#### B. Submitting Comments

Please include Docket ID NRC-2019-0212 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

## II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection*: NRC Form 4, "Cumulative Occupational Exposure History."
2. *OMB approval number*: 3150-0005.
3. *Type of submission*: Extension.
4. *The form number, if applicable*: NRC Form 4.
5. *How often the collection is required or requested*: On occasion. The NRC does not collect NRC Form 4. However, NRC inspects the NRC Form 4 records at NRC-licensed facilities. In addition, NRC licensees must provide the NRC Form 4 to workers annually and each time a monitored transient worker changes employment sites.
6. *Who will be required or asked to respond*: NRC licensees who are required to comply with part 20 of title 10 of the *Code of Federal Regulations* (10 CFR).
7. *The estimated number of annual responses*: 241,014 (234,988 third party disclosure responses + 4,146 recordkeepers + 1,880 reporting responses).
8. *The estimated number of annual respondents*: 5,946.
9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 65,954 (7,050 third-party disclosure + 58,747 recordkeeping + 157 reporting).
10. *Abstract*: The NRC Form 4 is used to record the summary of an occupational worker's cumulative occupational radiation dose, including prior occupational exposure and the current year's occupational radiation exposure. The NRC Form 4 is used by licensees, and inspected by the NRC, to ensure that occupational radiation doses do not exceed the regulatory limits specified in 10 CFR 20.1501.

## III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents

be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: April 9, 2020.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-3392; NRC-2017-0143]

### Honeywell International Inc.; Metropolis Works Facility

**AGENCY**: Nuclear Regulatory Commission.

**ACTION**: License renewal; issuance.

**SUMMARY**: The U.S. Nuclear Regulatory Commission (NRC) has issued a renewed license SUB-526, Docket No. 40-3392, to Honeywell International Inc. for its Metropolis Works (MTW) Facility uranium source conversion facility in Metropolis, IL. The renewed license expires on March 24, 2060. This action informs the public of the renewal of the issuance for the Honeywell MTW and discusses the staffs finding with respect to the issuance of the renewed license.

**DATES**: The license referenced in this document became available on March 24, 2020.

**ADDRESSES**: Please refer to Docket ID NRC-2017-0143 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Website*: Go to <https://www.regulations.gov> and search for Docket ID NRC-2017-0143. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: [Jennifer.Borges@nrc.gov](mailto:Jennifer.Borges@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to

[pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

**FOR FURTHER INFORMATION CONTACT:** David Tiktinsky, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-8740, email: [David.Tiktinsky@nrc.gov](mailto:David.Tiktinsky@nrc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Discussion**

Pursuant to section 2.106 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the issuance of renewal of a 10 CFR part 40 license, SUB-526, to Honeywell International Inc. The license authorizes Honeywell to possess and use source material, and sources used in gauges, in the operation of uranium source conversion at its Metropolis Works Facility in Metropolis, Il. This licensee's original request for a 40-year license renewal was made on February 8, 2017. A notice of receipt of the license renewal application with an opportunity to request a hearing and petition for leave to intervene was published in the **Federal Register** on June 19, 2017 (82 FR 27880). The NRC did not receive a request for a hearing or for a petition for leave to intervene. The license renewal application was subsequently revised and supplemented by letters dated September 20, 2017, October 8, 2018, July 7, 2019 and December 19, 2019. The December 19, 2019 version of the License Renewal Application is a standalone document that integrates the information provided in Honeywell's responses to the NRC staff's requests for additional information.

An environmental assessment and finding of no significant impact were prepared for the proposed renewal of license SUB-526 for Honeywell's uranium source conversion facility in Metropolis Il. A **Federal Register** notice documenting the completion of NRC's environmental review was published on October 16, 2019 (84 FR 55339).

This license renewal complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the NRC's rules and regulations as set forth in 10 CFR Chapter 1. Accordingly, the license renewal issued on March 24, 2020, was effective immediately. The NRC prepared a safety evaluation report for the renewal of License SUB-526, and concluded that the licensee can continue to operate the facility without endangering the health

and safety of the public and will not significantly affect the quality of the human environment for the duration of the license.

**II. Availability of Documents**

The documents identified in the following table are available to interested persons through one or more of the following methods, as indicated.

Document	ADAMS Accession No.
Honeywell International, Inc., Honeywell Metropolis Works "Application for Renewal of USNRC Source Materials, SUB-526," February 8, 2017 .....	ML17048A263
