

service as required for Phase 1 transit to be in revenue operation.

UDOT prepared an EIS Re-evaluation for the Refined Selected Alternative's proposed changes to the Phase 1 transit elements of the 2008 ROD's Selected Alternative. A 30-day public review and comment period on the EIS Re-evaluation was provided from April 17 to May 16, 2019. During the comment period, UDOT received 26 comments. The comments included support for the changes to Phase 1 transit, opposition to transit projects, requests for additional stops on the Phase 1 transit's Express Bus, requests for additional transit improvements or other transit projects, and questions about the Phase 1 transit's Express Bus. The decision to approve the Refined Selected Alternative for the MVC Project was based on UDOT's review of the entire record including the 2008 MVC Final EIS and the 2019 EIS Re-evaluation as well as technical reports, correspondence, and other information developed as part of the environmental review process for the project.

The actions by UDOT, and the laws under which such actions were taken, are described in the EIS Re-evaluation approved on August 26, 2019, the Revised ROD approved on January 15, 2020, and other documents in the UDOT project records. The EIS Re-evaluation and Revised ROD are available for review by contacting UDOT at the address provided above. In addition, these documents can be viewed and downloaded from the project website at <http://www.udot.utah.gov/mountainview>. This notice applies to the EIS Re-evaluation, the Revised ROD, and all other UDOT and federal agency decisions and other actions with respect to the project as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to the following laws (including their implementing regulations):

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA–2020–0031]

Program Approval: Union Pacific Railroad

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of approval.

SUMMARY: FRA is issuing this notice to explain its rationale for approving a Union Pacific Railroad (UP) petition for a Test Program designed to test track inspection technologies (*i.e.*, autonomous track geometry measurement systems) and new operational approaches to track inspections and its rationale for granting a limited, temporary suspension of a substantive FRA rule that is necessary to facilitate the conduct of the Test Program.

FOR FURTHER INFORMATION CONTACT: Yu-Jiang Zhang, Staff Director, Track Division, Office of Railroad Safety, FRA, 1200 New Jersey Avenue SE, Washington, DC 20590, telephone (202) 493–6460 or email yujiang.zhang@dot.gov; Aaron Moore, Attorney, Office of Chief Counsel, FRA, 1200 New Jersey Avenue SE, Washington, DC 20590, telephone (202) 493–7009 or email aaron.moore@dot.gov.

SUPPLEMENTARY INFORMATION: On March 23, 2020, UP petitioned FRA under Title 49 Code of Federal Regulations (CFR) Section 211.51 to suspend certain requirements of FRA's track safety regulations to conduct a program to test new track inspection technologies (*i.e.*, autonomous track geometry measurement systems) and new operational approaches to track inspections. UP also submitted a written Test Program providing a description of the proposed tests and the geographic scope of the testing territory.

The Test Program specifies that the tests will be conducted on approximately 1,700 miles of main line track in 5 subdivisions of UP's SPSCL and Sunset routes.

The Test Program is designed to test autonomous track geometry measurement systems and decreased

manual visual inspections as an alternative to FRA's inspection frequency requirements. UP indicates that it will continue to use other inspection technologies during the Test Program, including: (1) Vehicle Track Interaction monitoring systems; (2) ultrasonic rail inspection systems; and (3) optical joint bar inspection systems. The Test Program will be carried out in two separate phases over the course of 12 months, as detailed in Exhibit C of the Test Program (available for review at www.regulations.gov (docket number FRA-2020-0031)).

After review and analysis of UP's petition for a Test Program, subject to certain conditions designed to ensure safety, FRA approved UP's Test Program and suspended the requirements of 49 CFR 213.233(c) as necessary to carry out the Test Program. A copy of FRA's letter approving UP's Test Program and granting the requested limited temporary suspension of 49 CFR 213.233(c), as well as a copy of the Test Program, is available in docket number FRA-2020-0031 at www.regulations.gov. FRA's letter approving UP's Test Program and granting the requested limited temporary suspension of certain regulations specifically details the conditions UP will need to undertake during the Test Program. As required by 49 CFR 211.51(c), FRA is providing this explanatory statement describing the Test Program.

As explained more fully in its approval letter, FRA finds that the temporary, limited suspension of 49 CFR 213.233(c) is necessary to conduct the approved Test Program, which is specifically designed to evaluate the effectiveness of new automated track inspection technologies and operational methods. Furthermore, FRA also finds that the scope and application of the granted suspension of 49 CFR 213.233(c) as applied to the Test Program are limited to that necessary to conduct the Test Program. Finally, FRA's approval letter outlines the conditions of the Test Program that will ensure standards sufficient to assure safety.

Issued in Washington, DC.

*Associate Administrator for Railroad Safety,
Chief Safety Officer.*

Maritime Administration

[Docket No. MARAD-2019-0011]

Deepwater Port License Application: SPOT Terminal Services LLC; Correction and Comment Period Extension

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of Correction and Extension of the Public Comment Period.

SUMMARY: By **Federal Register** notice of Friday, February 7, 2020, titled *Deepwater Port License Application: SPOT Terminal Services LLC*, the U.S. Coast Guard (USCG), in coordination with the Maritime Administration (MARAD), announced the availability of the Draft Environmental Impact Statement (DEIS) for the SPOT Terminal Services LLC (SPOT) deepwater port license application for the export of oil from the United States to nations abroad. Publication of that notice began a 45-day public comment period, which began on February 7, 2020 and ended on March 23, 2020. On April 28, 2020, the same notice was inadvertently published in the **Federal Register**. Additionally, both notices announced the date and location of an informational open house and public meeting that was held in Lake Jackson, Texas, on February 26, 2020, from 6:00 p.m. to 8:00 p.m., and was preceded by an open house from 4:00 p.m. to 6:00 p.m. However, nationwide impacts of the public health emergency under section 319 of the Public Health Services Act in response to Coronavirus Disease 2019 (COVID-19), the President's declaration of a national emergency due to the COVID-19 outbreak, and state and local actions in response to COVID-19, have impacted the public's ability to assemble and provide feedback on the SPOT deepwater port license application DEIS. Therefore, this notice supplants the April 28, 2020 notice and extends the public comment period for the SPOT DEIS 30-days from the publication date of this **Federal Register** notice.

DATES: Comments or related material on the SPOT deepwater port license application must be received 30 days from the date of this notice.

ADDRESSES: The public docket for the SPOT deepwater port license application is maintained by the U.S. Department of Transportation, Docket Management Facility, West Building,

Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590. The license application is available for viewing at the *Regulations.gov* website: <http://www.regulations.gov> under docket number MARAD-2019-0011.

We encourage you to submit comments electronically through the Federal eRulemaking Portal at <http://www.regulations.gov>. If you submit your comments electronically, it is not necessary to also submit a hard copy. If you cannot submit material using <http://www.regulations.gov>, please contact either Mr. William Nabach, USCG or Yvette Fields, MARAD, as listed in the following **FOR FURTHER INFORMATION CONTACT** section of this document, which also provides alternate instructions for submitting written comments. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted. Anonymous comments will be accepted. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. The Federal Docket Management Facility's telephone number is 202-366-9317 or 202-366-9826, the fax number is 202-493-2251.

FOR FURTHER INFORMATION CONTACT: Mr. William Nabach, Project Manager, USCG, telephone: 202-372-1437, email: William.A.Nabach2@uscg.mil; or Ms. Yvette Fields, Director, Office of Deepwater Port Licensing and Port Conveyance, MARAD, telephone: 202-366-0926, email: Yvette.Fields@dot.gov.

SUPPLEMENTARY INFORMATION:

Request for Comments

We request public comment on this proposal. The comments may relate to, but are not limited to, the environmental impact of the proposed action. All comments will be accepted. You may submit comments directly to the Federal Docket Management Facility during the public comment period (see Dates). We will consider all comments and material received during the extended scoping period.

The license application, comments and associated documentation, as well as the draft and final EISs (when published), are available for viewing at the Federal Docket Management System (FDMS) website: <http://www.regulations.gov> under docket number MARAD-2019-0011.
