SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision to an existing guide in the NRC’s “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods and techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

RG 8.39 described methods that are acceptable to the NRC staff for implementing specific parts of the NRC’s regulations. Specifically, the RG provides licensees with instructions for patients before and after they receive medical procedures involving the administration of radioactive material, as well as requirements for recordkeeping. The RG also lists activities and dose rates that may be used by licensees for the release of patients in order to meet NRC regulatory requirements.

This revision of the guide (Revision 1) provides licensees with more detailed instructions to provide to patients before and after they have been administered radioactive material than was in Revision 0. In addition, the guide includes a new section on “Death of a Patient Following Radiopharmaceutical or Implants Administrations,” as well as additional guidance for requirements for recordkeeping. Also, Table 3, “Activities of Radiopharmaceuticals that Require Instructions and Records when Administered to Patients who are Breastfeeding an Infant or Child,” has been revised to provide information for the recommended duration of interruption of breastfeeding to ensure that the dose to an infant or child meets the NRC’s regulatory requirements.

II. Additional Information

Proposed revision 1 of RG 8.39 was issued with a temporary identification of Draft Regulatory Guide, (DG)–8057. The NRC published a notice of the availability of DG–8057 in the **Federal Register** on July 29, 2019 (84 FR 36127) for a 30-day public comment period.

The public comment period was extended for another 30 days (84 FR 39383; August 9, 2019). The public comment period closed on September 26, 2019. Public comments on DG–8057 and the staff responses to the public comments are available under ADAMS under Accession No. ML19353B203.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting, Forward Fitting, and Issue Finality

Revision 1 of RG 8.39 does not constitute backfitting as defined in title 10 of the *Code of Federal Regulations* (10 CFR) section 50.109, “Backfitting” and as described in NRC Management Directive (MD) 8.4, “Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests” (ADAMS Accession No. ML18093B087); affect the issue finality of any approval issued under 10 CFR part 52, “Licenses, Certifications, and Approvals for Nuclear Power Plants;” or constitute forward fitting as that term is defined and described in MD 8.4. 10 CFR part 35, “Medical Use of Byproduct Material,” does not include backfitting or issue finality provisions and the forward fitting policy in MD 8.4 does not apply to these licensees. In addition, licensees will not be required to comply with the positions set forth in this RG.

Dated: April 2, 2020.

For the Nuclear Regulatory Commission.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–302 and 72–1035; NRC–2020–0077]

In the Matter of Duke Energy Florida, LLC; Crystal River Unit 3 Nuclear Generating Plant and Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct transfer of license; order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an order approving the transfer to ADP CR3, LLC (ADP CR3) of the licensed authority of

Duke Energy Florida, LLC (DEF) under Facility Operating License No. DPR–72 for the Crystal River Unit 3 Nuclear Generating Plant (CR–3) and the general license for the CR–3 independent spent fuel storage installation (ISFSI) to possess, maintain, and decommission CR–3 and its ISFSI. The order also approves a draft conforming administrative license amendment to reflect the transfer from DEF to ADP CR3. The NRC determined that ADP CR3 is qualified to hold the licenses to the extent proposed, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto, subject to the condition described in the order. The order became effective on April 1, 2020.

DATES: The order was issued on April 1, 2020 and is effective for one year.

ADDRESSES: Please refer to Docket ID NRC–2020–0077 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2020–0077. Address questions about NRC Docket IDs in [Regulations.gov](https://www.regulations.gov) to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC’s PDR:* You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: John B. Hickman, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–3017; email: John.Hickman@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the order is attached. **II**

Dated: April 2, 2020.

For the Nuclear Regulatory Commission.

Bruce A. Watson,

Chief, Reactor Decommissioning Branch, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

Attachment—Order Approving Transfer of Licensed Authority and Draft Conforming Administrative License Amendment

United States of America

Nuclear Regulatory Commission

In the Matter of Duke Energy Florida, LLC; Crystal River Unit 3 Nuclear Generating Plant and its generally licensed ISFSI

Docket Nos. 50–302 and 72–1035

License No. DPR–72

Order Approving Transfer of Licensed Authority and Draft Conforming Administrative License Amendment (EA–20–045)

I

Duke Energy Florida, LLC (DEF) is the holder of Facility Operating License No. DPR–72 for the Crystal River Unit 3 Nuclear Generating Plant (CR–3) and the general license for the CR–3 independent spent fuel storage installation (ISFSI) (collectively, the licenses). DEF is authorized to possess, maintain, and decommission CR–3 and the CR–3 ISFSI (collectively, the CR–3 facility), which are located in Crystal River, Florida. The CR–3 facility is located on the Gulf coast of Florida approximately 80 miles north of Tampa, Florida, within the Crystal River Energy Complex (CREC).

CR–3 was a 2,609 megawatts thermal single-unit pressurized light-water reactor supplied by Babcock & Wilcox that was issued an operating license on January 28, 1977. By letter dated February 20, 2013 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML13056A005), pursuant to Section 50.82(a)(1) of Title 10 of the *Code of Federal Regulations* (10 CFR), DEF notified the U.S. Nuclear Regulatory Commission (NRC, the Commission) that CR–3 had been permanently shut down and that all fuel had been permanently removed from the reactor vessel. Accordingly, pursuant to 10 CFR 50.82(a)(2), the 10 CFR part 50 license for CR–3 no longer authorizes operation of the reactor or emplacement or retention of fuel into the reactor vessel.

By letter dated June 14, 2019 (ADAMS Accession No. ML19170A209), as supplemented by letters dated January 17, 2020 (ADAMS Accession No. ML20017A216), and March 5, 2020 (ADAMS Accession No. ML20065K737), DEF requested, on behalf of itself and ADP CR3, LLC (ADP CR3) (collectively, the Applicants), pursuant to Section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80, “Transfer of licenses,” and 10 CFR 72.50, “Transfer of license,” that the NRC consent to the transfer to ADP CR3 of DEF’s licensed authority under the licenses. Specifically, DEF intends to transfer its NRC-licensed possession, maintenance, and decommissioning authorities to ADP CR3 for the purpose of completing the decommissioning of the CR–3 facility. The application proposed no physical or operational changes to the CR–3 facility.

The NRC published a notice, “Crystal River Unit 3 Nuclear Generating Plant; Duke Energy Florida, LLC; Consideration of Approval of Transfer of License and Conforming Amendment,” in the **Federal Register** (FR) on October 11, 2019 (84 FR 54932). The NRC did not receive any comments or hearing requests on the application.

Pursuant to 10 CFR 50.80, no license for a production or utilization facility, or any right thereunder, shall be transferred, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the Commission gives its consent in writing. Upon review of the information in the application for license transfer, as supplemented, and other information before the Commission, and relying upon the representations and agreements contained in the application, the NRC staff has determined that ADP CR3 is qualified to hold the licenses to the extent proposed, and that the transfer, as described in the application, is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto, subject to the condition set forth below.

Upon review of the information in the application for a conforming administrative license amendment, as supplemented, the NRC staff has determined that:

(1) The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations set forth in 10 CFR Chapter I.

(2) The facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission.

(3) There is reasonable assurance that the activities authorized by the amendment can be conducted without endangering the health and safety of the public, and that such activities will be conducted in compliance with the Commission’s regulations.

(4) The issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public.

(5) The issuance of the amendment is in accordance with 10 CFR part 51 of the Commission’s regulations and all applicable requirements have been satisfied.

The findings set forth above are supported by an NRC staff safety evaluation dated April 1, 2020, which is available at ADAMS Accession No. ML20069A027.

III

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Act, 42 U.S.C. Sections 2201(b), 2201(i), and 2234; and 10 CFR 50.80, 10 CFR 72.50, and 10 CFR 50.90, *it is hereby ordered* that the application for license transfer, as described herein, is approved, subject to the following condition:

Prior to the closing of the license transfer, DEF and ADP CR3 shall provide the Director of the NRC’s Office of Nuclear Material Safety and Safeguards satisfactory documentary evidence that they have obtained the appropriate amount of insurance required of a licensee under 10 CFR 140.11(a)(4) and 10 CFR 50.54(w), consistent with the exemptions issued for CR–3 on April 27, 2015, and March 31, 2016.

It is further ordered that, consistent with 10 CFR 2.1315(b), the license amendment that makes changes, as indicated in Enclosure 2 to the letter transmitting this Order, to reflect the subject license transfer, is approved. The amendment shall be issued and made effective at the time the proposed transfer actions are completed.

It is further ordered that after receipt of all required regulatory approvals of the proposed transfer actions, ADP CR3 shall inform the Director of the NRC Office of Nuclear Material Safety and Safeguards in writing of such receipt, and of the date of the closing of the transfer, no later than 5 business days before the date of the closing of the transfer. Should the proposed transfer not be completed within 1 year of the date of this Order, this Order shall become null and void, provided,

however, that upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

For further details with respect to this Order, see the application dated June 14, 2019 (ADAMS Accession No. ML19170A209), the supplemental letters dated January 17, 2020 (ADAMS Accession No. ML20017A216), and March 5, 2020 (ADAMS Accession No. ML20065K737), and the NRC staff's safety evaluation dated April 1, 2020 (ADAMS Accession No. ML20069A027), which are available for public inspection at the NRC's Public Document Room located at One White Flint North, Public File Area O1-F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available documents created or received at the NRC are accessible electronically through ADAMS in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems accessing the documents located in ADAMS should contact the NRC Public Document Room reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by email to pdr.resource@nrc.gov.

Dated at Rockville, Maryland, this 1st day of April, 2020.

For the Nuclear Regulatory Commission.

John W. Lubinski,

Director, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

OFFICE OF PERSONNEL MANAGEMENT

Submission for Review: 3206-0138, Reinstatement of Disability Annuity Previously Terminated Because of Restoration to Earning Capacity, RI 30-9

AGENCY: Office of Personnel
Management.

ACTION: 60-Day notice and request for
comments.

SUMMARY: The Retirement Services, Office of Personnel Management (OPM) offers the general public and other federal agencies the opportunity to comment on a revised information collection request (ICR), Reinstatement of Disability Annuity Previously Terminated Because of Restoration to Earning Capacity, RI 30-9.

DATES: Comments are encouraged and will be accepted until June 8, 2020.

ADDRESSES: You may submit comments, identified by docket number and/or Regulatory Information Number (RIN) and title, by the following method:

—*Federal Rulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

All submissions received must include the agency name and docket number or RIN for this document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: A copy of this ICR with applicable supporting documentation, may be obtained by contacting the Retirement Services Publications Team, Office of Personnel Management, 1900 E Street NW, Room 3316-L, Washington, DC 20415, Attention: Cyrus S. Benson, or sent via electronic mail to Cyrus.Benson@opm.gov or faxed to (202) 606-0910 or via telephone at (202) 606-4808.

SUPPLEMENTARY INFORMATION: As required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35) as amended by the Clinger-Cohen Act (Pub. L. 104-106), OPM is soliciting comments for this collection (OMB No. 3206-0138). The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

RI 30-9, Reinstatement of Disability Annuity Previously Terminated Because of Restoration to Earning Capacity, informs former annuitants of their right to request reconsideration. It also specifies the conditions to be met and the documentation that must be

submitted with a request for reinstatement.

Analysis

Agency: Retirement Operations, Retirement Services, Office of Personnel Management.

Title: Reinstatement of Disability Annuity Previously Terminated Because of Restoration to Earning Capacity (RI 30-9).
