Bureau of Industry and Security

Proposed Information Collection; Comment Request; Five-Year Records Retention Requirement for Export Transactions and Boycott Actions

AGENCY: Bureau of Industry and Security, Department of Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: To ensure consideration, written comments must be submitted on or before June 5, 2020.

ADDRESSES: Direct all written comments to Mark Grace, IC Liaison, Bureau of

Industry and Security, 1401 Constitution Avenue, Suite 2099B, Washington, DC 20233 (or via the internet at PRAComments@doc.gov). All comments received are part of the public record. Comments will generally be posted without change. All Personally Identifiable Information (for example, name and address) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information. You may submit attachments to electronic comments in Microsoft Word, Excel, or Adobe PDF file formats.

SUPPLEMENTARY INFORMATION:

I. Abstract

This collection is necessary under Sections 760 and 762.6(a) of the Export Administration Regulations (EAR). The five-year retention requirement corresponds with the statute of limitations for violations and is necessary to preserve potential evidence for investigations. All parties involved in the export, reexport, transshipment or diversion of items subject to the EAR and the U.S. party involved in the export transaction involving a reportable boycott request are required to maintain records of these activities for a period of five years. The frequency depends upon how often each entity is involved in an export transaction or one involving a reportable boycott request.

II. Method of Collection

Submitted on paper or electronically.

III. Data

OMB Control Number: 0694-0096.

Form Number(s): N/A.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 100,000.

Estimated Time per Response: 1 second to 1 minute.

Estimated Total Annual Burden Hours: 258.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: Export Control Reform Act 4812(b) and 4814(b)(1)(B).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the

proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 23, 2020.

Small Diameter Graphite Electrodes From the People's Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on small diameter graphite electrodes (SDGEs) from the People's Republic of China (China) would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the AD order.

DATES: Applicable April 6, 2020.

FOR FURTHER INFORMATION: Jinny Ahn, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-0339.

SUPPLEMENTARY INFORMATION:

Background

On May 1, 2019, Commerce initiated a five-year sunset review of the AD order on SDGEs from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).¹ As a result of its

¹ See *Initiation of Five-Year (Sunset) Review*, 84 FR 18477 (May 1, 2019).

review, Commerce determined that revocation of the AD order on SDGEs from China would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the order be revoked.² On March 27, 2020, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the AD order on SDGEs from China would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

Scope of the Order

The merchandise covered by the order includes all small diameter graphite electrodes of any length, whether or not finished, of a kind used in furnaces, with a nominal or actual diameter of 400 millimeters (16 inches) or less, and whether or not attached to a graphite pin joining system or any other type of joining system or hardware. The merchandise covered by the order also includes graphite pin joining systems for small diameter graphite electrodes, of any length, whether or not finished, of a kind used in furnaces, and whether or not the graphite pin joining system is attached to, sold with, or sold separately from, the small diameter graphite electrodes. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes are most commonly used in primary melting, ladle metallurgy, and specialty furnace applications in industries including foundries, smelters, and steel refining operations. Small diameter graphite electrodes and graphite pin joining systems for small diameter graphite electrodes that are subject to the order are currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) subheadings 8545.11.0010,⁴ 3801.10,⁵

² See *Small Diameter Graphite Electrodes From the People's Republic of China: Final Results of Expedited Second Sunset Review of the Antidumping Duty Order*, 84 FR 44852 (August 27, 2019).

³ See *Small Diameter Graphite Electrodes from China: Determination*, 85 FR 17363 (March 27, 2020); see also *Small Diameter Graphite Electrodes from China: Investigation No. 731-TA-1143 (Second Review)*, USITC Publication 5035 (March 2020).

⁴ The scope described in the order refers to the HTSUS subheading 8545.11.0000. We note that, starting in 2010, imports of small diameter graphite electrodes are classified in the HTSUS under subheading 8545.11.0010 and imports of large diameter graphite electrodes are classified under subheading 8545.11.0020.

⁵ HTSUS subheading 3801.10 was added to the scope of the graphite electrodes order based on a determination in *Small Diameter Graphite Electrodes from the People's Republic of China: Affirmative Final Determination of Circumvention*

and 8545.11.0020.⁶ The HTSUS numbers are provided for convenience and customs purposes, but the written description of the scope is dispositive.

Continuation of the Order

As a result of the determinations by Commerce and the ITC that revocation of the AD order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, Commerce hereby orders the continuation of the AD order on SDGEs from China. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, Commerce intends to initiate the next five-year review of the order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Notification to Interested Parties

This five-year sunset review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: March 31, 2020.

Jeffrey I. Kessler,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

of the Antidumping Duty Order, 77 FR 47596 (August 9, 2012) (first circumvention determination). The products covered by the first circumvention determination are graphite electrodes (or graphite pin joining systems) that were 1) produced by UK Carbon and Graphite Co., Ltd. (UKCG) from China-manufactured artificial/synthetic graphite forms, of a size and shape (e.g., blanks, rods, cylinders, billets, blocks, etc.), 2) which required additional machining processes (i.e., tooling and shaping) that UKCG performed in the United Kingdom (UK), and 3) were re-exported to the United States as UK-origin merchandise.

⁶ HTSUS subheading 8545.11.0020 was added to the scope of the graphite electrodes order based on a determination in *Small Diameter Graphite Electrodes from the People's Republic of China: Affirmative Final Determination of Circumvention of the Antidumping Duty Order and Rescission of Later-Developed Merchandise Anticircumvention Inquiry*, 78 FR 56864 (September 16, 2013) (second circumvention determination). The products covered by the second circumvention determination are graphite electrodes produced and/or exported by Jilin Carbon Import and Export Company with an actual or nominal diameter of 17 inches.
