SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for renewal of the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally-Owned Residential Properties and Housing Receiving Federal Assistance.

OMB Approval Number: 2539-0009.

Type of Request: Revision with some changes due to program changes.

Form Number:

Description of the need for the information and proposed use: Provision of a pamphlet on lead poisoning prevention to tenants and purchasers; provision of a notice to occupants on the results of lead hazard evaluation or reduction activities; special reporting requirements for a child with an environmental intervention blood lead level; and recordkeeping and periodic summary reporting requirements.

Respondents: Residential property owners; housing agencies; Federal grantees; and tribally designated housing entities and/or participating jurisdictions.

The revised hour burden estimates are presented in the table below. In the table, the \$16.10 hourly cost per response reflects the weighted average of cases, first, in which the respondent is simply giving someone a pamphlet, putting something in a file, or retrieving something from a file, and sending summary information from it to the Department, valued at \$10.93 per hour; and second, processing notices as above as well as providing information in cases of lead-poisoned children, valued at \$17.48 per hour. (These labor rates have been escalated by 3% from 2016 based on the Census Bureau's constant quality housing construction price index, since the work is in the housing trades.)

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Total	62,295	As needed ...	Various	2.2	136,692	\$16.10	\$2,200,741

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: The National Family Self-Sufficiency (FSS) Demonstration.

OMB Approval Number: N/A.

Type of Request (i.e. new, revision or extension of currently approved collection): New collection.

Form Number: N/A.

Description of the need for the information and proposed use: In 2012, HUD commissioned the national Family Self-Sufficiency (FSS) Study. MDRC

was selected to lead this evaluation. As part of the longer-term follow-up, which HUD authorized in 2018—and extends through 2021, MDRC will conduct a long-term follow-up survey with a sample of individuals who enrolled in the study and were randomly assigned to a program group (offered the opportunity to enroll in FSS and receive services) or a control group. The survey will allow us to understand the FSS program’s long-term effects on indicators of economic self-sufficiency (employment and income, for example) and well-being (health, financial, material, housing, for example). The survey will also provide an opportunity to understand the program participation experiences of FSS participants in the study who continue to be enrolled in FSS and those who exited for a variety of reasons, including graduation from FSS. No other comprehensive data source exists to provide the type of information that will be collected by this follow-up survey.

Respondents: Participants enrolled in the HUD Family Self-Sufficiency Evaluation.

Estimated Number of Respondents: The survey will be fielded to 1,300 sample members, one half coming from the program group and the other half from the control group. We expect between 60 to 70 percent of the respondents will complete the survey.

Estimated Time per Response: 15-minute survey interview.

Frequency of Response: 1 interview.

Estimated Total Annual Burden Hours: 325 hours.¹

Estimated Total Annual Cost: \$3,276.

Respondent’s Obligation: Voluntary.

Legal Authority: The survey is conducted under Title 12, United States Code, Section 1701z and Section 3507 of the Paperwork Reduction Act of 1995, 44, U.S.C., 35, as amended.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Cost
Total	1,300	1	1	0.25	325	² \$10.08	³ \$3,276

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of

information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the

proper performance of the functions of the agency, including whether the information will have practical utility;

¹ The estimated total annual burden hours estimate if all 1,300 study participants respond to the survey is 325. However, we expect that between 60 to 70 percent of the respondents will complete the survey. In that case, the actual total annual burden hours would be between 195 to 228 hours.

² To compute the hourly cost per response, MDRC used the average state minimum wage of the 18 study sites, as of July 1, 2020. In cases where the

site’s county had a higher minimum wage than the site’s state, the county minimum wage was used for the calculations. Across the 18 sites in 7 states (California, Florida, Maryland, Missouri, New Jersey, Ohio, and Texas), the minimum wages ranged from \$7.25 to \$15 per hour.

³ To compute the total estimated annual cost, the total estimated annual burden hours were multiplied by the hourly cost per response. The

calculation assumes 325 total annual burden hours if all 1,300 study participants respond to the survey. However, we expect that between 60 to 70 percent of the respondents will complete the survey. In that case, the actual total annual burden hours may be between 195 and 228 hours, and the actual total annual cost would be between \$1,965.60 and \$2,298.24.
