**SUPPLEMENTARY INFORMATION:****I. Abstract**

Executive Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that the Department of Commerce (DOC) programs are effective and meet our customers' needs we use a generic clearance process to collect qualitative feedback on our service delivery. This collection of information is necessary to

enable DOC to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers and stakeholders will help ensure that users have an effective, efficient, and satisfying experience with the programs. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between DOC and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance.

**II. Method of Collection**

The methods of collection include but are not limited to in-person surveys, telephone interviews or questionnaires, mail and email surveys, web-based products, focus groups, and comment cards.

All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

**FOR FURTHER INFORMATION CONTACT:**

Requests for additional information or copies of the information collection instrument and instructions should be directed to the DOC PRA Clearance Officer, Office of Policy and Governance, 14th and Constitution Avenue NW, Room 6616, Washington, DC 20230, (202) 482-3306 or at [PRAComments@doc.gov](mailto:PRAComments@doc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

This request is a renewal of a generic clearance for the collection of routine information requested of respondents in challenges and competitions that the Department of Commerce posts on the General Service Administration (GSA)'s *Challenge.gov* website since passage of the America COMPETES Act of 2011. In order for DOC to quickly and effectively launch competitions on a continual basis, DOC seeks generic clearance to collect information for these challenges and competitions, which will generally include first name, last name, email, city, state and when applicable other demographic information. It can also include other information necessary to evaluate submissions and understand their impact related to the general goals of the competition. Upon entry or during the judging process, applicants under the age of 18 may be asked to confirm parental consent, requiring students under 18 to have a parent's signature on a parental consent form provided by the DOC in order to qualify for the contest. For certain challenges we may also need to collect data such as types of data sets used in the solution, types of software tools used in the solution, and information regarding uses of proprietary software (*i.e.*, licenses or use agreements). Information obtained from participants will be used by the program managers (challenge manager), technical reviewers, and other agency officials (such as agency counsels).

In 2011, Federal agencies including DOC were given prize authority for administering challenges and competitions. Section 105(a) of the America Competes Act, adds Section 24 to the Stevenson-Wynder Technology

Innovation Act of 1980 (15 U.S.C. 3701 *et seq.*) that addresses provisions for challenges and competitions with prizes conducted by Federal agencies. Challenges and competitions enable DOC to tap into the expertise and creativity of the public in new ways. DOC evaluates submissions and typically awarded monetary or non-monetary prizes to winning entries. DOC may sponsor challenges and competitions in a wide variety of areas to increase public participation and solicit new ideas on a wide array of topics important to the agencies mission. DOC's goal is to engage a broader number of stakeholders who are inspired to work on some of our most pressing issues.

The information collected will be used to understand whether the participant has met the technical requirements for the challenge, assist in the technical review and judging of the solutions that are provided, and assess how the competition was administered. Information may be collected during the competition or after its completion.

This clearance applies to challenges posted on *Challenge.gov*, which uses a common platform for the solicitation of challenges from the public. Each agency designs the criteria for its solicitations based on the goals of the challenge and the specific needs of the agency. There is no standard submission format for solution providers to follow, and there is no set schedule for the issuance of challenges; they are developed and issued on an "as needed" basis in response to issues the federal agency wishes to solve.

**II. Method of Collection**

The primary method of collection will be the internet (electronically). Some supporting documents may be emailed, mailed, or collected in person.

**III. Data**

*OMB Control Number:* 0690-0031.

*Form Number(s):* None.
