

The revisions are to include training on the above terms for all miners involved in well intersection prior to mining within 150 feet of the well which is to be mined through.

(18) The required person under 30 CFR 75.1501 Emergency Evacuations is responsible for emergencies relating to the intersection and this person will review intersection procedures before the intersection occurs.

(19) Within 30 days of when this PDO is finalized, the petitioner will submit a revised emergency evacuation and firefighting training program, required by 30 CFR 75.1502. The petitioner will revise the program to incorporate hazards and evacuation plans used for well intersection. All underground miners will be trained in the above plan revisions within 30 days of submittal.

(20) The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection from the potential hazards against which the existing standard for 30 CFR 75.1700 is intended to guard.

*Docket Number:* M-2020-006-C.

*Petitioner:* Nelson Brothers, LLC, P.O. Box 8276, South Charleston, WV 25303.

*Mines:* Workman Creek Surface Mine, MSHA I.D. No. 46-09475, located in Raleigh County, West Virginia; No. 1 Surface Mine, MSHA I.D. No. 46-06870, located in Nicholas County, West Virginia; Twilight Mtr. Surface Mine, MSHA I.D. No. 46-08645, located in Boone County, West Virginia.

*Regulation Affected:* 30 CFR 77.1302(k) Vehicles used to transport explosives.

*Modification Request:* The petitioner requests that a previously granted petition for modification, Docket No. M-2009-043-C, be amended. The petitioner proposes to add Workman Creek Surface Mine, MSHA I.D. No. 46-09475 to the Proposed Decision and Order (PDO), while removing from the PDO: No. 1 Surface Mine, MSHA I.D. No. 46-06870 (no longer active) and Twilight Mtr. Surface Mine, MSHA I.D. No. 46-08645 (which the petitioner does not service anymore). On January 31, 2011, the petition for modification to 30 CFR 77.1302(k), Docket No. M-2009-043-C, was granted; the PDO permitted the petitioner's alternative method of repairing and maintaining vehicles containing explosives or detonators. Under this PDO, employees are allowed to perform routine repair or maintenance work under non-permanent shelters constructed in remote areas of the mine where normal mining activities are not occurring. The petitioner asserts that at the new mine

cited above, the alternative method included in Docket No. M-2009-043-C will at all times guarantee no less than the same measure of protection afforded the miners under 30 CFR 77.1302(k).

**Roslyn Fontaine,**
