Proposed Collection; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Extension:

Regulation 13D and Regulation 13G;
Schedule 13D and Schedule 13G

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the office of

Management and Budget for extension and approval.

Schedules 13D and 13G (17 CFR 240.13d-101 and 240.13d-102) are filed pursuant to Sections 13(d) and 13(g) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(d) and 78m(g)) ("Exchange Act") and Regulations 13D and 13G (17 CFR 240.13d-1—240.13d-7) thereunder to report beneficial ownership of equity securities registered under Section 12 (15 U.S.C. 78l) of the Exchange Act. Regulations 13D and 13G provide investors, the subject issuers, and market participants with information about the accumulation of equity securities that may have the potential to change or influence control of an issuer. Schedules 13D and 13G are filed by persons, including small entities, to report their ownership of more than 5% of a class of equity securities registered under Section 12. We estimate that it takes approximately 14.5 burden hours to prepare a Schedule 13D and it is filed by approximately 1,508 filers. In addition, we estimate that 25% of the 14.5 hours per response (3.625 hours per response) is carried internally by the filer for a total annual reporting burden of 5,467 hours (3.625 hours per response × 1,508 responses).

We estimate that it takes approximately 12.4 hours per response to prepare a Schedule 13G and it is filed by approximately 7,079 filers. In addition, we estimate 25% of the 12.4 hours per response (3.1 hours per response) is carried internally by the filer for a total annual reporting burden of 21,945 hours (3.1 hours per response × 7,079 responses).

The Schedules combined are filed by 8,587 filers and they take approximately 12.769 hours per response. In addition, we estimate 25% of the 12.769 (3.19225 hours per response) is carried internally by the filer for a total annual reporting burden of 27,412 hours (3.1923 hours per response × 8,587 responses). The estimated burden hours are made solely for purposes of the Paperwork Reduction Act and are not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms.

Written comments are invited on: (a) Whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including

through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

Please direct your written comments to David Bottom, Director/Chief Information Officer, Securities and Exchange Commission, c/o Cynthia Roscoe, 100 F Street, NE, Washington DC, 20549 or send an email to: PRA_Mailbox@sec.gov.

Dated: April 28, 2020.

J. Matthew DeLesDernier,
Assistant Secretary.

BILLING CODE 8026-03-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in Utah

AGENCY: Utah Department of Transportation (UDOT); Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Notice of limitations on claims for judicial review of actions by UDOT and other Federal agencies.

SUMMARY: The FHWA, on behalf of UDOT, is issuing this notice to announce actions taken by UDOT that are final Federal agency actions. The final agency actions relate to design modifications to a planned and approved highway project, the West Davis Corridor project in Davis County, Utah, and more specifically to UDOT's re-evaluation of the Environmental Impact Statement and Section 4(f) Evaluation for the project in light of design modifications to the system interchange by which the West Davis Corridor project (State Route 67) will connect with Interstate 15 (I-15) and Legacy Parkway. Those actions grant licenses, permits and/or approvals for the project.

DATES: By this notice, FHWA, on behalf of UDOT, is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of these Federal agency actions on the highway project will be barred unless the claim is filed on or before September 28, 2020. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Elisa Albury, Environmental Program Manager, UDOT Environmental Services, P.O. Box 143600, Salt Lake City, UT 84114; (801)-965-4000; email: elalbury@utah.gov. UDOT's normal business hours are 8 a.m. to 5 p.m. (Mountain Time Zone), Monday through Friday, except State and Federal holidays.

SUPPLEMENTARY INFORMATION: Effective January 17, 2017, FHWA assigned to UDOT certain responsibilities of FHWA for environmental review, consultation, and other actions required by applicable Federal environmental laws and regulations for highway projects in Utah, pursuant to 23 U.S.C. 327. FHWA maintained responsibility of the environmental review process of the West Davis Corridor project until its issuance of a Record of Decision (ROD). UDOT is responsible for conducting any additional environmental reviews (including re-evaluations) that are required for the West Davis Corridor project following the issuance of the ROD. Actions taken by UDOT on FHWA's behalf pursuant to 23 U.S.C. 327 constitute Federal agency actions for purposes of Federal law. Notice is hereby given that UDOT has taken final agency actions subject to 23 U.S.C. 139(l)(1) by issuing licenses, permits, and approvals for a modification of the West Davis Corridor project in the State of Utah.

On June 23, 2017, FHWA approved the Final Environmental Impact Statement and Section 4(f) Evaluation (EIS) for the West Davis Corridor Project, and on September 29, 2017 FHWA issued a ROD approving the project. On October 6, 2017, FHWA published notice of the EIS and ROD in the **Federal Register** triggering the 150-day statute of limitations under 23 U.S.C. 139(l)(1) for the project. The project is included in UDOT's adopted 2020-2025 State Transportation Improvement Plan (STIP) as project number 11268 and is scheduled for right of way acquisition and construction to begin in fiscal year 2020, being let as a design-build contract. The project is also included in the Wasatch Front Regional Council's *2019-2050 Regional Transportation Plan*.

UDOT has now updated the design of the system interchange at the south end of the project by which the West Davis Corridor project (State Route 67) will interconnect with I-15 and Legacy Parkway to accommodate a planned widening of I-15 by one lane in each direction. With the planned widening of I-15, it was not possible to have the ramp connections as identified in the Selected Alternative in the EIS and ROD without either 1) having substantial impacts to the residential areas of Farmington and Centerville east of the Frontage Road or 2) relocating the Union Pacific Railroad tracks. To minimize costs and impacts while accommodating a planned additional lane in each direction on I-15, the design of the system interchange described in the Selected Alternative

has been refined to have the ramp from southbound West Davis Corridor to southbound I-15 parallel Legacy Parkway for approximately 0.3 mile and then cross Legacy Parkway and the Union Pacific Railroad tracks before merging onto I-15 near 1800 North in Centerville (approximately 0.7 mile south of the EIS Selected Alternative's southbound I-15 merge). The design of the Legacy Parkway Trail in the area of the system interchange has also been refined.

These changes to the Selected Alternative are referred to as the Refined Selected Alternative and are the subject of, and are described in more detail in, UDOT's April 8, 2020 EIS re-evaluation (UDOT Project Number S-0067(14)0, S.R. 67, West Davis Corridor; WDC/I-15/Legacy Parkway System Interchange in Davis County, Utah (PIN 7176) *Environmental Impact Statement Re-evaluation #13*(EIS Re-evaluation).

The actions by UDOT, and the laws under which such actions were taken, are described in the EIS Re-evaluation and other documents in the UDOT project records. The EIS Re-evaluation is available for review by contacting UDOT at the address provided above. This notice applies to the EIS Re-evaluation, the Section 4(f) determination, the NHPA Section 106 review, the Endangered Species Act determination, the noise review and noise abatement determination, and all other UDOT and federal agency decisions and other actions with respect to the EIS Re-evaluation and the Refined Selected Alternative as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to the following laws (including their implementing regulations):
