

(Respondents), alleging that the Respondents' Revised Self-Supply BP imposes unjust, unreasonable, unduly discriminatory and preferential terms and conditions on Bonneville's self-supply of Operating Reserves, as more fully explained in the complaint.

The Complainants certifies that copies of the complaint were served on the contacts for the Respondents as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondents' answer and all interventions, or protests must be filed on or before the comment date. The Respondents' answer, motions to intervene, and protests must be served on the Complainants'.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

In addition to publishing the full text of this document in the **Federal Register**, The Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link. [Docket No. CP15-8-000]

Northwest Pipeline LLC; Notice of Extension of Time Request

Take notice that on March 12, 2020, Northwest Pipeline LLC (Northwest) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until April 11, 2022, to construct and place into service the facilities for its Kalama Lateral Project authorized on April 11, 2016. The Kalama Lateral Project would enable Northwest to provide service to the proposed methanol facility of Northwest Innovation Works Kalama LLC (NWIW).

Northwest was initially required to construct the facilities and place them into service by April 11, 2018. On April 11, 2018, the Office of Energy Projects, by delegated order, extended the deadline through April 11, 2019. On April 10, 2019 the Office of Energy Projects, by delegated order, extended the deadline through April 11, 2020. Northwest now requests a two-year extension of this deadline through April 11, 2022. Northwest states that the basis for the previous extensions of time, as well as this one, are based upon permitting issues encountered by the NWIW methanol plant.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on the extension motion may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and

Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). However, only motions to intervene from entities that were party to the underlying proceeding will be accepted.

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,¹ the Commission acting as a whole will aim to issue an order acting on the request within 45 days.² The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension. The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.³ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance. The OEP Director, or his or her designee, will act on all of those extension requests that are uncontested.

The extension request is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and three copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

¹ Contested proceedings are those where an intervenor disputes any material issue of the filing. 18 CFR 385.2201(c)(1) (2019).

² *Algonquin Gas Transmission, LLC*, 170 FERC ¶ 61,144, at P 40 (2020).

³ Similarly, the Commission will not re-litigate the issuance of an NGA section 3 authorization, including whether a proposed project is not inconsistent with the public interest and whether the Commission's environmental analysis for the permit order complied with NEPA.

Comment Date: 5:00 p.m. Eastern Time on April 1, 2020.

Dated: March 17, 2020.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2017-0127; FRL-10006-34]

Inventory of Mercury Supply, Use, and Trade in the United States 2020 Report; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is announcing the availability of the 2020 mercury inventory report, which summarizes information on U.S. mercury supply, use, and trade required to be reported by rule directly from mercury manufacturers, importers, and processors. EPA was directed by Congress in the Frank R. Lautenberg Chemical Safety for the 21st Century Act (Lautenberg Act), which amended the Toxic Substances Control Act (TSCA), to carry out and publish in the **Federal Register** not later than April 1, 2017 and every three years thereafter, an inventory of mercury supply, use, and trade in the United States. The Lautenberg Act defines "mercury" as "elemental mercury" or "a mercury compound."

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

This action applies to the public in general and may be of interest to a wide range of stakeholders including members of the public interested in elemental mercury or mercury compounds generally. Other topics of interest include the supply, use, or trade of elemental mercury or mercury compounds, including mercury-added products and manufacturing processes. As such, the Agency has not attempted to describe all the specific entities that may be interested in this action.

¹ On March 19, 2020, the Commission issued a notice extending due dates for certain non-statutory items until May 1, 2020. *Notice Granting Extension of Time*, Docket No. AD20-11-000 (Mar. 19, 2020). However, we request that interested parties submit any comments on the technical conference held in this proceeding by April 27, 2020.
