

11.280 with the proposed standardized process for resuming trading in all securities following a Level 3 halt will promote fair and orderly markets, and protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that the proposed Level 3 rule change described above would standardize the opening process for all securities on the Exchange, which would make the opening process the day after a Level 3 halt more uniform and reduce complexity. Further, the Exchange understands that FINRA and other national securities exchanges will file similar proposals to adopt the proposed Level 3 rule change.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.¹²

A proposed rule change filed under Rule 19b-4(f)(6)¹³ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b4(f)(6)(iii),¹⁴ the Commission

may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. The Commission notes that it approved a substantively similar proposed rule change submitted by The Nasdaq Stock Market LLC.¹⁵ Waiver of the operative delay will ensure consistency across the market centers and the timely implementation of the proposed rule change. Accordingly, the Commission waives the 30-day operative delay and designates the proposed rule change operative upon filing.¹⁶

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B)¹⁷ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SUMMARY: In prior notices, the U.S. Trade Representative has modified the action in the Section 301 investigation of China's acts, policies, and practices related to technology transfer, intellectual property, and innovation by removing additional duties from medical-care products needed to address the COVID-19 outbreak. In light of ongoing developments, the Office of the U.S. Trade Representative (USTR) is requesting public comments on possible further modifications to remove duties from additional medical-care products.

DATES: The docket for comments will remain open at least until June 25, 2020, and may be extended as appropriate. To facilitate timely consideration of possible modifications, interested parties should submit comments as promptly as possible. To be assured of consideration, any responses to comments should be submitted within three business days after a comment is posted in the docket.

SUPPLEMENTARY INFORMATION:

A. Background

At the direction of the President, the U.S. Trade Representative has imposed duties on products of China in order to obtain the elimination of the unfair and damaging acts, policies, and practices identified in this investigation. The duties have been imposed in four tranches. See 83 FR 28719 (June 20, 2018), 83 FR 40823 (August 16, 2018), 83 FR 47974 (September 21, 2018), as modified by 83 FR 49153 (September 28, 2018), and 84 FR 43304 (August 20, 2019), as modified by 84 FR 69447 and 85 FR 3741.

For each tranche, the U.S. Trade Representative established a process by which U.S. stakeholders could request exclusion of particular products classified within an eight-digit Harmonized Tariff Schedule of the United States (HTSUS) subheading covered by the action. See 83 FR 32181 (July 11, 2018), 83 FR 47236 (September 18, 2018), 84 FR 29576 (June 24, 2019), and 84 FR 57144 (October 24, 2019). The exclusion processes for tranches 3

and 4 are still in process, and are not affected by this notice.

Throughout the exclusion process, USTR assessed medical necessity in granting exclusions, consistent with its published criteria. In addition, the U.S. Trade Representative, in consultation with the Department of Health and Human Services (HHS), prioritized the review of exclusion requests addressed to medical-care products related to the U.S. response to COVID-19, and granted approximately 200 separate exclusions on March 5, 2020. See 85 FR 13970 (March 10, 2020), 85 FR 15015 (March 16, 2020), and 85 FR 15244 (March 17, 2020). The exclusions covered personal protective equipment products and other medical-care related products.

B. Request for Public Comments

In order to reflect developments in the efforts to respond to the COVID-19 outbreak, USTR is requesting public comments on possible further modifications to remove duties from additional medical-care products. USTR invites comments from interested persons with respect to whether a particular product covered by the action in this investigation is needed to respond to the COVID-19 outbreak. The docket for comments will remain open at least until June 25, 2020, and may be extended as appropriate. To facilitate timely consideration of possible modifications, interested persons should submit comments as promptly as possible. Interested persons may also submit responses to comments. To be assured of consideration, any responses to comments should be submitted within three business days after a comment is posted in the docket. USTR will review comments on a rolling basis.

Each comment specifically must identify the particular product of concern and explain precisely how the product relates to the response to the COVID-19 outbreak. For example, the comment may address whether a product is directly used to treat COVID-19 or to limit the outbreak, and/or whether the product is used in the production of needed medical-care products.

Comments may be submitted regarding any product covered by the action in the investigation, regardless of whether the product is subject to a pending or denied exclusion request.

In order to facilitate timely consideration of possible modifications, commenters should define the product of concern as precisely as possible. All comments must include the following information, to the extent possible: The ten-digit subheading of the HTSUS applicable to the product, and the

identity of the particular product in terms of its functionality and physical characteristics (e.g., dimensions, material composition, or other characteristics). Commenters may provide information concerning the producer, importer, ultimate consumer, or trademarks or tradenames, but this is less helpful.
