SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is authorized by Public Law 90–448 (1968) and expanded by Public Law 93–234 (1973) and requires that the Federal Emergency Management Agency (FEMA) provide flood insurance. FEMA delineates flood zones on a Flood Insurance Rate Map to identify Special Flood Hazard Areas (SFHAs) in a community. Title 44 CFR 60.3(c)(2) requires that all new construction and substantial improvements of residential structures within SFHA Zones A1–30, AE and AH zones have the lowest floor, including the basement, elevated to or above the base flood level unless an exception is granted. Title 44 CFR 60.6(a)(7) and 44 CFR 60.6(b)(1) allow communities to apply for an exception when circumstances present a hardship that would not allow for adherence to the requirement for elevation above the base flood level. This exception must meet the conditions set forth in 44 CFR 60.6(c). When owners of residential structures in these zones are seeking flood insurance, they must be certified that the structural design is floodproof.
