POLICY JUSTIFICATION

Morocco—AGM-84L Harpoon Air Launched Block II Missiles

The Government of Morocco has requested to buy ten (10) AGM-84L Harpoon Block II Air Launched missiles. Also included are containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The total estimated cost is \$62 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally that continues to be an important force for political stability and economic progress in North Africa.

The proposed sale of the missiles and support will increase the Moroccan Air Force's maritime partnership potential and align its capabilities with existing regional baselines. Morocco intends to use the missiles on its F-16, multi-role fighter aircraft to enhance its capabilities in effective defense of critical sea-lanes. Morocco will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and services will not alter the basic military balance in the region.

The prime contractor will be The Boeing Company, St. Louis, Missouri.

The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will require annual trips to Morocco involving U.S. Government and contractor representatives for technical reviews, support, and oversight for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-10

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM-84L Harpoon Air Launched Block II missile system is classified CONFIDENTIAL. The Harpoon missile is a non-nuclear tactical weapon system currently in service in the U.S. Navy and in 29 other foreign nations. It provides a day, night, and adverse weather, standoff air-to-surface capability and is an effective Anti-Surface Warfare missile. The AGM-84L incorporates components, software, and technical design information that are considered sensitive. These elements are essential to the ability of the Harpoon missile to selectively engage hostile targets under a wide range of operations, tactical and environmental conditions. The version being sold to Morocco is a Non-Coastal Target Suppression land attack weapon. The following components being conveyed by the proposed sale that are considered sensitive and are classified CONFIDENTIAL include:

- a. The Radar Seeker
 - b. The GPS/INS System
 - c. Operational Flight Program Software
 - d. Missile operational characteristics and performance data
2. If a technologically advanced adversary were to obtain knowledge of

the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that Morocco can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Morocco.

The Honorable Nancy Pelosi
 Speaker of the House
 U.S. House of Representatives
 H-209, The Capitol
 Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 20-08, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of India for defense articles and services estimated to cost \$63 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

Charles W. Hooper
 Lieutenant General, USA
 Director

Transmittal No. 20-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of India

(ii) *Total Estimated Value:*

Major Defense Equipment *	\$30 million
Other	\$33 million
Total	\$63 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE):
 Sixteen (16) MK 54 All Up Round Lightweight Torpedoes (LWT)
 Three (3) MK 54 Exercise Torpedoes (MK 54 LWT Kit procurement required)
Non-MDE:
 Also included are MK 54 spare parts; torpedo containers; two (2) Recoverable Exercise Torpedoes (REXTORP) with

containers; Fleet Exercise Section (FES) and fuel tanks built into MK 54 LWT Kits (above); air launch accessories for fixed wing; spare parts; training, publications; support and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics support.

(iv) *Military Department:* Navy (IN-P-ABH)

(v) *Prior Related Cases, if any:* IN-P-AAR

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex.

(viii) *Date Report Delivered to Congress:* April 13, 2020

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

India—MK 54 Lightweight Torpedoes

The Government of India has requested to buy sixteen (16) MK 54 All Up Round Lightweight Torpedoes (LWT); and three (3) MK 54 Exercise Torpedoes (MK 54 LWT Kit procurement required). Also included are MK 54 spare parts; torpedo containers; two (2) Recoverable Exercise Torpedoes (REXTORP) with containers; Fleet Exercise Section (FES) and fuel tanks built into MK 54 LWT Kits (above); air launch accessories for fixed wing; spare parts; training, publications; support and test equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics support. The estimated program cost is \$63 million.

This proposed sale will support the foreign policy and national security of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the security of a major defensive partner, which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia region.

The proposed sale will improve India's capability to meet current and future threats from enemy weapon systems. The MK 54 Lightweight Torpedo will provide the capability to conduct anti-submarine warfare missions. India will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. India intends to utilize MK 54 Lightweight Torpedoes on its P-8I aircraft. India will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Integrated Defense System, Portsmouth, Rhode Island. There are no known offset agreements proposed in connection with this potential sale. Any offset agreement required by India will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the assignment of additional U.S. Government and/or contractor representatives to India; however, U.S. Government Engineering and Technical Services will be required on an interim basis for training and technical assistance.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The MK 54 Torpedo is a conventional torpedo that can be launched from surface ships, rotary and fixed wing aircrafts. The MK 54 is an upgrade to the MK 46 Torpedo. The upgrade to the MK 54 entails replacement of the torpedo's sonar and guidance and control systems with modern technology. The new guidance and control system uses a mixture of commercial-off-the-shelf and custom-built electronics. The warhead, fuel tank and propulsion system from the MK 46 torpedo are re-used in the MK 54 configuration with minor modifications. There is no sensitive technology in the MK 54 or its support and test equipment. The assembled MK 54 torpedo and several of its individual components are classified CONFIDENTIAL. The MK 54 operational software is classified as SECRET. The Government of India has not requested nor will it be provided with the source code for the MK 54 operational software.

2. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that India can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to further the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed on this transmittal have been authorized for release and export to the Government of India.
