to the extent, if any, that such telemarketers, sellers, or agents are also "individuals" within the meaning of the Privacy Act. The Commission has updated the official title and contact information for the "system manager(s)". The Commission is also updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

VII. FTC Miscellaneous Systems of Records

FTC-VII-3 (Computer Systems User Identification and Access Records—FTC). This SORN covers records that the FTC maintains on individual users of computer systems operated by the FTC or on its behalf in order to monitor and control their usage of such systems. The Commission has updated the official title and contact information for the "system manager(s)". The Commission is also updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

FTC-VII-4 (Call Detail Records—FTC). This SORN covers records that the FTC maintains on FTC telephone usage by its employees, contractors, and other individuals. The Commission has updated the official title and contact information for the "system manager(s)". The Commission is also updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

FTC-VII-5 (Property Management System—FTC). This SORN covers property logs or other records that the FTC maintains to account for FTC office equipment, keys, or other FTC property assigned to individual employees or others. The Commission is updating the contact information for the "system manager(s)". Finally, the Commission is updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

FTC-VII-7 (Information Technology Service Ticket System—FTC). This SORN applies to records maintained by or on behalf of the agency to track FTC "help desk" requests or other information from or about FTC

employees and contractors relating to computer assistance, repairs, loss, etc., of FTC equipment and IT resources. The Commission has updated the official title and contact information for the "system manager(s)". The Commission is also updating the "retention and disposal" section to cite the applicable General Records Schedule approved by NARA for government-wide use.

FTC-VII-8 (Administrative Service Order System—FTC). SYSTEM NAME AND NUMBER:

National Do Not Call Registry System—FTC (FTC–IV–3).

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580. System database is maintained and operated off-site by a contractor. For other locations where records may be maintained or accessed, see Appendix III (Locations of FTC

Buildings and Regional Offices), available on the FTC’s website at <https://www.ftc.gov/about-ftc/foia/foia-reading-rooms/privacy-act-systems> and at 80 FR 9460, 9465 (Feb. 23, 2015).

SYSTEM MANAGER(S):

National Do Not Call Registry Program Manager, Division of Consumer Response and Operations, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Washington, DC 20580, email: SORNs@ftc.gov.

See Treasury/FMS.017 for the system manager and address of the www.pay.gov system.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Federal Trade Commission Act, 15 U.S.C. 41 *et seq.*, Telemarketing and Consumer Fraud and Abuse Prevention Act, 15 U.S.C. 6101–6108; Do-Not-Call Implementation Act, Pub. L. 108–10 (2003); Do-Not-Call Improvement Act of 2007, Pub. L. 110–187 (2008); Do-Not-Call Registry Fee Extension Act of 2007, Pub. L. 110–188 (2008).

PURPOSE(S) OF THE SYSTEM:

To maintain records of the telephone numbers of individuals who do not wish to receive telemarketing calls; to disclose such records to telemarketers, sellers, and their agents in order for them to reconcile their do-not-call lists with the Registry and comply with the do-not-call provisions of the Commission’s Telemarketing Sales Rule, 16 CFR part 310; to enable the Commission and other law enforcement officials to determine whether a company is complying with the Rule; to provide statistical data that may lead to or be incorporated into law enforcement investigations and litigation; or for other law enforcement, regulatory or informational purposes. Information submitted by or compiled on telemarketers, sellers, and their agents is used for purposes of fee collection, authorizing their access to the system, and related purposes and uses as described in this notice.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who notify the Commission that they do not wish to receive telemarketing calls. Individually identifiable information (e.g., name, email address) that telemarketers, sellers, or their agents must submit when paying for and obtaining access to the system is covered by this system only to the extent, if any, that such information is “about [the] individual” within the meaning of the Privacy Act, and is not about the telemarketer, seller,

or agent acting in a non-individual business capacity.

CATEGORIES OF RECORDS IN THE SYSTEM:

Telephone numbers of individuals who do not wish to receive telemarketing calls; information automatically generated by the system, including date and/or time that the telephone number was placed on or removed from the Registry; and other information that the individual may be asked to provide voluntarily (such as email address, if the individual registers through the National Do Not Call Registry website). Telemarketers, sellers, and their agents are also required to submit information to pay for and obtain authorized access to the system, including the names of, or other identifiers that may be associated with, individuals (e.g., name of contact person, name of the person to whom the credit card is issued, email address, etc.). Such information is part of this FTC system of records only to the extent, if any, that such information is maintained in the FTC’s records and is “about [the] individual” within the meaning of the Privacy Act, and not about a telemarketer, seller, or agent acting in a non-individual business capacity.

Otherwise, user fee payment data from telemarketers, sellers, and their agents required to participate in the National Do Not Call Registry are principally collected and maintained on behalf of the Government by the www.pay.gov website operated by the Department of Treasury Financial Management Service (FMS). Those data are covered by the applicable system notice published by Treasury/FMS, Treasury/FMS.017 (Collections Records), and any successor system notice that may be published for that system.

RECORD SOURCE CATEGORIES:

Individuals who inform the Commission through the procedures established by the Commission that they do not wish to receive telemarketing calls. Some records may come from do-not-call lists that some states or organizations separately maintain. Record sources for this system may also include telemarketers, sellers, and agents, but only to the extent, if any, that they are “individuals” within the meaning of the Privacy Act.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

(1) Telephone numbers, but not any email addresses, submitted by individuals may be made available or

referred on an automatic or other basis to telemarketers, sellers, and their agents for the purpose of determining or verifying that an individual does not wish to receive telemarketing calls;

(2) Information submitted by or compiled on telemarketers, sellers, and their agents may be used and disclosed to other Federal, state, or local government authorities for payment or billing purposes, including referral to debt collection agencies or other governmental entities for collection, tax reporting, or other related purposes. Information that is submitted by or compiled on telemarketers, sellers, and their agents and that is incorporated into the *www.pay.gov* system shall also be subject to routine uses, if any, that may be separately published for that system, Treasury/FMS.017 (Collections Records), or any successor system notice for that system.

For other ways that the Privacy Act permits the FTC to use or disclose system records outside the agency, see Appendix I (Authorized Disclosures and Routine Uses Applicable to All FTC Privacy Act Systems of Records), available on the FTC's website at <https://www.ftc.gov/about-ftc/foia/foia-reading-rooms/privacy-act-systems> and at 83 FR 55542–55543 (Nov. 6, 2018).

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records in the system are collected and maintained by an off-site FTC contractor in an electronic database with Web-based access subject to strict security controls (see “Safeguards” below).

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Indexed by area code and phone number of individuals who have informed the Commission that they do not wish to receive telemarketing calls. May also be retrieved by other data, if any, compiled or otherwise maintained with the record. For information submitted by or compiled on telemarketers, sellers, or their agents, records may be indexed and retrieved by any category of data that is submitted by or compiled on such telemarketers, sellers, or agents.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Information is retained until the individual requests deletion of their information from the system or when the agency determines it no longer has a business need for the data. Disposition is in accordance with applicable records schedules issued or approved by the National Archives and Records Administration (GRS 5.2, item 020

Intermediary records) and in accordance with agency electronic data deletion procedures. The retention and destruction of payment data collected from telemarketers, sellers, and their agents by Treasury's FMS is described in the system notice for the *www.pay.gov* system, Treasury/FMS.017.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access is generally restricted to those agency personnel, contractors and other law enforcement users subject to confidentiality agreements whose responsibilities require access, or to approved telemarketers, sellers, and their agents. Electronic access is subject to login ID, password, and other electronic access and security controls (e.g., firewalls). Contractors are required to sign confidentiality and nondisclosure agreements.

RECORD ACCESS PROCEDURES:

To request access to any information maintained with your registration that is not available to you through the automated dial-in system or the designated website described in the notification procedures above, you must submit your request in writing. See Appendix II for details. The same access procedure applies to the extent, if any, that the Privacy Act applies to information submitted by or compiled on telemarketers, sellers, or their agents, where that information is not made available for review or amendments when the telemarketer, seller, or agent accesses the system.

CONTESTING RECORD PROCEDURES:

Where an individual believes the system has erroneously recorded or omitted information that is collected and maintained by the system, the individual will be afforded the opportunity to register, change, or delete that information after the automated system identifies and verifies the telephone number from which the individual is calling, if the individual is using the designated website, or the individual provides other identifying information, if requested by the automated system. To contest the accuracy of any other information that is not accessible to the individual through the automated dial-in system or website as described in the “Notification procedures” section above, the request must be submitted to the FTC in writing. See Appendix II for details. The same written request requirement applies to telemarketers, sellers, or their agents (to the extent, if any, that they are “individuals” within

the meaning of the Privacy Act) when seeking to contest the accuracy of system information maintained on them, except for system information, if any, that can be contested or corrected through the automated system.

NOTIFICATION PROCEDURES:

To obtain notification of whether the system contains a record pertaining to that individual (i.e., the individual's telephone number), individuals use a dial-in system or a designated website that will enable the identification and verification of their telephone numbers. Individuals filing written requests pursuant to 16 CFR 4.13 will be acknowledged and directed to use those automated systems. To the extent, if any, that the Privacy Act applies to information submitted by or compiled on telemarketers, sellers, or their agents, the system provides notice (i.e., confirms) that the system is maintaining such information when an individual accesses the system using the account number that was previously assigned to the telemarketer, seller, or agent at the time that entity originally entered information into the system to establish the relevant account.
