BILLING CODE 4710-05-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Receipt of Noise Compatibility Program and Request for Review; Burlington International Airport, South Burlington, Vermont

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Burlington International Airport under the provisions of the Aviation Safety and Noise Abatement Act, hereinafter referred to as “the Act,” and by the City of Burlington. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted for Burlington International Airport were in compliance with applicable requirements, effective September 26, 2019. The proposed noise compatibility program will be approved or disapproved on or before October 11, 2020.

DATES: The effective date of the start of FAA’s review of the noise compatibility program is April 14, 2020. The public comment period ends June 13, 2020.

FOR FURTHER INFORMATION CONTACT: Richard Doucette, Federal Aviation Administration, New England Region Airports Division, 1200 District Ave., Burlington, MA 01803. Phone: 781-238-7613. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise

compatibility program for Burlington International Airport which will be approved or disapproved on or before October 11, 2020. This notice also announces the availability of this program for public review and comment. An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has formally received the noise compatibility program for Burlington International Airport, effective on April 17, 2020. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to FAR part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before October 11, 2020.

The FAA’s detailed evaluation will be conducted under the provisions of 14 CFR part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program can be viewed online at the airport’s website: www.btvsound.com, by contacting the airport via the website: www.btvsound.com/contact/, or by calling 802-863-2874.

Questions may be directed to the individual named above under the heading: **FOR FURTHER INFORMATION CONTACT.**

Issued in Burlington, Massachusetts, on April 17, 2020.

Julie Seltsam-Wilps,

Deputy Director, Airports Division, FAA New England Region.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2020-0387]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Domestic and International Flight Plans

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves extracting flight data such as aircraft, routing speed, etc. from domestic and international flights. FAA Form 7233-1, Flight Plan: Domestic flight plan information is used to govern the flight of aircraft for the protection and identification of aircraft and property and persons on the ground. The information is used by air traffic controllers, search and rescue (SAR) personnel, flight standards inspectors, accident investigators, military, law enforcement, and the Department of Homeland Security. FAA Form 7233-4, International Flight Plan: International flight plan information is used for the same purposes as domestic flight plans; in addition, it is used by Customs and international controllers.

DATES: Written comments should be submitted by June 22, 2020.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number into search field).
