BILLING CODE 6325-39-P

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Parts 51 and 52

[Doc. No. AMS-LRRS-19-0099; SC-19-331]

Subpart Nomenclature Change; Technical Amendment

AGENCY: Agricultural Marketing Service,
USDA.

ACTION: Final rule; technical
amendment.

SUMMARY: This document makes
nomenclature changes to subpart
headings in the Agricultural Marketing
Service's regulations to bring the
language into conformance with the
Office of the Federal Register (OFR)
requirements.

DATES: Effective May 7, 2020.

ADDRESSES: Specialty Crops Inspection
Division, Specialty Crops Program,
AMS, USDA, 1400 Independence
Avenue SW, Stop 0240, Washington, DC
20250-0240.

FOR FURTHER INFORMATION CONTACT:
Contact Brian E. Griffin, Specialty Crops
Inspection Division, Specialty Crops
Program, Agricultural Marketing
Service, U.S. Department of Agriculture,
1400 Independence Avenue SW, Room
1536, South Building; Stop 0240,
Washington, DC 20250; telephone (202)
720-5021; fax (202) 690-1527; or, email
brian.griffin@usda.gov.

SUPPLEMENTARY INFORMATION: This
action, pursuant to 5 U.S.C. 553,
amends regulations issued in 7 CFR
subtitle B, Regulations of the
Department of Agriculture, chapter I,
Agricultural Marketing Service
(Standards, Inspections, Marketing
Practices), Department of Agriculture.
This rule is issued under the
Agricultural Marketing Act of 1946 (7
U.S.C. 1621-1627) and the Egg Products
Inspection Act (21 U.S.C. 1031-1056),
both as amended. This rule is also

issued under 7 CFR parts 51 and 52,
which establish grade standards and
provide for inspection of certain fresh
and processed fruits, vegetables, nuts,
and specialty crops under the
Agricultural Marketing Act of 1946.

This technical amendment
redesignates and revises the heading of
title 7, subtitle B, chapter I, subchapter
C and of each subpart within 7 CFR
parts 51 and 52 so that they are
consistent with OFR requirements. The
subparts were previously incorporated
into 7 CFR parts 51 and 52 without
assigned subpart letter designations.
Further, some headings in subchapter C
include the word "Regulations" in the
title, which is inconsistent with OFR
approved part and subpart headings, as
each part under 7 CFR subtitle B
represents a body of regulations.

For example, the heading of
subchapter C, "Regulations and
Standards under the Agricultural
Marketing Act of 1946 and the Egg
Products Inspection Act", is considered
redundant by the OFR in that it denotes
regulations within a body of regulation.
This rule amends subchapter C by
revising the heading to read,
"Requirements and Standards under the
Agricultural Marketing Act of 1946 and
the Egg Products Inspection Act."

As a further example, the heading for
7 CFR part 51 currently includes two
footnotes that might be considered
regulatory in nature, which is
inconsistent with OFR formatting. This
rule amends part 51 by removing the
footnotes and incorporating the
information from the footnotes
elsewhere in the part, as needed. The
information in Footnote 1 is
incorporated into § 51.2 and the
information from Footnote 2 is
incorporated into a new paragraph (c) to
§ 51.1.

Similarly, footnotes in subpart
headings are removed where the text of
the footnote is addressed in another
provision of the subpart or part.
Likewise, the note accompanying part
52 has been removed because the
substance of that note is already in part
52, specifically § 52.57.

As a final example, the first subpart
of part 51 is currently titled "Subpart—
Regulations." This rule redesignates the
first subpart of part 51 and revises its
title to read "Subpart A—
Requirements." This document makes
similar redesignations and revisions to
the other subparts in parts 51 and 52 to
bring them into compliance with OFR
requirements.

Additionally, 35 FR 6957, May 1,
1970 provided for a title change from
U.S. Standards for Pears for Canning to
U.S. Standards for Grades of Pears for

Processing. This change has not been
reflected in the subsequent Code of
Federal Register publications but is
recognized in this rule.

This final rule is administrative in
nature and makes technical changes to
CFR headings that will have no impact
on the regulated industries.
Accordingly, pursuant to 5 U.S.C.
553(b)(3)(B), notice of proposed
rulemaking and opportunity for
comment are unnecessary, and there is
good cause to proceed with a final rule.
Although there is no formal comment
period, public comments on this rule
are welcome on a continuing basis.
Comments should be submitted to the
address or email under the **FOR FURTHER
INFORMATION CONTACT** section.

This rule falls within a category of
regulatory actions that the Office of
Management and Budget (OMB)
exempted from Executive Order 12866
review. Additionally, because this rule
does not meet the definition of a
significant regulatory action, it does not
trigger the requirements contained in
Executive Order 13771. See OMB's
Memorandum titled "Interim Guidance
Implementing Section 2 of the Executive
Order of January 30, 2017, titled
'Reducing Regulation and Controlling
Regulatory Costs'" (February 2, 2017).

This final rule has been reviewed in
accordance with the requirements of
Executive Order 13175, Consultation
and Coordination with Indian Tribal
Governments. The review reveals that
this regulation would not have
substantial and direct effects on Tribal
Governments nor significant Tribal
implications.

AMS is committed to complying with
the E-Government Act to promote the
use of the internet and other
information technologies, to provide
increased opportunities for citizen
access to Government information and
services, and for other purposes.

USDA has not identified any relevant
Federal rules that duplicate, overlap, or
conflict with this final rule.

BILLING CODE 3410-02-P

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 39**

[Docket No. FAA-2020-0213; Product Identifier 2020-NM-043-AD; Amendment 39-19889; AD 2020-07-10]

RIN 2120-AA64

Airworthiness Directives; Airbus SAS Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: The FAA is adopting a new airworthiness directive (AD) for certain Airbus SAS Model A320-271N airplanes and Model A321-271N, -271NX, and -272N airplanes. This AD was prompted by a report of a gap found on an engine pylon nose fire seal during an inspection of an in-production airplane. This AD requires a one-time detailed inspection of certain engine pylon nose fire seals for correct installation, and applicable corrective actions if necessary, as specified in a European Union Aviation Safety Agency (EASA) AD, which is incorporated by reference. The FAA is issuing this AD to address the unsafe condition on these products.

DATES: This AD becomes effective April 22, 2020.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of April 22, 2020.

We must receive comments on this AD by May 22, 2020.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <https://www.regulations.gov>. Follow the instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590.
- *Hand Delivery:* U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For the material incorporated by reference (IBR) in this AD, contact the EASA, Konrad-Adenauer-Ufer 3, 50668 Cologne, Germany; telephone +49 221 89990 1000; email ADs@easa.europa.eu; internet www.easa.europa.eu. You may find this IBR material on the EASA website at <https://ad.easa.europa.eu>. You may view this IBR material at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206-231-3195. It is also available in the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-0213.

Examining the AD Docket

You may examine the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA-2020-0213; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this AD, the regulatory evaluation, any comments received, and other information. The street address for Docket Operations is listed above. Comments will be available in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT: Sanjay Ralhan, Aerospace Engineer, International Section, Transport Standards Branch, FAA, 2200 South 216th St., Des Moines, WA 98198; telephone and fax 206-231-3223; email Sanjay.Ralhan@faa.gov.

SUPPLEMENTARY INFORMATION:**Discussion**

The EASA, which is the Technical Agent for the Member States of the European Union, has issued EASA AD 2020-0053, dated March 10, 2020 (also referred to as the Mandatory Continuing Airworthiness Information, or “the MCAI”), to correct an unsafe condition for certain Airbus SAS Model A320-271N airplanes and Model A321-271N, -271NX, and -272N airplanes.

This AD was prompted by a report of a gap found on an engine pylon nose fire seal during an inspection of an in-production airplane. The FAA is issuing this AD to address a potential gap in the engine pylon nose fire seal, which, if not detected and corrected, could lead to loss of firewall integrity and, in case of an engine fire, could prevent the ability to extinguish the fire. See the MCAI for additional background information.

Related IBR Material Under 1 CFR Part 51

EASA AD 2020-0053 describes procedures for accomplishing a detailed inspection of engine pylon nose fire seals having part number D0003109300000 for correct installation (no gaps and correctly seated on the bifurcation panels) and corrective actions if necessary (replacement of the fire seal and joint plate assembly). This material is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

FAA’s Determination

This product has been approved by the aviation authority of another country, and is approved for operation in the United States. Pursuant to a bilateral agreement with the State of Design Authority, the FAA has been notified of the unsafe condition described in the MCAI referenced above. The FAA is issuing this AD because the agency evaluated all pertinent information and determined the unsafe condition exists and is likely to exist or develop on other products of the same type design.

Requirements of This AD

This AD requires accomplishing the actions specified in EASA AD 2020-0053 described previously, as incorporated by reference, except for any differences identified as exceptions in the regulatory text of this AD.
