SUPPLEMENTARY INFORMATION: Under the PRA, 44 U.S.C. 3501 *et seq.*, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed amendment to the collection listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Title: Adaptation of Regulations to Incorporate Swaps-Records of Transactions; Exclusion of Utility Operations Related Swaps with Utility Special Entities From De minimis Threshold for Swaps With Special Entities (OMB Control No. 3038-0090). This is a request for extension of a currently approved information collection.

Abstract: Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act, Pub L. No. 111-203, 124 Stat. 1376 (2010)) amended the Commodity Exchange Act (CEA) to establish a comprehensive new statutory framework for swaps. These amendments required the Commodity Futures Trading Commission (“the

Commission”) to amend several of its regulations to implement the new framework.

The information collection obligations imposed by the “Adaptation of Regulations to Incorporate Swaps” final regulations¹ are necessary to implement section 721 of the Dodd-Frank Act, which amended the definitions of futures commission merchant (“FCM”) and introducing broker (“IB”) to permit these intermediaries to trade swaps on behalf of customers. They also are necessary to implement section 733 of the Dodd-Frank Act which introduced swap execution facilities (“SEFs”) as a new trading platform for swaps. As a result of the enactment of sections 721 and 733, the Commission needed to amend certain recordkeeping regulations (1.31, 1.33, 1.35, 1.37, and 1.39) so that records of swap transactions are maintained analogously to how futures transactions are maintained.

Further, the “Exclusion of Utility Operations-Related Swaps With Utility Special Entities From De Minimis Threshold for Swaps With Special Entities”² regulation amended the Commission’s swap dealer definition to permit a person to exclude “utility operations-related swaps” with “utility special entities” in their de minimis threshold calculations. The regulation requires a person claiming the exclusion to maintain in accordance with Commission regulation 1.31 any written representations that the person receives from utility special entities related to this exclusion.

The information collection burdens associated with these regulations (collectively, the “Swap Recordkeeping Requirements”) are restricted to the costs associated with the recordkeeping and reporting requirements that these regulations impose upon affected registrants, registered entities, those registered entities’ members, and other respondents covered by the final rules.

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the

¹ Adaptation of Regulations to Incorporate Swaps, 77 FR 66288 (Nov. 2, 2012).

² Exclusion of Utility Operations-Related Swaps With Utility Special Entities From De Minimis Threshold for Swaps With Special Entities, 79 FR 57767 (Sept. 26, 2014).

validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.³

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under the

Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The Commission is revising its estimate of the burden for this collection for futures commission merchants, retail foreign exchange dealers, introducing brokers, and members of designated contract markets and swap execution facilities. The respondent burden for this collection is estimated to be as follows:⁴

Estimated Number of Respondents: 13,664.

Estimated Annual Burden Hours per Respondent: 163.

Estimated Total Annual Burden Hours: 2,233,722.

Frequency of Collection: As needed.

There are no capital costs or operating and maintenance costs associated with this collection.
