

amending its regulations that pertain to the designation, protection, and sharing of CEII. The Final Rule became effective on February 19, 2017.

The FERC-603, Critical Energy/Electric Infrastructure Information (CEII) request form is largely unchanged from the previously approved version. As in the previous version, a person seeking access to CEII must file a request for that information by providing information

about their identity and the reason the individual needs the information. With that information, the Commission is able to assess the requester's need for the information against the sensitivity of the information. The updated form has been changed to include one additional requirement, a signed statement from the requester attesting to the accuracy of the information provided in the request. This requirement was inadvertently

omitted from the previous form. See 18 CFR 388.113(g)(5)(i)(D). A sample updated CEII request form is attached to this notice.

Type of Respondents: Persons seeking access to CEII.
