Title: Single Family Housing Guaranteed Loan Program.

OMB Number: 0575-0179.

Expiration Date of Approval: December 31, 2020.

Type of Request: Revision of a Previously Approved Information Collection.

Abstract: Under this program, loan guarantees are provided to participating lenders who make loans to income eligible borrowers in rural areas. The purpose of this program is to promote affordable housing for low- and moderate-income borrowers in rural America.

The revision resulted from an estimated increase of 1,714,757 responses and 681,089 burden hours since the last submission. Any change in hours is a result of increased program level funding and demand by the public. Also considered is a change in the average loan amount, additional lenders participating in the program, due to a change in the program funding level and a keener interest by industry partners. Backlogs in some States caused delays in processing lender requests that resulted in various turn-around times from state to state. Integration of the SFHGLP into the National model was necessary to provide lenders improved customer service, consistent turn times and policy interpretation.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 49 minutes per response.

Respondents: Private sector lenders participating in the Rural Development Single Family Housing Guaranteed Loan Program.

Estimated Number of Respondents: 2,520.

Estimated Number of Responses per Respondent: 737.

Estimated Number of Responses: 1,766,094.

Estimated Total Annual Burden on Respondents: 1,361,748.

Copies of this information collection can be obtained from Arlette Mussington, Innovation Center—Regulations Management Division, at (202) 720-2825. Email: arlette.mussington@usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Bruce W. Lammers,
Administrator, Rural Housing Service.

Certain Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof From the People's Republic of China: Postponement of Preliminary Determination in the Countervailing Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable March 26, 2020.

FOR FURTHER INFORMATION CONTACT: Andrew Huston, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4261.

SUPPLEMENTARY INFORMATION:

Background

On February 4, 2020, the Department of Commerce (Commerce) initiated the countervailing duty (CVD) investigation of certain vertical shaft engines between 225cc and 999cc, and parts thereof from the People's Republic of China.¹ Currently, the preliminary determination is due no later than April 9, 2020.

Postponement of the Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in a CVD investigation within 65 days after the date on which Commerce initiated the investigation. However, section 703(c)(1)(A) of the Act permits Commerce to postpone the preliminary determination until no later than 130 days after the date on which Commerce initiated the investigation if a petitioner makes a timely request for a postponement. Under 19 CFR 351.205(e), a petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reason for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.²

On March 13, 2020, the Coalition of American Vertical Engine Producers and its individual members, the

¹ See *Certain Vertical Shaft Engines Between 225cc and 999cc, and Parts Thereof from the People's Republic of China: Initiation of Countervailing Duty Investigation*, 85 FR 8835 (February 18, 2020).

² See 19 CFR 351.205(e).

petitioner in this investigation, submitted a timely request pursuant to section 703(c)(1)(A) of the Act and 19 CFR 351.205(e) to postpone fully the preliminary determination. The petitioner stated that the purpose of its request was to provide Commerce with sufficient time to receive and analyze the questionnaire responses of the mandatory respondents.³

In accordance with 19 CFR 351.205(e), the reason for requesting a postponement of the preliminary determination and the record does not present any compelling reasons to deny the request. Therefore, in accordance with section 703(c)(1)(A) of the Act, Commerce is postponing the deadline for the preliminary determination to June 15, 2020.⁴ Pursuant to section 705(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: March 20, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

Forged Steel Fluid End Blocks From the Federal Republic of Germany, India and Italy: Postponement of Preliminary Determinations in the Less-Than-Fair-Value Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable March 26, 2020.

FOR FURTHER INFORMATION CONTACT: Katherine Johnson at (202) 482-4929 (Federal Republic of Germany (Germany)), Michael Romani at (202) 482-0198 (India), or Dmitry Vladimirov

³ See Petitioner's Letter, "Certain Vertical Shaft Engines Between 225cc and 999cc from the People's Republic of China: Request to Postpone Preliminary Determination," dated March 13, 2020.

⁴ In this case, 130 days after initiation falls on June 13, 2020, a Saturday. Where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

at (202) 482-0665 (Italy), AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On January 8, 2020, the Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of imports of forged steel fluid end blocks (fluid end blocks) from Germany, India, and Italy.¹ The deadline for the preliminary determinations is May 27, 2020.

Postponement of Preliminary Determinations

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in a LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) The petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On March 5, 2020, the petitioners² submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.³ The petitioners stated that they request postponement due to the complexity of the investigations and the amount of time that Commerce will need to conduct a complete and thorough analysis, including the issuance of supplemental questionnaires.⁴ The petitioners request

that Commerce fully extend the preliminary determinations by 50 days.

For the reasons stated above and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determinations by 50 days (*i.e.*, 190 days after the date on which these investigations were initiated). As a result, Commerce will issue its preliminary determinations no later than July 16, 2020. In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations in these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: March 19, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No.: 200313-0079]

National Cybersecurity Center of Excellence (NCCoE) Validating the Integrity of Computing Devices Building Block

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) invites organizations to provide products and technical expertise to support and demonstrate security platforms for the Validating the Integrity of Computing Devices project. This notice is the initial step for the National Cybersecurity Center of Excellence (NCCoE) in collaborating with technology companies to address cybersecurity challenges identified under the Validating the Integrity of Computing Devices project. Participation in the building block is open to all interested organizations.

DATES: Collaborative activities will commence as soon as enough completed and signed letters of interest have been returned to address all the necessary components and capabilities, but no earlier than April 27, 2020.

ADDRESSES: The NCCoE is located at 9700 Great Seneca Highway, Rockville, MD 20850. Letters of interest must be submitted to supplychain-nccoe@nist.gov or via hardcopy to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Organizations whose letters of interest are accepted in accordance with the process set forth in the **SUPPLEMENTARY INFORMATION** section of this notice will be asked to sign a consortium Cooperative Research and Development Agreement (CRADA) with NIST. An NCCoE consortium CRADA template can be found at: <https://nccoe.nist.gov/node/138>.

FOR FURTHER INFORMATION CONTACT:

Nakia Grayson via email to supplychain-nccoe@nist.gov; by telephone 301-975-0200 or by mail to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Additional details about the Validating the Integrity of Computing Devices project are available at <https://www.nccoe.nist.gov/projects/building-blocks/supply-chain-assurance>.

SUPPLEMENTARY INFORMATION: Interested parties must contact NIST to request a letter of interest template to be completed and submitted to NIST. Letters of interest will be accepted on a first come, first served basis. When the building block has been completed, NIST will post a notice on the NCCoE Validating the Integrity of Computing Devices website at <https://www.nccoe.nist.gov/projects/building-blocks/supply-chain-assurance> announcing the completion of the building block and informing the public that it will no longer accept letters of interest for this building block.

Background: The NCCoE, part of NIST, is a public-private collaboration for accelerating the widespread adoption of integrated cybersecurity tools and technologies. The NCCoE brings together experts from industry, government, and academia under one roof to develop practical, interoperable cybersecurity approaches that address the real-world needs of complex Information Technology (IT) systems. By accelerating dissemination and use of these integrated tools and technologies for protecting IT assets, the NCCoE will enhance trust in U.S. IT communications, data, and storage systems; reduce risk for companies and individuals using IT systems; and encourage development of innovative, job-creating cybersecurity products and services.

Process: NIST is soliciting responses from all sources of relevant security
