

DEPARTMENT OF ENERGY**Southeastern Power Administration****Proposed Rate Adjustment
Cumberland System of Projects**

AGENCY: Southeastern Power Administration, DOE.

ACTION: Notice of proposed rates, public forum, and opportunities for public review and comment.

SUMMARY: Southeastern Power Administration (Southeastern) proposes to revise existing schedules of rates and charges applicable to the sale of power from the Cumberland System of Projects effective October 1, 2020, through September 30, 2025. Interested persons may review the rates and supporting studies and submit written comments. Southeastern will consider all comments received in this process.

DATES: Written comments are due on or before June 29, 2020. A public information and comment forum will be held at the Southeastern Power Administration, 1166 Athens Tech Road, Elberton, GA, and also by webinar, on May 12, 2020, at 3:00 p.m. Persons desiring to attend the forum in person should notify Southeastern on or before April 29, 2020. Persons desiring to speak at the forum should notify Southeastern at least seven (7) days before the scheduled forum date, so a list of forum participants can be prepared. Notifications should be submitted by Email to comments@sepa.doe.gov. Others participating in the forum may speak if time permits. Unless Southeastern has been notified on or before April 29, 2020, that at least one person intends to participate in the forum in person, the forum will be held by webinar only.

ADDRESSES: The Tuesday, May 12, 2020, Webinar URL information is as follows: <https://usdeptofenergysepa.globalmeet.com/SEPA>. Call in information: +1 (800) 216-0770, Access Code: 509632. Written comments should be submitted to: Administrator, Southeastern Power Administration, U.S. Department of Energy, 1166 Athens Tech Road, Elberton, GA 30635-6711; Email: Comments@sepa.doe.gov.

FOR FURTHER INFORMATION CONTACT: Virgil G. Hobbs III, Assistant Administrator, Finance and Marketing, Southeastern Power Administration, U.S. Department of Energy, 1166 Athens Tech Road, Elberton, GA 30635-6711, (706) 213-3838; Email: virgil.hobbs@sepa.doe.gov.

SUPPLEMENTARY INFORMATION:

Background of Existing Rates: The existing schedules of rates and charges

applicable to the sale of power from the Cumberland System of Projects are effective through September 30, 2020. On May 6, 2016, the Federal Energy Regulatory Commission (FERC) confirmed and approved, on a final basis, Wholesale Power Rate Schedules CBR-1-I, CSI-1-I, CEK-1-I, CM-1-I, CC-1-J, CK-1-I, CTV-1-I, CTVI-1-B, and Replacement-3 applicable to Cumberland System of Projects power for a period ending September 30, 2020 (155 FERC ¶ 62,092).

Repayment Study: Existing rate schedules are based upon a January 2015 repayment study and other supporting data contained in FERC docket number EF15-12-000. The annual revenue requirement in this study was \$63,500,000. An updated repayment study, dated February 2020, indicates rates are not adequate to recover cost increases identified and therefore do not meet repayment criteria. The additional costs are due to U.S. Army Corps of Engineers (Corps) Operation & Maintenance expense increases. The revised repayment study demonstrates an annual revenue requirement increase to \$66,150,000 per year will meet repayment criteria. The increase in the annual revenue requirement is \$2,650,000 per year, or about four percent.

Proposed Rates: The rate schedules recover cost from capacity, energy, and additional energy. The revenue requirement is \$66,150,000 per year. The rates would be as follows:

Cumberland System Rates*Original Marketing Policy*

Inside TVA Preference Customers
Capacity and Base Energy: \$3.430 per kW/Month

Additional Energy: 12.835 mills per kWh

Transmission: Pass-through

Outside TVA Preference Customers
(Excluding Customers Served Through Duke Energy Progress or East Kentucky Power Cooperative)

Capacity and Base Energy: \$3.430 per kW/Month

Additional Energy: 12.835 mills per kWh

Transmission: Monthly TVA
Transmission Charge divided by 545,000

Customers Served Through Duke Energy Progress

Capacity and Base Energy: \$3.904 per kW/Month

TVA Transmission: TVA rate at border as computed above, adjusted for DEP delivery

East Kentucky Power Cooperative
Capacity: \$1.826 per kW/Month
Energy: 12.835 mills per kWh
Transmission: Monthly TVA
Transmission Charge divided by 545,000

True-up Adjustment: The proposed rate schedules would continue adjustments annually on April 1 of each year, based on transfers of specific power investment to plant-in-service for the preceding Fiscal Year, to the base demand charge and base additional energy charge. The annual adjustment will be, for each increase of \$1,000,000 to specific power plant-in-service, an increase of \$0.003 per kilowatt per month added to the base capacity rate and an increase of 0.013 mills per kilowatt-hour added to the base additional energy rate. Southeastern will give written notice to the customers of the amount of the true-up by February 1 of each year.

The referenced repayment studies are available for examination at 1166 Athens Tech Road, Elberton, Georgia 30635-6711. The Proposed Rate Schedules CBR-1-J, CSI-1-J, CEK-1-J, CM-1-J, CC-1-K, CK-1-J, CTV-1-J, CTVI-1-C, and Replacement-3 are also available.

Dated: March 20, 2020.

Virgil G. Hobbs III,

Acting Administrator.

**ENVIRONMENTAL PROTECTION
AGENCY**

[EPA-HQ-OECA-2013-0302; FRL-10007-35-OMS]

**Information Collection Request
Submitted to OMB for Review and
Approval; Comment Request; NSPS
for the Graphic Arts Industry (Renewal)**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for the Graphic Arts Industry (EPA ICR Number 0657.13, OMB Control Number 2060-0105), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2020. Public comments were previously requested via the **Federal Register** on May 6, 2019

during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to a collection of information, unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before April 29, 2020.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0302, to: (1) EPA online using www.regulations.gov (our preferred method), by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–2970; fax number: (202) 564–0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for (40 CFR part 60, subpart QQ) for the Graphic Arts Industry were proposed on October 28, 1980; promulgated on November 8, 1982; and most-recently amended on April 9, 2004. These regulations apply to each publication rotogravure printing press (not including proof presses) commencing construction, modification or

reconstruction after the date of proposal. Owners and operators of graphic arts facilities operating publication rotogravure printing presses are required to comply with monitoring, reporting, and record keeping requirements for the general provisions of 40 CFR part 60, subpart A, as well as for the applicable specific standards for publication rotogravure printing presses at 40 CFR part 60, subpart QQ. The requirements under Subpart A include submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. The information collection activities required under Subpart QQ include testing, monitoring and reporting requirements, submitting one-time and periodic reports, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities: Owners or operators of graphic arts facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart QQ).

Estimated number of respondents: 22 (total).

Frequency of response: Initially, occasionally, and semiannually.

Total estimated burden: 2,060 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$238,000 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an increase in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. The increase in burden from the most recently approved ICR is due to an increase in the number of respondents subject to the rule from 21 in the previous ICR to 22 in this ICR, which in turn increased labor hours. One revision was made to the calculation of respondent burden. The labor burden for facilities to familiarize with regulation requirements was revised from 1 hour per source per year to 3 hours per source per year. This change was made in response to industry comments that facilities may require outside technical consultation

and require more than 1 hour to familiarize and re-familiarize with the rule. No other changes were made to the burden estimates as the regulations have not changed over the past three years and are not anticipated to change over the next three years.

Courtney Kerwin,

Director, Regulatory Support Division.
