SUPPLEMENTARY INFORMATION:

I. Discussion

Pursuant to section 2.106 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the issuance of renewal of a 10 CFR part 40 license, SUB-526, to Honeywell International Inc. The license authorizes Honeywell to possess and use source material, and sources used in gauges, in the operation of uranium source conversion at its Metropolis Works Facility in Metropolis, IL. This licensee's original request for a 40-year license renewal was made on February 8, 2017. A notice of receipt of the license renewal application with an opportunity to request a hearing and petition for leave to intervene was published in the **Federal Register** on June 19, 2017 (82 FR 27880). The NRC did not receive a request for a hearing or for a petition for leave to intervene. The license renewal application was subsequently revised and supplemented by letters dated September 20, 2017, October 8, 2018, July 7, 2019 and December 19, 2019. The December 19, 2019 version of the License Renewal Application is a standalone document that integrates the information provided in Honeywell's responses to the NRC staff's requests for additional information.

An environmental assessment and finding of no significant impact were prepared for the proposed renewal of license SUB-526 for Honeywell's uranium source conversion facility in Metropolis IL. A **Federal Register** notice documenting the completion of NRC's environmental review was published on October 16, 2019 (84 FR 55339).

This license renewal complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the NRC's rules and regulations as set forth in 10 CFR Chapter 1. Accordingly, the license renewal issued on March 24, 2020, was effective immediately. The NRC prepared a safety evaluation report for the renewal of License SUB-526, and concluded that the licensee can continue to operate the facility without endangering the health

and safety of the public and will not significantly affect the quality of the human environment for the duration of the license.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 212, "Qualifications Investigation Professional, Technical, and

Administrative Positions." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on October 17, 2019 (84 FR 55593).

1. *The title of the information collection*: NRC Form 212, "Qualifications Investigation Professional, Technical, and Administrative Positions.
2. *OMB approval number*: 3150–0033.
3. *Type of submission*: Extension.
4. *The form number if applicable*: NRC Form 212.
5. *How often the collection is required or requested*: The form is collected for every new hire to the NRC.
6. *Who will be required or asked to respond*: Former employers, supervisors, and other references indicated on the job application are asked to complete the NRC Form 212.
7. *The estimated number of annual responses*: 500.
8. *The estimated number of annual respondents*: 500.
9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request*: 250.

10. *Abstract*: Information requested on NRC Form 212 is used to determine the qualifications and suitability of applicants for employment in professional, technical, and administrative positions with the NRC. The completed form may be used to examine, rate and/or assess the prospective employee's qualifications. The information regarding the qualifications of applicants for employment is reviewed by professional personnel in OCHCO, in conjunction with other information in the NRC files, to determine the qualifications of the applicant for appointment to the position under consideration.
