

collection of information is necessary to enable the Service to garner customer and stakeholder feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. Additionally, this new programmatic clearance is needed in order to be more responsive to Secretarial Orders 3355 (National Environmental Policy Act), 3356 (hunting and fishing opportunities), 3362 (big game habitat), and 3366 (outdoor recreation). This proposed new collection of information will also allow the Service to improve customer service delivery and response. This is important because OMB Circular A-11 designates the Service as a High-Impact Service Provider.

The programmatic clearance applies to social science surveys, interviews, and focus groups designed to provide information to Service managers and practitioners to improve quality and utility of agency programs, services, and planning efforts. To ensure continuous improvement, Service activities and projects require ongoing systematic

assessment of their design, implementation, and outcomes. Data from collections undertaken through the proposed programmatic clearance would provide information for planning, monitoring, and evaluating National Wildlife Refuge System efforts as well as efforts of other Service programs. The scope of this programmatic clearance includes individual surveys, focus groups, and interviews of refuge visitors, potential visitors, and residents of communities near Service-managed units, and stakeholders and partners, including tribal interests.

To qualify for the generic programmatic review process, survey questions must show a clear tie to Service management needs. The programmatic review may only be used for noncontroversial information collections that are unlikely to attract or include topics of significant public interest. We must obtain OMB approval of all surveys developed using the pre-approved suite of questions before the survey can be initiated. This suite of

questions will be used to develop customer experience and satisfaction surveys to meet requirements of OMB Circular A-11 as well as commitments to respond to the above-named Secretarial Orders.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Consolidated Consumers' Report

AGENCY: U.S. Geological Survey (USGS), Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, we, the U.S. Geological Survey (USGS) are proposing to renew an Information Collection.

DATES: Interested persons are invited to submit comments on or before May 18, 2020.

ADDRESSES: Send your comments on this Information Collection Request (ICR) to the Office of Management and Budget's Desk Officer for the Department of the Interior by email at *OIRA_Submission@omb.eop.gov*; or via facsimile to (202) 395-5806. Please provide a copy of your comments to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to *gs-info_collections@usgs.gov*. Please reference OMB Control Number 1028-0070 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Elizabeth S. Sangine by email at *escottssangine@usgs.gov*, or by

telephone at 703-648-7720. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on October 30, 2019, 84 FR 58171. We did not receive any public comments in response to that notice.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comments addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Respondents to this form supply the USGS with domestic consumption data for 12 metals and ferroalloys, some of which are considered strategic and critical, to assist in determining Defense National Stockpile Center goals. These data and derived information will be published as chapters in Minerals Yearbooks, monthly Mineral Industry Surveys, annual Mineral Commodity Summaries, and special publications, for use by Government agencies, industry

education programs, and the general public.
