POLICY JUSTIFICATION

India—AGM-84L Harpoon Air-Launched Block II Missiles

The Government of India has requested to buy ten (10) AGM-84L Harpoon Block II air launched missiles. Also included are containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, Specialized Assignment Airlift Missions (SAAM), U.S. Government and contractor representatives technical assistance, engineering, and logistics support services, and other related elements of logistics and program support. The estimated program cost is \$92 million.

This proposed sale will support the foreign policy and national security of the United States by helping to strengthen the U.S.-Indian strategic relationship and to improve the security of a major defensive partner, which continues to be an important force for political stability, peace, and economic progress in the Indo-Pacific and South Asia region.

The proposed sale will improve India's capability to meet current and future threats from enemy weapon systems. The Harpoon missile system will be integrated into the P-8I aircraft to conduct anti-surface warfare missions in defense of critical sea lanes while enhancing interoperability with the United States and other allied forces. India will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. India will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company, St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale. Any offset agreement required by India will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the assignment of additional U.S. Government and/or contractor representatives to India; however, U.S. Government or contractor personnel in-country visits will be required on a temporary basis in conjunction with program technical oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-14

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AGM-84L Harpoon Air Launched Block II Missile System is classified CONFIDENTIAL. The Harpoon missile is a non-nuclear tactical weapon system currently in-service in the U.S. Navy and 29 other foreign nations. It provides a day, night, adverse weather, stand-off air-to-surface capability and is an effective Anti-Surface Warfare missile. The AGM-84L incorporates components that are considered sensitive. These elements are essential to the ability of the Harpoon missile to selectively engage hostile targets under a wide range of operations, tactical and environmental conditions. The version being sold to the Government of India is a Coastal Target Suppression land attack weapon. The following components being conveyed by the proposed sale are considered sensitive and are classified CONFIDENTIAL:

- a. The Radar Seeker
- b. The GPS/INS System
- c. Operational Flight Program

Software

d. Missile operational characteristics and performance data

2. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that India can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to further the U.S. foreign policy and national security objectives outlined in the Policy Justification.

4. All defense articles and services listed on this transmittal have been authorized for release and export to the Government of India.

POLICY JUSTIFICATION

The Netherlands—Excalibur Projectiles

The Government of the Netherlands has requested to buy one hundred ninety-nine (199) Excalibur Increment IB M982A1 tactical projectiles. Also included with this request is U.S. Government technical assistance, training, associated support equipment, and other related elements of logistics and program support. The total estimated program cost is \$40.55 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve security of a NATO ally which is an important force for political stability and economic progress in Northern Europe.

The Netherlands will integrate these munitions with conventional artillery units equipped with the PzH2000NL self-propelled howitzer (SPH) to provide precision fires capability in order to reduce collateral damage and increase effectiveness in various areas of operation. The Netherlands will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be the Raytheon Company, Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-22

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Excalibur M982A1 Increment IB projectile is a Global Positioning System (GPS) Precise Positioning Service (PPS) guided precision munition that uses deployable fins and canards to guide the projectile to the target. The Excalibur is designed for use on digitized 155mm howitzers, including: the M109A6 Paladin, the M109A5 Self-Propelled Howitzer, the M198 Towed Howitzer, and the M777A2 Light Weight Howitzer. The highest classification of items included in this potential sale is up to and including SECRET.

2. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

3. A determination has been made that the Netherlands can provide substantially the same degree of protection for the technology being

released as the U.S. Government. This potential sale is necessary in furtherance of the U.S. foreign policy and national security objectives as outlined in the Policy Justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to the Netherlands.
