

investors and the general public to have the options market available to enter new positions, or close open positions.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Amending the definition of "market for the underlying security" within Options 3, Section 8(a)(2) does not burden competition. The Exchange's proposal offers alternative paths to open the Exchange in the event that the primary market or even a designated alternate primary market experiences an issue. The Exchange's proposal is intended to create additional certainty that in the event of an issue with the primary market, the Exchange would have other equity markets to look to with respect to underlying prices on which to open the Exchange. This proposal also does not impact the ability of other options markets to open.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were either solicited or received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>7</sup> and Rule 19b-4(f)(6) thereunder.<sup>8</sup>

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act<sup>9</sup> normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)<sup>10</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the

public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the Exchange may amend its rules to permit the Exchange to utilize additional venues to open its market if the primary market and any designated alternate market for the underlying security are experiencing an issue and unable to open, thereby allowing investors to transact on its market in such a situation. The Exchange believes that having its options market available to enter new positions or close open positions would benefit investors and the general public. For these reasons, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal as operative upon filing.<sup>11</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### *Electronic Comments*

The U.S. Trade Representative will continue to issue decisions on pending requests on a periodic basis.

**SUPPLEMENTARY INFORMATION:**

**A. Background**

For background on the proceedings in this investigation, please see prior notices including 82 FR 40213 (August 24, 2017), 83 FR 14906 (April 6, 2018), 83 FR 28710 (June 20, 2018), 83 FR 33608 (July 17, 2018), 83 FR 38760 (August 7, 2018), 83 FR 40823 (August 16, 2018), 83 FR 47974 (September 21, 2018), 83 FR 49153 (September 28, 2018), 84 FR 20459 (May 9, 2019), 84 FR 43304 (August 20, 2019), 84 FR 45821 (August 30, 2019), 84 FR 57144 (October 24, 2019), 84 FR 69447 (December 18, 2019), 85 FR 3741 (January 22, 2020), 85 FR 13970 (March 10, 2020), and 85 FR 15244 (March 17, 2020).

In the August 20 notice (84 FR 43304), the U.S. Trade Representative, at the direction of the President, announced a determination to modify the action being taken in the Section 301

investigation by imposing an additional 10 percent *ad valorem* duty on products of China with an annual aggregate trade value of approximately \$300 billion. The August 20 notice contains two separate lists of tariff subheadings, with two different effective dates. List 1, which is set out in Annex A of the August 20 notice, was effective September 1, 2019. List 2, which is set out in Annex C of the August 20 notice, was scheduled to take effect on December 15, 2019.

On August 30, 2019 (84 FR 45821), the U.S. Trade Representative, at the direction of the President, determined to modify the action being taken in the investigation by increasing the rate of additional duty from 10 to 15 percent *ad valorem* on the goods of China specified in Annex A (List 1) and Annex C (List 2) of the August 20 notice. On October 24, 2019 (October 24 notice), the U.S. Trade Representative established a process by which U.S. stakeholders could request exclusion of particular products classified within an 8-digit Harmonized Tariff Schedule of the United States (HTSUS) subheading covered by List 1 of the August 20 notice from the additional duties. See 84 FR 57144. Subsequently, the U.S. Trade Representative announced a determination to suspend until further notice the additional duties on products set out in Annex C (List 2) of the August 20 notice. See 84 FR 69447 (December 18, 2019). The U.S. Trade Representative later determined to further modify the action being taken by reducing the additional duties for the products covered in Annex A of the August 20 notice (List 1) from 15 percent to 7.5 percent. See 85 FR 3741 (January 22, 2020).

Under the October 24 notice, requests for exclusion had to identify the product subject to the request in terms of the physical characteristics that distinguish the product from other products within the relevant 8-digit subheading covered by the August 20 notice. Requestors also had to provide the 10-digit subheading of the HTSUS most applicable to the particular product requested for exclusion, and could submit information on the ability of U.S. Customs and Border Protection to administer the requested exclusion. Requestors were asked to provide the quantity and value of the Chinese-origin product that the requestor purchased in the last three years, among other information. With regard to the rationale for the requested exclusion, requests had to address the following factors:

- Whether the particular product is available only from China and specifically whether the particular

product and/or a comparable product is available from sources in the United States and/or third countries.

- Whether the imposition of additional duties on the particular product would cause severe economic harm to the requestor or other U.S. interests.

- Whether the particular product is strategically important or related to "Made in China 2025" or other Chinese industrial programs.

The October 24 notice stated that the U.S. Trade Representative would take into account whether an exclusion would undermine the objective of the Section 301 investigation.

The October 24 notice required submission of requests for exclusion from List 1 of the August 20 notice no later than January 31, 2020, and noted that the U.S. Trade Representative periodically would announce decisions. In March 2020, the U.S. Trade Representative announced two sets of exclusions. See 85 FR 13970 and 85 FR 15244. The Office of the United States Trade Representative regularly updates the status of each pending request on the Exclusions Portal at <https://exclusions.ustr.gov/s/docket?docketNumber=USTR-2019-0017>.

**B. Determination To Grant Certain Exclusions**

Based on evaluation of the factors set out in the October 24 notice, which are summarized above, pursuant to sections 301(b), 301(c), and 307(a) of the Trade Act of 1974, as amended, and in accordance with the advice of the interagency Section 301 Committee, the U.S. Trade Representative has determined to grant the product exclusions set out in the Annex to this notice. The U.S. Trade Representative's determination also takes into account advice from advisory committees and any public comments on the pertinent exclusion requests.

As set out in the Annex, the exclusions are reflected in five 10-digit HTSUS subheadings and 7 specially prepared product descriptions, which together cover 36 separate exclusion requests.

In accordance with the October 24 notice, the exclusions are available for any product that meets the description in the Annex, regardless of whether the importer filed an exclusion request. Further, the scope of each exclusion is governed by the scope of the 10-digit HTSUS subheading as described in the Annex, and not by the product descriptions set out in any particular request for exclusion.

Paragraph A, subparagraphs (3)–(4) of the Annex contain conforming amendments to the HTSUS reflecting the modifications made by the Annex.

As stated in the October 24 notice, the exclusions will apply from September 1, 2019, the effective date of List 1 of the August 20 notice, and will extend for one year to September 1, 2020. U.S. Customs and Border Protection will issue instructions on entry guidance and implementation.

The U.S. Trade Representative will continue to issue determinations on pending requests on a periodic basis.
