SUPPLEMENTARY INFORMATION:

Background

The Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The ESA and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA

authorizes the permittee to conduct activities with endangered species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. Our regulations implementing section

10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

SUPPLEMENTARY INFORMATION: On June 10, 2019, BIE published a proposed rule to govern how the Secretary will establish requirements for standards, assessments, and accountability system for BIE-funded schools consistent with Section 1111 of the Elementary and

Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act (ESSA), on a national, regional, or Tribal basis, as appropriate, taking into account the unique circumstances and needs of such schools and the students served by such schools. The Agency Plan is a Consolidated State Plan aligned to the U.S. Department of Education Consolidated State Plan Template.

BIE’s Agency Plan is intended to provide details on how the BIE should implement the requirements for standards, assessments, and accountability system for BIE-funded schools. As such, during consultation BIE seeks input from Indian Tribes, school boards, parents, Indian organizations, and other interested parties regarding best practices for school improvement and support to lowest performing schools as well as the overall vision for improving outcomes for BIE-funded school students as defined in 25 CFR part 30. BIE also seeks input regarding those parts of the draft BIE Agency Plan that have not been established as requirements through the final rule.

Further, BIE would appreciate input regarding long-term goals and annual meaningful differentiation and identification of schools (comprehensive support and improvement activities and targeted support and improvement activities), and any other suggestions that would improve BIE’s delivery of high-quality educational services and supports to students at BIE funded schools.
