

In response to the NOI, the Commission received comments from the North Dakota Department of Environmental Quality (DEQ) and two landowners. The North Dakota DEQ recommended the Project avoid Source Water Protection Areas, section 303(d) Waters, and surface and groundwater drinking sources. The DEQ also stated that WBI Energy should obtain a Stormwater Construction Permit and implement proper monitoring for the early leak detection. The primary environmental issues raised by the other commentors were project location, trespassing, impacts on water resources and soils, seeding, and spreading of weeds. All substantive comments will be addressed in the EA.

The Bureau of Land Management, the U.S. Army Corps of Engineers, and the U.S. Forest Service are cooperating agencies in the preparation of the EA.

OMB Control No.: 1902–0019.

Type of Request: Three-year extension of the FERC Form No. 73 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission collects FERC Form No. 73 information as part of its authority under the Interstate Commerce Act, 49 U.S.C. 60501, *et al.* FERC Form No. 73 contains necessary information for the review of oil pipeline companies' proposed depreciation rates, as regulated entities are required to provide service life data illustrating the remaining physical life of an oil pipeline's properties, in order to calculate the company's cost of service and its transportation rates to access customers. ¹ "Burden" is the total time, effort, or financial resources expended by persons to generate,

maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation

of what is included in the information collection burden, refer to 5 CFR 1320.3.
